

APPENDIX A – LIST OF RESOURCE CONSENTS

Activity	Regulation/Rules	Activity Status
NES-F		
To undertake, for the purposes of quarrying activities: • vegetation clearance, earthworks and land disturbance within, and within 10m of, natural inland wetlands; and • dewatering of the Symonds Hill Pit (earthworks, groundwater take and stream diversion works) within 100m of two natural inland wetlands that will result in complete drainage of those wetlands.	Regulation 45A	Discretionary
To reclaim approximately 1,200m of the Mangapū Tributary during Stage 2 of the Project and realign the stream.	Regulation 57	Discretionary
To construct culverts on Mangapū Stream tributaries 3 and 4 in Stage 2 of the Project for the western haul road.	Regulation 71	Discretionary
NES-CS		
To disturb soil within the stockyard areas.	Regulation 9	Controlled
AUP		
<i>RMA s 9 land use consents</i>		
<u>Special Purpose Quarry Zone (H28)</u>		
To undertake mineral extraction activities	Rules C1.9(2) and H28.4.1(A7) and standards for noise (H28.6.2.1) and vibration and blasting (H28.6.2.2)	Restricted discretionary
To undertake land disturbance (including earthworks and mineral extraction activities), including inside and outside the Sediment Control Protection Area of the Mangapū Stream and a number of Mangapū tributaries that traverse the Site.	Rules H28.4.2(A14), (A15), (A16), (A17) and (A18).	Controlled
<u>Rural – Mixed Rural Zone</u>		
To undertake mineral extraction activities.	Rule H19.8.1(A60)	Discretionary
To undertake land disturbance (including earthworks and mineral extraction activities) within the Rural – Mixed Rural	Rules E11.4.1(A8), and (A9) and E12.4.1(A6) and (A10)	Restricted discretionary

Activity	Regulation/Rules	Activity Status
Zone, including within the sediment control protection areas of Mangapū Tributary 1 and the new channel/stream.		
To undertake blasting in the Rural – Mixed Rural Zone	Rule E25.4.1(A2) and standard E25.6.31.	Restricted discretionary
<u>Auckland wide provisions</u>		
To undertake land disturbance (including earthworks and mineral extraction activities) within the SEA and ONL overlays.	Rules E11.4.3 (A28) and (A30) and E12.4.2(A30) and (A33)	Restricted discretionary
To undertake land disturbance within a riparian yard that does not relate to operation, maintenance or repair works and will exceed 5m ² and 5m ³ of general earthworks.	Rule C1.9(2) and standard E12.6.2(1).	Restricted discretionary
To undertake construction works within flood hazard areas (including the construction of the Stage 1 bridge, Stage 2 culverts, and the haul roads) which may take longer than 28 days for each structure.	Rule C1.9(2) and standard E12.6.2(13).	Restricted discretionary
To undertake vegetation removal. Specifically, to remove: - greater than 250m² of indigenous vegetation contiguous since 30 September 2013 and outside the rural urban boundary; - vegetation along the Mangapū Tributary which is within the Natural Stream Management Areas Overlay; - vegetation within 20m of tributaries of the Mangapū stream that are within the SPQZ at Stages 1, 2, 3 and 7 of the Project; - vegetation within 10m of the Mangapū tributary, within the Rural Mixed Zone at Stages 1, 4 and 7 of the Project; - vegetation within 20m of a natural wetland; - greater than 50m² of contiguous indigenous vegetation (approximately 6ha) within an ONL overlay; and - vegetation within an SEA overlay and within the SPQZ.	E15.4.1(A10), (A12), (A16), (A17) and (A18) and E15.4.2(A28) and (A44)	Restricted discretionary
To remove vegetation within an SEA overlay and outside the SPQZ.	E15.4.2(A43)	Discretionary

Activity	Regulation/Rules	Activity Status
A crossing width of 17m at the site boundary.	Rule E27.4.1(A2), standard E27.6.4.2(2) and Table E27.6.4.3.2.	Restricted discretionary
<i>RMA s 11 subdivision consent</i>		
To undertake a boundary adjustment between Lot 6 DP 152736 (163 Middleton Road) and Lot 2 DP 115598 (255 Middleton Road).	Rule E39.4.1(A10) and the controlled activity standards in E39.6.3.2(3)	Discretionary
<i>RMA s 13 land use consents</i>		
To construct a temporary 7m bridge in Stage 1 of the Project across the Mangapū tributary to enable access for the construction of the stream diversion channel.	Rule E3.4.1(A29)	Discretionary inside ONL and SEA
To construct culverts on Mangapū Stream tributaries 2 and 4 in Stage 2 of the Project for the western haul road.	Rule E3.4.1(A33)	Discretionary outside ONL and SEA
To reclaim approximately 1,200m of the Mangapū tributary.	Rule E3.4.1(A49)	Non-complying inside or outside overlays
To construct a temporary bridge across the Mangapū tributary to provide access for the proposed diversion channel in Stage 1 of the Project, and a culvert in Stage 2 of the Project, which are located within the 1% AEP floodplain.	Rule E36.4.1A(A98)	Restricted discretionary
To construct the diversion channel and Stage 2 culverts in landslide hazard risk area.	Rule E36.4.1B (A129)	Controlled
<i>RMA s 14 water permits</i>		
To divert approximately 1,200 m of the Mangapū tributary, subject to the Natural Stream Management Area Overlay, of which: - the majority of the part of the stream to be diverted is located within an SEA; and - a small segment is also within an ONL.	Rule E3.4.1(A19)	Non-complying inside ONL and SEA
Diverting surface water within a Natural Stream Management Areas Overlay.	Rule E7.4.1(A13) and standard E7.6.1.2(1)	Discretionary
To dewater the Symonds Hill Pit with an associated groundwater diversion.	Rule E7.4.1(A20)	Restricted discretionary

Activity	Regulation/Rules	Activity Status
To take 2,610m ³ /day of groundwater for the quarry operations.	Rule E7.4.1(A26)	Discretionary
To divert groundwater.	Rule E7.4.1(A28)	Restricted discretionary
To divert stormwater runoff to sediment retention ponds and to subsequently discharge to the Mangapū Stream.	Rule E8.4.1(A10) ¹	Discretionary
<i>RMA s 15 discharge permits</i>		
To discharge water into the Mangapū Stream.	Rule E4.4.1(A15)	Discretionary
To discharge contaminants from mineral extraction activities at a rate exceeding 200 tonnes/hour within the Special Purpose Quarry Zone into a low air quality – dust and odour area (quarry)	Rule E14.4.1(A91)	Controlled
To discharge contaminants from mineral extraction activities at a rate exceeding 200 tonnes/hour within the Rural – Mixed Rural Zone into a medium air quality – dust and odour rural area.	Rule E14.4.1(A91)	Discretionary

¹ E8.4 and Table E8.4.1 of the AUP explain that this rule relates to both ss 14 and 15.
