MFE CYBER SECURITY WARNING

This email originated from outside our organisation. Please take extra care when clicking on any links or opening any attachments.

Hi Jess,

As discussed FTAA s 13(4)(t) requires an outline of the types of consents, certificates, designations, concessions, and other legal authorisations (other than contractual authorisations or the proposed approvals) that the applicant considers are needed to authorise the project, including any that the applicant considers may be needed by someone other than the applicant.

With respect to s 13(4)(t) the project may require works within the road reserve for servicing or transport infrastructure. This will require authorisation from Auckland Transport or Auckland Council as the road controlling authority for Auckland. The detailed design undertaken to support a substantive application will identify if any works will require approval from the road controlling authority.

The applicant has had an initial meeting about the project with Auckland Transport and Auckland Council and will continue to engage as part of the detailed design for a substantive application.

Ngā mihi | Kind regards,

REBECCA SANDERS
Senior Associate
