

Fast-track Approvals Act 2024 Substantive Application Form Guidance

This is the substantive application form approved by the EPA in accordance with sections 43(1)(a) and (4) of the Fast-track Approvals Act 2024 (**the Act**). You will need to submit your substantive application through our digital Fast-track Portal. This application form will assist you with preparing your application in the manner required.

*Guidance note: You will need to prepare your application for submission to our digital Fast-track Portal. To submit your application successfully via our digital Fast-track Portal, you will be required to upload your application in accordance with the below step by step instructions. Please note that the guidance notes throughout this document serve as a **guide only** and are intended to help you become familiar with the process. It is not a substitute for the official application process, which you will undertake when you receive a log-in to the Fast-track Portal.*

Steps to prepare your application

1. Accessing the digital Fast-track Portal

- You will be required to submit your application via our secure digital Fast-track Portal. Please ensure you have access to the Fast-track Portal and are able to log in before starting your application.

2. Review the Requirements in this Application Form Guidance Document

- Carefully review the application requirements included in this document, including any supporting documents you must provide.

3. Prepare Your Documents

- Prepare all necessary files, consultation documents, and technical reports in advance. Ensure that your files are in the correct format (all popular formats such as e.g., PDF, Word and excel are supported) and meet the specified size limits.
- If your application is assessed as complete and referred to a panel for decision making, the EPA will publish your application on the Fast-track website. For this purpose, please prepare and provide to the EPA a redacted version of your application in addition to that omits all personal or otherwise confidential and commercially sensitive information.

4. Step-by-Step Application Process

- The Act provides for applicants to apply for a number of approvals under several existing Acts. The information required to lodge an application for each type of approval varies under the Act. Each of the checklists included in this document sets out these specific information requirements. If you are applying for multiple approvals, you will need to complete all relevant checklists.
- When preparing your application in the Fast-track Portal, you will select all relevant approval types and be prompted to provide the information accordingly down into manageable steps within the Fast-track Portal. Follow the instructions carefully, and

ensure all required fields are completed before moving to the next stage. Before final submission, review your entire application to confirm that all details are accurate and that all supporting documents are attached. Mistakes or missing information may result in your application being assessed as incomplete.

5. Submission Confirmation

- Once your application is submitted in the Fast-track Portal, you will receive a confirmation email indicating that your application has been successfully received. If you do not receive this email, please contact our support team.

Part 1: Authorised person details

Guidance note:

- For a listed project, the project name should be the same as that identified in Schedule 2 and the authorised person should be the person specified for the project listed in Schedule 2.
- For a referred project, the authorised person should be the person specified by the Minister as the person authorised to lodge the substantive application under section 27(2).
- For either a listed or referred project, if there is more than 1 authorised person, details should be provided for all authorised persons.

Subsequent parts in this form refer to the 'applicant' or in some instances 'authorised person'. For the purposes of this form, this means the authorised person (and any agent) specified in this part.

☐ An initial access arrangement or a variation to an existing access arrangement that would otherwise be applied for under section 61 of the Crown Minerals Act 1991 (section 42(4)(l)). If yes, please complete **checklist I**.

Is the applicant the holder of an appropriate permit required by section 61 of the Crown Minerals Act 1991 (section 42(10)(a))?

☐ Yes ☐ No

Is the applicant also applying for a mining permit under section 42(4)(n) (section 42(10)(b))?

☐ Yes ☐ No

Guidance note: If the application is lodged by more than 1 authorised person, the applicant for the purposes of section 42(10) is the person who is proposed to hold the approval (section 42(12)).

Please only answer the following question if the application is for a listed project:

Has the applicant complied with the requirements in section 59(1) and (2) of the Crown Minerals Act 1991, by serving on each owner and occupier of the relevant land a notice in writing of the applicant's intention to obtain an access arrangement, that includes the specified matters (section 29(1)(b))?

☐ Yes ☐ No

Guidance note: If there is more than 1 authorised person for a listed project, the authorised person who is the proposed holder of the approval described in section 42(4)(l) (initial access or variation to existing access arrangement) must comply with the requirements in section 29(1)(b).

- ☐ An access arrangement that would otherwise be applied for under section 61B of the Crown Minerals Act 1991 or a variation to an access arrangement granted under that section (section 42(4)(m)). If yes, please complete **checklist I**.

Please only answer the following question if the application is for a listed project:

Has the applicant complied with the requirements in section 59(1) and (2) of the Crown Minerals Act 1991, by serving notice on each owner and occupier of the relevant land a notice in writing of the applicant's intention to obtain an access arrangement, that includes the specified matters (section 29(1)(b))?

- ☐ Yes ☐ No

Guidance note: If there is more than 1 authorised person for a listed project, the authorised person who is the proposed holder of the approval described in section 42(4)(m) (access arrangement) must comply with the requirements in section 29(1)(b).

