Community Pest Control Initiative – Oparure Quarry

We have reviewed the proposed Oparure Quarry extension and have no further comments to add to the application.

However, we would like to take this opportunity to put forward an idea for a **community-led pest control initiative** in the surrounding Oparure area.

We are already involved in pest control and native habitat restoration on our own property and believe there is an opportunity to expand these efforts by involving neighbouring Oparure landowners and the wider community.

We would be interested in discussing whether Graymont might consider supporting or sponsoring an initiative like this, helping to protect local biodiversity and contribute towards New Zealand's Predator Free 2050 goals.

This is simply an idea at this stage, but we would welcome the opportunity to discuss it further and explore what might be possible.

Thank you for your comments
