Minor Corrections to the Panel's decision

The Environmental Protection Authority (EPA) has requested that the Department of Conservation (DOC) inform them as soon as possible of any minor corrections to the Panel's decision dated 15 October 2026, in relation to the Hunua Quarry Fast-track application (FTAA-2603-1185), in accordance with section 89 of the Fast-track Approvals Act 2024.

DOC notes the following matters for the Panel's consideration of minor corrections:

- Resource Consent Condition 62(b) was modified at s70 stage to reflect changes to the application, specifically proposed salvage efforts in upstream reaches of Tributary 4 during Stage 2, and requires;

(b) plans identifying the locations where salvage of fish and kōura will be undertaken, and in Tributaries 3 and 4 restrict salvage to culvert installation sites only at Stage 2;

It is recommended that Condition 1(c) of *Appendix H: Complex Freshwater Fisheries Activity Approval Conditions* be updated to reflect this change and achieve consistency across the conditions set. Condition 1(c) currently requires;

(c) plans identifying the locations where salvage of fish and kōura will be undertaken and in Tributary 3 restrict salvage to culvert installation sites only at Stage 2; and culvert installation sites and upstream reaches of Tributary 4 during Stage 2;

Nāku noa, nā

Linda Kirk
Fast Track Applications Manager

Acting pursuant to delegated authority on behalf of the Director-General of Conservation.

Note: A copy of the Instrument of Delegation may be inspected at the Director-General's office at Conservation House Whare Kaupapa Atawhai, 18/32 Manners Street, Wellington 6011
