

## Appendix A8

# Takitimu North Link Stage 2 Temporary Dewatering Resource Consent Conditions

### Resource Consent RM25-0466 - WT.02

The following resource consents authorise the Consent Holder to undertake the activities associated with the construction, operation and maintenance of the Project:

- (a) Water permits under the RNRP (s14 RMA):
  - 1. Groundwater Take: Temporary take and use of groundwater for dewatering.
- (b) Resource consents under the Resource Management (National Environmental Standards for Freshwater) Regulations 2020 (Clause 45):
  - 1. Construction of specified infrastructure (Clause 45(4)): Taking and use of water within, or within a 100m setback from, a Natural Wetland for the purpose of constructing specified infrastructure.

The resource consents are subject to the following conditions:

#### **1 Definitions**

- 1.1 The definitions that apply to this Consent, where relevant, are provided in Appendix 1.

#### **2 Purpose**

- 2.1 The purpose of this Consent is to take and use groundwater associated with dewatering during the construction of the Project.

#### **3 Consent Lapse and Expiry**

- 3.1 Pursuant to section 123 of the RMA and Schedule 5, cl 26 of the FTAA, this Consent shall expire 20 years after the commencement of this Consent.
- 3.2 This consent shall lapse 20 years after the commencement of this Consent.
- 3.3 The conditions of this Consent relate to construction of the Project and only apply to construction activities. Upon Completion of Construction these conditions will no longer apply.

#### **4 Location**

- 4.1 The activities authorised by the Consents shall occur from near Loop Road (map reference: 1870005mN, 5823384mE NZTM2000) to the east of the Waipapa Stream (map reference: 1864989mN, 5827810mE NZTM2000), on land designated by the New Zealand Transport Agency under section 171 of the RMA for the construction, operation and maintenance of a State highway.

#### **5 General**

- 5.1 Subject to final detailed design and except where amended through another process provided for in these conditions (such as certification of a management plan or through the outline plan of works process), the Project shall be undertaken in general accordance with the information submitted by the Consent Holder in the Substantive Application for Approvals dated 1 August 2025.

**6 Review of consent conditions**

- 6.1 BOPRC may serve notice on the Consent Holder under section 128(1) of the RMA of its intention to review the conditions of these Consents at any time within six months of the first, second, third and fourth anniversaries of the date of commencement of Construction Works, and thereafter five yearly. The purpose of such a review is to deal with any adverse effect on the environment which may result from the consented activity and which it is appropriate to deal with at a later stage.

**7 Water use monitoring**

- 7.1 The Consent Holder shall keep a daily written record of any water pumped and the quantity of water taken. These records shall be provided to BOPRC upon request.

**8 Dewatering measures**

- 8.1 The Consent Holder shall take all practicable steps to ensure that there is no leakage beyond the area of the dewatering works.

**ADVICE NOTES**

- 1 The Consent Holder shall pay the BOPRC such administrative charges as are fixed from time to time by BOPRC in accordance with section 36 of the RMA.
- 2 The Consent Holder shall send all monitoring reports and notification required by these conditions to the Regulatory Compliance Manager, PO Box 364, Whakatāne 3158, or email [compliance\\_data@boprc.govt.nz](mailto:compliance_data@boprc.govt.nz) (compliance reporting) or [notify@boprc.govt.nz](mailto:notify@boprc.govt.nz) (compliance notifications).
- 3 Consent RM25-0466-DC.01 also contains conditions that may be relevant to this Consent.

## APPENDIX 1 - DEFINITIONS

The table below defines the acronyms and terms used in these conditions. Defined terms are capitalised.