- ☐ A mining permit that would otherwise be applied for under section 23A of the Crown Minerals Act 1991 (section 42(4)(n)). If yes, complete **checklist I1** for mineral mining permits and **checklist I2** for petroleum mining permits.

Prior to lodging this application, did the applicant lodge the information specified in section 37(2) with the relevant chief executive?

- ☐ Yes ☐ No

Guidance note:

- *This is not a requirement; however, an applicant may lodge this information under section 39(2). The information required is set out in section 39(2).*
- *The information lodged under section 39(2) must not be lodged unless any fee, charge, or levy payable under Fast-track Approvals (Cost Recovery) Regulations 2025 in respect of the land exchange application is paid (section 39(3)),*
- *If there is more than 1 authorised person, any 1 of the authorised persons may lodge the information on behalf of all of them (section 39(4)).*

Please confirm whether the following apply (section 42(11)(a)-(f)):

- ☐ The approval is sought for 1 or more deposits of 1 or more minerals
- ☐ The applicant holds exploration permits or existing privileges that apply to those minerals and have more than 3 months before they expire

- ☐ The area of land for which the approval is sought is within, or the same as, the area of land to which those exploration permits or existing privileges apply
- ☐ The application proposes that those exploration permits or existing privileges be surrendered in relation to the area of land over which the approval is sought
- ☐ The proposed term of the approval is no more than 40 years
- ☐ Granting the approval would not be prevented by any of sections 25(6) and (7) and 30(8) of the Crown Minerals Act 1991 if the approval were applied for under the Act

Guidance note: If the application is lodged by more than 1 authorised person, the applicant for the purposes of section 42(11) is the person who is proposed to hold the approval (section 42(13)).

Part 4: Requirements for substantive application

Guidance note: This part identifies the requirements for a substantive application in sections 43 and 46 and that are not otherwise addressed in other parts of this form or the checklists. Please ensure that the information provided is specified in sufficient detail to satisfy the purpose to which it is required (section 44).

Subpart 1: General requirements for substantive application

Does the application relate solely to a listed project or a referred project (whichever applies) (section 46(2)(b))?

☐ Yes ☐ No

Are there any differences from the application and the project as described in Schedule 2 (for a listed project) or in the notice of the Minister's decision under section 28 (for a referred project) (section 46(2)(b))?

☐ Yes ☐ No

If yes, please provide details on the difference(s) and describe how they relate, or do not relate, to the project as described in Schedule 2 (for a listed project) or in the notice of the Minister's decision under section 28 (for a referred project).

Please explain how the project is consistent with the purpose of the Act (section 43(1)(b)(i)). Or, if the application was referred under section 21(1)(a) of the Act, please explain how both the stage to which the application relates and the whole project are consistent with the purpose of the Act, and provide information relating to the likelihood that any later stages of the project will be completed (section 43(1)(b)(ii)(A) and (B)).

[]

If the application is lodged by more than 1 authorised person, please state for each approval identified in part 3, which proposed approval is to be held by which authorised person (section 43(1)(d)):

Guidance note: Section 42(3) requires that, for each approval sought, the applicant must be eligible for any corresponding authority under a specified Act or, if the application is lodged by more than 1 authorised person, the authorised person who is proposed to hold the approval sought must be a person who would be eligible to apply for any corresponding approval under a specified Act.

[]

If applicable, please explain how the application complies or does not comply with any information requirements specified by the Minister under section 24 (section 43(1)(e)(i)):

[]

Have you completed the relevant checklist(s) identified in part 3 as relevant to the approval(s) sought (section 43(3))?

☐ Yes ☐ No

If yes, please identify which checklists have been completed:

☐ Checklist A (resource consent and/or change or cancellation of resource consent condition)

☐ Checklist A1 (resource consent including subdivision and/or reclamation)

☐ Checklist A2 (resource consent that includes a standard freshwater fisheries activity)

☐ Checklist B (certificate of compliance)

☐ Checklist C (designation or alteration of existing designation)

☐ Checklist D *Conservation and Reserves Approvals*

☐ D1 (concession)

☐ D2 (conservation covenant)

☐ D3 (land exchange)

☐ Checklist E (wildlife approval)

☐ Checklist F (archaeological authority)

☐ Checklist F1 (archaeological authority – approved person)

☐ Checklist G (complex freshwater fisheries approval)

☐ Checklist H (marine consent)

☐ Checklist I (access arrangements).

☐ Checklist I1 (mineral mining permit)

☐ Checklist I2 (petroleum mining permit)

Does the application comply with all the requirements for the approval(s) sought, as set out in the relevant checklist (sections 43(1)(e)(ii) and 43(3))?

