
MINUTE 16 OF THE EXPERT PANEL

Final Determination Regarding Hearing

Ayrburn Screen Hub

FTAA-2508-1093

(25 February 2026)

[1] In Minute 14, dated 13 February, we recorded the Panel's then view that once it had the further information requested therein, it should have all the information it needs to make a decision.

[2] We received a package of material from the applicant and a brief response from QLDC responding to Minute 14 on 20 February. We received a further brief clarification from Mr Gibson earlier today (25 February).

[3] The view we formed as above remains the position. On that basis, the Panel's view is that, consistent with section 56 of the FTAA, it does not need to hold a hearing of the application.

[4] The Panel is now working to produce its decision in draft for circulation in accordance with the requirements of the FTAA as soon as possible.
