Re: Haldon Solar Farm Response to s70

Lodestone thanks the Panel for the considerable time and care it has taken in preparing the updated draft conditions circulated for comment under section 70 of the Fast-track Approvals Act 2024.

Having carefully reviewed the updated draft conditions, Lodestone confirms that it accepts the conditions proposed by the Panel.

Attached is a tracked-changes version of the Mackenzie District Council conditions. No amendments are proposed to the Environment Canterbury conditions. The tracked changes are limited to a small number of minor drafting amendments, including corrections to typographical errors, formatting and cross-references, together with one technical amendment to an ecological condition on which the Panel specifically invited further feedback.

Lodestone has also completed Attachment 6 by identifying the plans and information submitted in support of the application that are relevant to the Mackenzie District Council conditions.

Lodestone thanks the Panel for its thorough and careful consideration of the application throughout the fast-track process. We appreciate the opportunity to provide these comments and look forward to responding to any additional comments raised by other parties.

Yours faithfully,

Daniel Cunningham

GM, Development

Lodestone Energy Limited