☐ Yes ☐ No

Subpart 2: Specific requirements for listed project

Guidance note: Please only complete this subpart if this application is for a listed project. Section 43(2) provides for additional information requirements for a listed project with reference to the requirements in section 14(4) (other than sections 13(4)(b), (f)(ii) and (iii) and (g)). Those requirements are set out in checklist J and must be provided with a substantive application for a listed project.

Have you completed **checklist J** in relation to a listed project (section 43(2))?

☐ Yes

☐ No

Part 5: Personal or otherwise sensitive information

☐ Please confirm you have checked all the application documents for personal information such as personal contact details for you (the applicant) and any other individual, including persons identified as owners or occupiers of land or affected persons.

☐ I have checked all the application documents for commercially sensitive or otherwise confidential information, which may be withheld from public release under the Act or under the Official Information Act 1982.

☐ I have provided a redacted version of the application (clearly labelled) that does not disclose personal or otherwise confidential or commercially sensitive information which may be withheld under the Act or under the Official Information Act 1982, for publication on the fast-track website.

Part 6: Signature

- ☐ I hereby certify that, to the best of my knowledge and belief, the information given in this application is true and correct, and that I am authorised to make this application.

CHECKLIST A – Resource consent, change to or cancellation of a resource consent

Checklist A must be completed if you are applying for an approval under section 42(4)(a) (resource consent) and/or section 42(4)(b) (change or cancellation of resource consent condition). The substantive application must comply with these requirements. The checklist is designed to assist you in providing all the relevant information. If an application does not comply with all requirements, then the EPA must return it to the person who lodged it.

This checklist, and checklist A1 and A2, set out the requirements in clauses 5 – 9 of Schedule 5, unless they have already been addressed in the substantive form.

If the application is for a subdivision or reclamation, in addition to checklist A, checklist A1 must also be completed.

If the application includes a standard freshwater fisheries activity, checklist A2 must be completed.

If this checklist is being completed for an approval for a change or cancellation of a resource consent, clause 10 of Schedule 5 provides that the application include the information required in clauses 5-9 of Schedule 5, and those clauses apply as if reference to a resource consent were to the change or cancellation of a condition and an activity were to the effects of the change or cancellation of the condition.

2(1)(h)	A statement of the location or locations in which the activity will be carried out, including a map (and GPS co-ordinates if available)		
2(1)(i)	A statement of whether authorisation is sought to temporarily hold or relocate wildlife		
2(1)(j)	A list of all actual and potential wildlife effects (adverse or positive) of the proposed activity, including effects on the target species, other indigenous species, and the ecosystems at the site		
2(1)(k)	Where adverse effects are identified, state what methods will be used to avoid and minimise those effects, and any offsetting or compensation proposed to address unmitigated adverse effects (including steps taken before the project begins, such as surveying, salvaging, and relocating protected wildlife)		
2(1)(l)	A statement of whether the applicant or any company director, trustee, partner, or anyone else involved with the application has been convicted of any offence under the Wildlife Act		
2(1)(m)	A statement of whether the applicant or any company director, trustee, partner, or anyone else involved with the application has any current criminal charges under the Wildlife Act pending before a court		
2(1)(n)	Provision of proof and details of all consultation, including with hapū or iwi, on the application specific to wildlife impacts		
2(1)(o)	Provision of any additional written expert views, advice, or opinions the applicant has obtained concerning their proposal		

CHECKLIST F – Archaeological authority

Checklist F must be completed if you are applying for an approval under section 43(3)(i), (Archaeological Authority). The substantive application must comply with these requirements. The checklist is designed to assist you in providing all the relevant information. If an application does not comply with all requirements, then the EPA must return it to the person who lodged it.

This checklist sets out the requirements in clause 2 of Schedule 8, unless they have already been addressed in the substantive form.

If this checklist is being completed for an approval for a resource consent, clause 2(2) of Schedule 8 provides that the application includes the same information required for the purpose of this application but ensure that all of the information required by subclause (1) is provided.

Clause, Schedule 8	Information required for an approval described in section 43(3)(i) Archaeological Authority	Application Reference (Name of document, section and page)	EPA office use only
2(1)(a)	a legal description of the land or, if one is not available, a description that is sufficient to identify the land to which the application relates		
2(1)(b)	<p>the name of the owner of the relevant land, if the applicant is not the owner of the land</p> <p><i>Guidance note 1: If the substantive application is to be lodged by more than 1 authorised person, the reference to the applicant in subclause (1)(b) will be read as a reference to the authorised person who is to be identified in the application as the proposed holder of the archaeological authority.</i></p> <p><i>Guidance note 2: If multiple landowners will be affected, provide the legal description of the land owned by each affected owner.</i></p>		
2(1)(c)	<p>proof of consent, if the owner of the relevant land has consented to the proposed activity</p> <p><i>Guidance note: Landowner consent in relation to an archaeological authority means that they have:</i></p> <ul style="list-style-type: none"> • <i>read and understood the description of proposed activity included in this application and acknowledge and accept</i> 		

