16 March 2026

[1] A conference will be held on **31 March 2026 at 3pm**. A MS Teams invite will shortly be sent.

[2] The purpose of this conference is to gather participant views on matters arising in relation to the application filed under the Fast-track Approvals Act 2024 (FTAA). Your views will inform two decisions that I must make as panel convener regarding:

- (c) Relevant administering agencies –
 - (i) Heritage New Zealand Pouhere Taonga
 - (ii) Ministry for the Environment

Timeframe for a decision

[4] The Panel Convener decides the appropriate timeframe for release of the decision on the application. The Convener does so having had regard to the scale, nature, and complexity of the approvals sought (among other matters).⁵ Complexity is in part a function of the issues that arise on this application.

[5] If the timeframe for a decision is not appropriate this risks -

- (a) insufficient time being allowed, impacting the quality of the decision-making;
- (b) not adequately engaging with the wider requirements of public law leaving the decision susceptible to appeal or review; or
- (c) an overallocation of time which would not satisfy the procedural principles in section 10 of the Act.

[6] At the conference participants are invited to:

- (a) comment on the level of complexity including any novel or difficult legal issues, any evidential complexity, or any factual complexity;
- (b) identify, as a feature of this complexity, the principal issues in contention or other disputed matters;
- (c) state whether the drafting of proposed consent conditions (including any draft management plan filed) is accepted; and

interest to comment.

⁵ FTAA, section 79.

- (d) propose efficient processes to enable the panel to understand, resolve or narrow the scope of any likely issues and indicate how these processes may be accounted for under the decision timeframe.

[7] It is anticipated that the local authorities and administering agencies will obtain input from planning and technical advisors to identify the likely issues. However, an assessment of merits is not required at this stage. For information about cost recovery, please refer to the EPA's cost-recovery policy (details below).

Composition of the Panel

[8] While I am not seeking nominations, I will be seeking the participants' views on the skills, knowledge and expertise of the persons to be appointed to the panel.

Accessibility and recording of the panel convener's conference

[9] The conference will be held remotely, with access provided to participants. The conference will be recorded, and a copy of the recording will be made available on the fast-track website.

[10] The application documents can be viewed on the fast-track website [here](#):

Cost recovery

[11] Cost recovery for participation in fast-track processes is determined by the FTAA and the Fast-track Approvals (Cost Recovery) Regulations 2025.

Preparation

[13] In the interests of taking all practical steps to use timely, efficient, consistent

and cost-effective processes, I ask that participants take the time to consider the range of matters set out in Schedules 1 and 2 and come prepared to discuss them.

Participants may find useful the Guidance Note to the practices and processes under the Act. It is found [here](#).

Directions

[14] I direct:

- (a) The participants are to file a written response to the matters set out in this Minute, including Schedules 1 and 2 (attached).
- (b) Written responses and confirmation of attendance are to be filed by **5pm 25 March 2026**.

Panel convener for the purpose of the Fast-track Approvals Act 2024

Draft decision and conditions to Ministers (s 72)	XXX W/D (say)	XXX 2026

⁶ Note 1: a draft decision to decline is not included in this timeframe. If the statutory timeframe it is insufficient for applicant to respond, the applicant will need to apply to suspend the application under s 64 FTAA. Consideration should also be given to the timing of ss 70 and 72 steps.

⁷ Note 2: the order of ss 69, 70 and 72 steps may differ case-by-case. On a decision to approve, sequencing s 72 before s 70 is simplest, albeit requiring more time than running ss 72 and 70 steps in parallel.
