Ayrburn Screen Hub  
FTAA-2508-1093

(23 January 2026)

1. This Memorandum responds to Minute 8 of the Expert Panel dated 23 January 2026, specifically at paragraphs [1]-[3].
2. The Applicant has today filed its response under s55 to Comments received as a result of invitations under s53. That response includes a considerable number of amendments and additions to the previous version proposed consent conditions dated 18 November 2025 lodged as part of the Applicant's response to Minute 2. As was previously the case, the Applicant has lodged a tracked change version with all amendments highlighted, a clean version with all amendments accepted, and a Word version to enable further amendments.
3. Minute 8 has an attachment which identifies numerous suggested amendments to the 18 November 2025 version consent conditions, for consideration by the Applicant and the two Councils. Most of the suggested amendments appear to be of a technical, rather than a substantive, nature. Counsel assumes that the Directions contained in paragraphs [2]-[3] of Minute 6 should now be applied to the clean version dated 23 January 2026. The Applicant will proceed upon that basis unless advised to the contrary by the Panel.