	<p>any implications the activity may have on them and their land;</p> <ul style="list-style-type: none"> •been consulted regarding the proposed activity and give their consent to the activity being carried out; and •have read and understood the following information on legal responsibilities concerning archaeological material: <p>Archaeological material includes any material removed from an archaeological site. This can mean artefacts, faunal material, botanical material and environmental material.</p> <p>The conditions provided in an archaeological authority may require that analysis be undertaken on any archaeological material found. Once analysis is completed the long-term management and final repository of the material must be considered. When considering ownership, archaeological material can be classed as either:</p> <p><i>Taonga tūturu</i></p> <ul style="list-style-type: none"> • defined in the Protected Objects Act 1975 as any artefact removed from an archaeological site that relates to Māori culture, history, or society, and was or appears to have been manufactured or modified in New Zealand by Māori, or brought into New Zealand by Māori, or used by Māori, and is more than 50 years old. • once found, the Crown assumes ownership • the legislation relating to taonga tūturu is managed by the Ministry for Culture and Heritage. 2(1)(d)	confirmation that the application complies with section 42 , 43 , and 44 of the Act		
	confirmation that the application relates solely to a listed project or a referred project		

	any fee, charge, or levy payable under regulations in respect of the application is paid.		
2(1)(e)	<p>a description of each archaeological site to which the application relates and the location of each site</p> <p><i>Guidance note: Please provide the New Zealand Archaeological Association's (NZAA) site reference if your proposed activity may affect a known archaeological site.</i></p>		
2(1)(f)	<p>a description of the activity for which the authority is sought</p> <p><i>Guidance note: Please include a list of all earthworks or ground-disturbing activities for your project. Attach related final plans, drawings, engineering specifications and/or photographs. Plans need to show the activity in relation to the location and extent (if known) of the affected archaeological sites.</i></p>		
2(1)(g)	a description of how the proposed activity will modify or destroy each archaeological site		
2(1)(h)	<p>except in the case of an approval described in section 44(b) of the HNZPT Act, an assessment of—</p> <ul style="list-style-type: none"> (i) the archaeological, Māori, and other relevant values of the archaeological site in the detail that is appropriate to the scale and significance of the proposed activity and the proposed modification or destruction of the archaeological site; and (ii) the effect of the proposed activity on those values 		
2(1)(i)	<p>a statement as to whether consultation with tangata whenua, the owner of the relevant land (if the applicant is not the owner), or any other person likely to be affected—</p> <ul style="list-style-type: none"> (i) has taken place, with details of the consultation, including the names of the parties and the tenor of the views expressed; or (ii) has not taken place or been completed, with the reasons why consultation has not occurred or been completed (as applicable). 		

	Additional information applicants may include in their application for an approval described in section 43(3)(i) Archaeological Authority	Application Reference (Name of document, section and page)	
	Have any archaeological authorities been granted for this location in the past?		
	Identification of the relevant planning overlays, i.e. are there any relevant Heritage or QEII covenants or Heritage Orders, District Plan schedules , New Zealand Heritage list/Rārangi Kōrero entries?		

CHECKLIST F1 – Archaeological authority: Approval for person to carry out activity

Checklist F1 must be completed if you are applying for an archaeological authority under section 43(3)(i), (Archaeological Authority) and your application includes an application for approval of any person nominated to undertake an activity under the authority under clause 7(2)(a) of Schedule 8. The substantive application must comply with these requirements. The checklist is designed to assist you in providing all the relevant information. If an application does not comply with all requirements, then the EPA must return it to the person who lodged it.

This checklist sets out the requirements in clause 7(5) of Schedule 8, unless they have already been addressed in the substantive form.

Clause 7(5), Schedule 8	Information required for an approval described in clauses 7(1) and (2)(b) (approval of person to carry out activity)	Application Reference (Name of document, section and page)	EPA office use only
(a)	<p>Evidence that the person carrying out the activity under an authority has sufficient skill and competency, is fully capable of ensuring that the proposed activity is carried out to the satisfaction of Heritage New Zealand Pouhere Taonga, and has access to appropriate institutional and professional support and resources</p> <p>Guidance Note: Please include the name and contact details of the nominated person (archaeologist) and a signature to show that the named person:</p> <ol style="list-style-type: none"> 1. agrees to conform to accepted archaeological practice in undertaking the archaeological work required by the conditions of any authority granted as a result of the application; and 2. meets the criteria required to be an approved person to undertake an activity under the authority under sections 7(5) of the Act and 45(2)(a) of the Heritage New Zealand Pouhere Taonga Act 2014. 		
(b)(i)	In the case of a site of interest to Māori, evidence that the person carrying out the activity under an authority has the requisite competencies for recognising and respecting Māori values		
(b)(ii)	In the case of a site of interest to Māori, evidence that the person carrying out the activity under an authority has access to appropriate cultural support		

CHECKLIST G – Complex freshwater fisheries approval

This checklist must be completed if you are applying for an approval under section 42(4)(j) (complex freshwater fisheries approval). The substantive application must comply with these requirements. The checklist is designed to assist you in providing all the relevant information. If an application does not comply with all requirements, then the EPA must return it to the person who lodged it.

