### MINUTE 3 OF THE EXPERT PANEL

Request for Information from Applicant  
Kings Quarry Expansion – Stage 2 [FTAA-2502-1018]

(25 August 2025)

---

- 1) The Expert Panel undertook a site visit on 19 August 2025. The site visit was useful to contextualise the application within the site and its surrounds.
- 2) During the site visit the Applicant advised the Panel that the Hellyer Road ecological offset site would no longer be included in the application and that all proposed ecological offsetting and compensation would now occur on the Oldfield Road site.

The Panel seeks to understand the implications of this amendment to the application and requests that the Applicant provide all updated material in relation to this matter **prior to 16 September 2025**.

- 3) Included in this information should be a clear explanation of any resource consents required to enable the proposed mitigation to occur (particularly the culvert removal, works for wetland enhancement and works for predator control fences).
