RESOURCE CONSENT

- Notes
1. All works to be in accordance with Waikato Regional Infrastructure Technical Specifications.
  2. Co-ordinates in terms of NZ Geodetic Datum Mount Eden 2000.
  3. Levels in terms of the NZ Vertical Datum 2016.
  4. Boundaries are subject to final survey.
  5. It is the Contractors responsibility to locate all services that may be affected by his operations.
  6. The Contractors shall obtain all necessary approval from utility operators before commencing work under or near their services.
  7. Final pavement design subject to CBR/Beam tests on subgrade material.
  8. Setout schedule with co-ordinates of chainage points along road centerline to be supplied to the Contractors prior to construction.
  9. Refer to long section for finished centerline levels. Refer to typical cross sections to obtain levels for other locations.
  10. Vehicle crossing to be constructed by others unless otherwise stated.
  11. The Contractor may, with the agreement of the Engineer, adopt the alternative pavement design as specified on typical cross section, provided that the subgrade can achieve a minimum of CBR 3.
  12. Traffic signs and markings to be in accordance with MOTSAM and NZTA TCD manual.
  13. Centerline type 1: 100mm solid lane line
  14. Centerline type 2 : 100mm dashed 3-7 lane line