This checklist sets out the requirements in clause 3 of Schedule 9, unless they have already been addressed in the substantive form.

Clause, Schedule 9	Information required for an approval described in section 42(4)(j) (complex freshwater fisheries approval), clause 3 of Schedule 9	Application Reference (Name of document, section and page)	EPA office use only
3(a)	<p>in relation to the structure and any fish facility:</p> <ul style="list-style-type: none"> (i) a description of the type of structure or fish facility: (ii) the dimensions of the structure or fish facility: (iii) the design of the structure or fish facility: (iv) the placement of the structure or fish facility: (v) the water flows: (vi) the operating regime 		
3(b)	the freshwater species and values present (with particular focus on threatened, data-deficient, and at-risk species as defined in the New Zealand Threat Classification System)		
3(c)	the water quality and quantity in the surrounding habitat (at the proposed structure location, upstream and downstream)		
3(d)	how the passage of fish will be provided for or impeded		

CHECKLIST H – Marine consent

This checklist must be completed if you are applying for an approval under section 42(4)(k) (marine consent). The substantive application must comply with these requirements. The checklist is designed to assist you in providing all the relevant information. If an application does not comply with all requirements, then the EPA must return it to the person who lodged it.

This checklist sets out the requirements in clauses 3 and 4 of Schedule 10, unless they have already been addressed in the substantive form.

Clause, Schedule 10	Information required for an approval described in section 42(4)(k) (marine consent), clauses 3 and 4 of Schedule 10	Application Reference (Name of document, section and page)	EPA office use only
3	<p>Does the substantive application include an application for a resource consent for a cross-boundary activity (within the meaning of section 88 of the EEZ Act) under section 42(4)(a)(resource consent) in addition to an application for marine consent?</p> <p><i>Guidance note: If yes, the impact assessment under the EEZ Act and the assessment of environmental effects under the Resource Management Act 1991 must be combined.</i></p>		
4(a)	a description of the proposed activity:		
4(b)	an impact assessment prepared in accordance with section 39 of the EEZ Act and any requirements prescribed in regulations made under that Act:		
4(c)	if the application relates to an activity referred to in section 20(2)(a), (b), or (c) of the EEZ Act, a description in general terms of how and when it is proposed that the structure, submarine pipeline, or submarine cable will be dealt with at the end of its life.		

CHECKLIST I – Access arrangements

This checklist must be completed if you are applying for an approval under sections 42(4)(l) or (m) (access arrangements). The substantive application must comply with these requirements. The checklist is designed to assist you in providing all the relevant information. If an application does not comply with all requirements, then the EPA must return it to the person who lodged it.

This checklist sets out the requirements in clause 3 of Schedule 11.

Clause, Schedule 11	Information required for an approval described in sections 42(4)(l) or (m), clause 3 of Schedule 11	Application Reference (Name of document, section and page)	EPA office use only
3(a)	a copy of the relevant permit under the Crown Minerals Act 1991 (if a permit has been granted under that Act):		
3(b)	a clear map or plan of the application area with GPS co-ordinates:		
3(c)	a document identifying the areas of conservation land located within the application area, its classification, and an assessment against its purpose:		
3(d)	a description of the proposal, including –		
	(i) the application area, including location and features (for example, water courses, roads, and amenities):		
	(ii) a summary of proposed activities (including type of prospecting, exploration, or mining methods, duration, and scale of activity):		
	(iii) a statement of the objectives of any Act under which the land is administered:		
	(iv) any policy statement, management strategy, or management plan of the Crown that applies in relation to the land:		
	(v) details of any resource consents and concessions held or applied for, or intended applications in relation to the application area:		

