

6 August 2025

To whom it may concern:

I understand that Westpower Limited is applying under the Fast-track Approvals Act 2024 for various approvals, including resource consents that would otherwise be applied for under the Resource Management Act 1991.

Westpower has consulted with me [REDACTED] Farm Manager, residing on McLean Farm in the Waitaha Valley. The farm comprises:

- Rural Section 933 and Rural Section 4047
- Section 1-4 Survey Office Plan 11859 and Lot 2 Deposited Plan 376096.

Upon reviewing the relevant information about the proposed Waitaha Hydro scheme, specifically the footprint of the activities on the farm comprising the access road, transmission line and the use of temporary areas for spoil disposal and construction staging area, and the temporary gravel screening site (as shown on the map in Appendix A), I hereby confirm that a consent for these activities will not be in conflict with the current use and enjoyment of the land.
