To whom it may concern,

**Re: Parkburn Fast Track Application by Fulton Hogan Land Development
Compliance and Enforcement**

With reference to Section 13(4) of the FTAA, Section 43(2) requires a substantive application to include a summary of compliance or enforcement actions (if any) and the outcome of those actions taken against the applicant under a specified Act.

I can confirm that across all FHLD sites currently and historically in New Zealand, they have been subject to two Abatement Notices issued by Auckland Council in July and December 2024.

The July 2024 Abatement Notice related to earthworks that FHLD had undertaken for drainage purposes, and they were unaware that this technically required resource consent under the National Environmental Standards: Freshwater and AUP (OP). FHLD has complied with all requirements of the Abatement Notice, and it has been closed by Auckland Council.

The December 2024 Abatement Notice related to works undertaken in a waterway by a farmer leasing Future Urban Zoned land owned by FHLD. FHLD undertook the necessary steps on behalf of the farmer to resolve the matter, and it has been closed by Auckland Council.

Yours sincerely

GREG DEWE

Fulton Hogan Land Development