	(vi) in the case of an application under section 42(4)(l), a statement of the direct net economic and other benefits of the proposed activities in relation to which the access arrangement is sought:		
	(vii) in the case of an application under section 42(4)(m), the interests of the owner of the mineral, or of any person to whom the owner of the mineral has granted any rights in relation to the mineral, in obtaining access to that mineral:		
3(e)	an assessment of the environment, including –		
	(i) a description of the existing natural environment in and around the application area (including flora, fauna, aquatic life, and landscape):		
	(ii) a description of any historic, cultural, and archaeological sites within the application area (position and significance):		
	(iii) a description of the social environment in and around the application area (including scenic qualities, recreation facilities, and their use):		
	(iv) an assessment of the effects that proposed activities will have on the environment described in subparagraph (i), both while the activities are taking place and after their completion:		
	(v) an outline of consultation undertaken, including full details of consultation with relevant iwi:		
	(vi) a description of the proposed safeguards and mitigation measures to be put in place (for example, proposed rehabilitation, water management, management of flora and fauna and cultural or historic sites, and the way in which risks will be managed):		
	(vii) information about financial and legal liabilities and obligations associated with the land:		
3(f)	in the case of an application where the land in question is a reserve managed by a local authority, confirmation that the local authority has provided written agreement for the activity to be undertaken on the reserve.		

<i>Guidance note: Refer to Conservation and Reserves Approvals checklist D1-D3.</i>

CHECKLIST I1 – Mineral mining permit

Checklist I1 must be completed if you are applying for an approval under section 42(4)(n) (mineral mining permit). This checklist sets out the requirements in clause 16 of Schedule 11, unless they have already been addressed in the substantive form.

The substantive application must comply with these requirements. The checklist is designed to assist you in providing all the relevant information. If an application does not comply with all requirements, then the EPA must return it to the person who lodged it.

Clause, Schedule 11	Information required for an approval described in section 42(4)(n) (mining permit), clause 16 of Schedule 11	Application Reference (Name of document, section and page)	EPA office use only
16(a)	<p><i>Guidance note: Detailed list of requirements included in part 3 of this checklist below.</i></p> <p>Information that would be required to be supplied under the Crown Minerals Act 1991, regulations, or minerals programmes made under that Act if the application for the permit were made under that Act</p>		N/A
16(b)	<p>Statements of confirmation that the application complies with each of the criteria set out in sections 42(4)(n) and (11)</p> <p><i>Guidance note: These criteria are set out in more detail in the next part of this checklist.</i></p>		
16(c)	<p>Section 37 allows the information for a mining permit application to be submitted to the chief executive of MBIE prior to submitting the substantive application.</p> <p>Confirm whether the information was provided to the chief executive under section 37 and If YES, provide details of any differences between the information provided for the purposes of section 37 and the information being provided in the substantive application.</p>		

Section 42(11)	Information required under section 42(11)		
(a)	the approval is sought for 1 or more deposits of 1 or more minerals		
(b)	the applicant holds exploration permits or existing privileges that— (viii) apply to those minerals; and (ix) have more than 3 months before they expire		
(c)	the area of land for which the approval is sought is within, or the same as, the area of land to which those exploration permits or existing privileges apply		
(d)	the application proposes that those exploration permits or existing privileges be surrendered in relation to the area of land over which the approval is sought		
(e)	the proposed term of the approval is no more than 40 years		
(f)	granting the approval would not be prevented by any of sections 25(6) and (7) and 30(8) of the Crown Minerals Act 1991 if the approval were applied for under that Act		
Clause, Pt 3, Schedule 2, CMA Regs	Information that would be required under Part 3 of Schedule 2 of the Crown Minerals (Minerals Other than Petroleum) Regulations 2007 (CMA Regs) as required in section 16(a) of Schedule 11 of the Act		
1AA	The particulars of the person who is responsible for the application.		
1	A statement of the technical qualifications and financial resources of the applicant.		
2	If the application is on behalf of 2 or more persons, an explanation of each person's interest in the permit (including the percentage of the share of the permit that each person will hold).		
2A	If the application is on behalf of 2 or more persons, the proposed permit operator.		

2B	The area of land to which the application relates (in hectares or square kilometres).		
2C	A statement that allows the [panel] to form a view as to whether the proposed permit operator has, or is highly likely to have, by the time the relevant work in any granted permit is undertaken, the capability and systems that are likely to be required to meet the health and safety requirements of all specified Acts for the types of activities proposed under the permit		
3	A map of the permit area (as defined in Regulations 4 and 5 of the CMA Regs).		
4	The applicant's estimates of total in-ground resources.		
4A	<p>A report that sets out the evidence for a mineable mineral resource or exploitable mineral deposit sufficient to support a mining permit that includes—</p> <p>(a) estimates of the mineable mineral resource or exploitable mineral deposit,—</p> <p>(i) which may include inferred, indicated, and measured resources or deposits and probable and proved reserves or deposits;</p> <p>(ii) and which, for an application for a Tier 1 mining permit, must be made in accordance with the Canadian National Instrument, the JORC Code, or the South African Code; and</p> <p>(b) a map showing the size and location of the resource or deposit; and</p> <p>(c) a description of the geology of the resource or deposit; and</p> <p>(d) if applicable, a description of the type of coal and its properties.</p>		
4B	<p>The following information to accompany the estimates prepared under item 4A(a)(ii):</p> <p>(a) documentation on input data, methodology, quality control, and validation of the resource or deposit; and</p>		

