Philip Jenkins

I can receive emails and the above address is correct

Comments:

1. Please consider noise and safety mitigation North of The Pegasus Interchange along the eastern side of SH1 and the boundary with Pegasus Golf course as far as Preeces Road. This would greatly enhance living conditions of properties close to the motorway and avoid potential accidents caused by stray golf shots. This could be achieved using a combination of a bund and planting.
2. This project will provide significant benefits to all the adjacent communities, particularly Pegasus and Woodend, along with all commercial and public road users. As noted the original design was lodged in 2015. Time now to move forward and build this Bypass so everyone can enjoy the many advantages listed.

Thank you for the opportunity to comment
