

Outlook

Pound road industrial development

From [REDACTED]**Date** Tue 2025-11-04 7:33 AM**To** FastTrack Substantive <substantive@fasttrack.govt.nz>

Dear panel

From looking at the plan and reading the report it and seeing the traffic the existing industrial in the area generates it is evident it will be quite busy including lots of trucks . From looking at the plan it seems logical that barters road would be used many of the industrial properties nearest barters road to access the transport general network including state highway one . There is some information but not much detailed information on the barters road and barters road Waterloo road intersection improvement . I just ask that the panel looks at the detailed proposed barters road and barters road Waterloo road intersection improvements to make sure they are fit for purpose and handle the traffic well .

Thanks Carey Jones