	<p>(b) a spatial definition of the areas to which the figures in the estimates apply; and</p> <p>(c) a statement of the criteria used to determine the estimates; and</p> <p>(d) a statement of whether the estimates are made on the basis of a scoping, pre-feasibility, or feasibility study, or on some other specified basis.</p>		
5	<p>A statement of the proposed work programme that provides an overview of how the permit area will be worked that includes—</p> <p>(a) the size, nature, extent, and siting of the proposed mining operations; and</p> <p>(b) the proposed mining methods to be used; and</p> <p>(c) the proposed mining and production schedule; and</p> <p>(d) the expected production and long-term mining scheme for the mineable resource; and</p> <p>(e) the proposed start date for production; and</p> <p>(f) any proposed prospecting or exploration work in relation to the permit area; and</p> <p>(g) the proposed expenditure under the permit; and</p> <p>(h) if applicable, the point of valuation for royalty purposes.</p>		
6	The applicant's mining feasibility studies, which include mine design, scheduling and production, resource recovery, and economic viability.		
7	<p>A report on the project economics of the operation. In particular, the report must include the financial viability, technical constraints, and proposed level of expenditure in relation to the scale and extent of the proposed operations.</p> <p><i>Guidance note: In considering the types of matters that may be appropriate to provide additional commentary on, applicants may find it useful to also include the supporting financial model(s) in accordance with clause 7 of Part 3 of Schedule 2 of the Crown Minerals (Minerals Other than</i></p>		

	<i>Petroleum) Regulations 2007, <u>including assumptions that underpin the model(s)</u>.</i>		
8	<p>For an application for a Tier 1 mining permit, a report on any alternative mine development plans that have been identified, which must include details of the projected ultimate recovery of the resource under each plan and a statement as to why these options have not been pursued</p> <p><i>Guidance note: If no alternative mine development plan has been identified; please confirm this within your mining permit application.</i></p>		
9	For an application for a Tier 1 mining permit for minerals other than gold or silver, or for a permit in relation to an area offshore, a report stating the ownership of the minerals (commonly known as a Land Mineral Status Report).		
10	A statement as to whether the proposed mining operations are in accordance with good industry practice.		
11	<p>A statement on any other matter the applicant considers relevant to support the application.</p> <p><i>Guidance note: In considering the types of matters that may be appropriate to provide additional commentary on, applicants may find it useful to review the relevant chapter of the Minerals Programme for Minerals (excluding Petroleum).</i></p>		N/A not required for completeness assessment

CHECKLIST I2 – Petroleum mining permit

Checklist I must be completed if you are applying for an approval under section 42(4)(n) (petroleum mining permit). This checklist sets out the requirements in clause 16 of Schedule 11, unless they have already been addressed in the substantive form.

The substantive application must comply with these requirements. The checklist is designed to assist you in providing all the relevant information. If an application does not comply with all requirements, then the EPA must return it to the person who lodged it.

Clause, Schedule 11	Information required for an approval described in section 42(4)(n) (mining permit), clause 16 of Schedule 11	Application Reference (Name of document, section and page)	EPA office use only
16(a)	<p><i>Guidance note: Detailed list of section 42(11) requirements included below.</i></p> <p>Information that would be required to be supplied under the Crown Minerals Act 1991, regulations, or minerals programmes made under that Act if the application for the permit were made under that Act</p>		N/A
16(b)	<p>Confirmation that the application will comply with sections 42(4)(n) and (11)</p> <p><i>Guidance note: The detailed requirements of section 42(11) are set out below.</i></p>		
16(c)	<p>Section 37 allows the information for a mining permit application to be submitted to the chief executive prior to submitting the substantive application.</p> <p>Confirm whether the information was provided to the chief executive under section 37 and If YES, provide details of any differences between the information provided for the purposes of section 37 and the information being provided in the substantive application.</p>		
Section 42(11)	Information required under section 42(11) as required in section 16(b) of the Act		
(a)	the approval is sought for 1 or more deposits of 1 or more minerals		
(b)	the applicant holds exploration permits or existing privileges that—		

	(i) apply to those minerals; and (ii) have more than 3 months before they expire		
(c)	the area of land for which the approval is sought is within, or the same as, the area of land to which those exploration permits or existing privileges apply		
(d)	the application proposes that those exploration permits or existing privileges be surrendered in relation to the area of land over which the approval is sought		
(e)	the proposed term of the approval is no more than 40 years		
(f)	granting the approval would not be prevented by any of sections 25(6) and (7) and 30(8) of the Crown Minerals Act 1991 if the approval were applied for under that Act		
Clause, Pt 2, Schedule 2, Petroleum Regs	Information that would be required under Part 2 of Schedule 2 of the Crown Minerals (Petroleum) Regulations 2007 (Petroleum Regs) as required in Section 16(a) of Schedule 11 of the Act		
1	A statement of the technical qualifications and financial resources of the applicant.		
2	A map of the permit area as defined in Regulations 4 and 5 of the Crown Minerals (Petroleum) Regulations 2007.		
3	If the application is on behalf of 2 or more persons, - (a) an explanation of each person's interest in the permit; and (b) a statement identifying which of the persons is to be the permit operator.		
4	A report that – (a) sets out the reserves and proposed work programme for the development of the field concerned; and (b) includes the information described in clauses 5 – 14.		
5	An executive summary of the information supplied under clauses 2 to 10, including –		

	<ul style="list-style-type: none"> (a) a summary of the in-place and recoverable reserves (including the applicant's calculations of the assigned probabilities of the reserves); and (b) a description of the proposed facilities to extract, treat, and transport the petroleum; and (c) the proposed annual and cumulative field production. 		
6	<p>A discussion of the permit history, including –</p> <ul style="list-style-type: none"> (a) exploration results (including any geophysical or geochemical survey results); and (b) appraisal results (including any drilling and well-testing results). 		
7	A statement of the geology of the permit area, including its regional setting, geological history, and regional stratigraphy.		
8	<p>A geophysical analysis and interpretation of the permit area, including –</p> <ul style="list-style-type: none"> (a) a database and maps showing seismic coverage and discussion of seismic data quality; and (b) the seismic ties to wells and a discussion of the accuracy of the ties; and (c) the seismic interpretation techniques and results; and (d) the techniques and results of depth conversion (including velocity analysis and a discussion of the sensitivity to depth mapping to variations in velocity fields); and (e) maps of all average and interval velocity fields using depth conversion, including uncertainty maps; and (f) structural maps and models in time and depth for reservoir units; and (g) a geophysical analysis of seismic attributes and modelling, including seismic inversion; and 		

	(h) a discussion of reservoir structure and uncertainties that could affect reserves (including analysis of faulting, alternative fault correlations, and fault seals).		
9	<p>A geological interpretation covering the following:</p> <ul style="list-style-type: none"> (a) description of stratigraphy, including a table of formation tops, thicknesses, and cored intervals (all in measure depth and true vertical depth); and (b) sedimentological analysis and facies interpretation; and (c) stratigraphic and structural correlations of reservoir units; and (d) net sand and net pay maps for each reservoir; and (e) a geological model, including descriptions of the petroleum system and its constituent parts on which the mining proposal is based. 		
10	<p>A petrophysical evaluation, including –</p> <ul style="list-style-type: none"> (a) a database containing wireline, logging while drilling, monitoring while drilling, core, and sidewall core measurements, and any other subsurface measurements; and (b) formation temperature measurements; and (c) a petrophysical interpretation that covers- <ul style="list-style-type: none"> (i) lithology, porosity, permeability; and (ii) connate water saturation and water salinity; and (iii) the cut-off criteria used to determine net reservoir and net pay; and (iv) fracture density; and (v) comparisons of laboratory analyses and log-derived data; and (d) any petrographic and core analyses of reservoir rocks. 		
11	Reservoir engineering data, including –		

	<ul style="list-style-type: none"> (a) results and interpretation of all subsurface pressure measurements, including wireline, logging while drilling, monitoring while drilling, and test data measurements (open and cased hole); and (b) the interpretation position of gas-oil, oil-water, gas-water contacts, including an electric log analysis over the reservoir interval; and (c) desorption data and gas content maps for any coal seam gas field; and (d) a description of the aquifer extent and strength; and (e) details of reservoir fluid parameters, including – <ul style="list-style-type: none"> (i) pressure, volume, and temperature analysis of gas (methane and ethane), liquefied petroleum gas (propane and butane), condensate (C5+), and oil (including dew point and bubble point); and (ii) the oil formation by volume factor and the gas to oil and condensate to gas ratios with depth; and (iii) chemical analysis of any gas, condensate, or water samples; and (iv) a discussion of any significant differences between the results from different wells or intervals within a well. 		
12	<p>Reserves information, including –</p> <ul style="list-style-type: none"> (a) structure maps, cross sections, or models showing the areal and vertical extent of the field and the hydrocarbon contacts; and (b) a statement of the hydrocarbons-in-place, including (with any estimates made in accordance with the Petroleum Resources Management System) – <ul style="list-style-type: none"> (i) a description of the methodologies used to calculate their volume and distribution; and (ii) the assigned probabilities for oil, gas (methane and ethane), liquefied petroleum gas (propane and butane), and condensate (C5+) (with details for each production layer or zone); and