Abbreviation/term	Meaning/definition
ARI	Average recurrence interval (the average time period between rainfall or flow events that equal or exceed a given magnitude).
At Risk and / or Threatened Species	Species identified as 'at risk' and / or 'threatened' under the relevant New Zealand Threat Classification series.
BOPRC	Bay of Plenty Regional Council, being the Chief Executive, or authorised delegate.
Clean fill	Has the same meaning as in the ' <i>The WasteMINZ Technical Guidelines for Disposal to Land Version 3.1 (2023)</i> '.
CLMG1	Ministry for the Environment <i>Contaminated land management guidelines No 1: Reporting on contaminated sites in New Zealand</i> (Revised 2021).
CLMG5	Ministry for the Environment <i>Contaminated land management guidelines No 5: Site investigation and analysis of soils</i> (Revised 2021).
Completion of Construction	When construction of the Project (or the relevant part of the Project) is complete, and the Project (or the relevant part of the Project) is operational.
Consent	The relevant consent or consents that the conditions apply to, being: <ul style="list-style-type: none"> <li>• RM25-0466-LC.01; and / or</li> <li>• RM25-0466-LC.02; and / or</li> <li>• RM25-0466-BC.01; and / or</li> <li>• RM25-0466-WT.01; and / or</li> <li>• RM25-0466-DC.02; and / or</li> <li>• RM25-0466-DC.01; and / or</li> <li>• RM25-0466-DC.03; and / or</li> <li>• RM25-0466-WT.02.</li> </ul>
Consents	Consents RM25-0466-LC.01, RM25-0466-LC.02, RM25-0466-BC.01, RM25-0466-WT.01, RM25-0466-DC.02, RM25-0466-DC.01, RM25-0466-DC.03, RM25-0466-WT.02 (unless otherwise specified).
Consent Holder	New Zealand Transport Agency Waka Kotahi
Construction Works	Activities undertaken to construct the Project, excluding Enabling Works.

Abbreviation/term	Meaning/definition
Designation	Designation D203 (Road purposes – State Highway 2) and Designation D181 (Road for access to State Highway 2) in the Western Bay of Plenty District Plan.
Designation Boundary	The boundary of the area of land subject to the Proposed Designation.
DOC	The Department of Conservation
Enabling Works	<p>Preparatory works and investigations to enable Construction Works, including the following activities:</p> <ul style="list-style-type: none"> <li>• Archaeological investigations</li> <li>• Geotechnical investigations</li> <li>• Formation of access for site investigations</li> <li>• Establishing construction yards and offices</li> <li>• Constructing and sealing (if necessary) access roads and accesses to private properties and the Project</li> <li>• Contaminated land investigations</li> <li>• Demolition or removal works, including contaminated land clearance</li> <li>• Fencing</li> <li>• Vegetation protection or removal works</li> <li>• Protection and relocation of utilities</li> <li>• Establishment of mitigation measures (such as screen planting) for Enabling Works</li> </ul>
ESC	Erosion and Sediment Control
FTAA	Fast Track Approvals Act 2024
Large Storm Event	A 10 year average recurrence interval storm or larger storm event

Abbreviation/term	Meaning/definition
Management Plan(s)	<p>The following plans and reports (which are collectively referred to as Management Plans):</p> <ul style="list-style-type: none"> <li>• Erosion and Sediment Control Plan</li> <li>• Site Specific Erosion and Sediment Control Plan</li> <li>• Construction Management Plan</li> <li>• Biosecurity Management Plan</li> <li>• Construction Air Quality Management Plan</li> <li>• Chemical Treatment Management Plan</li> <li>• Ecological Management Plan including subplans as follows: <ul style="list-style-type: none"> <li>○ Marine Monitoring Plan</li> <li>○ Wetland Management Plan</li> <li>○ Aquatic Fauna Management and Monitoring Plan</li> <li>○ Avifauna Management Plan</li> <li>○ Bat Management Plan if required under LC.01 Condition 27.2</li> <li>○ Stream Management and Monitoring Plan</li> </ul> </li> <li>• Culverts and Stream Hydraulic Design Report</li> <li>• Groundwater Drawdown Monitoring Plan</li> <li>• Detailed Site Investigation</li> <li>• Contaminated Site Management Plan</li> <li>• Remedial Action Plan if required under DC.02 Condition 11.1</li> <li>• Site Validation Report if required under DC.02 Condition 12.1</li> <li>• Works Completion Report if required under DC.02 Condition 14.1</li> <li>• Tangata Whenua Values Monitoring and Management Plan</li> <li>• Stormwater Operation and Maintenance Plan</li> <li>• Final Stormwater Design</li> </ul>
Merrin Wetland	The Wetland complex identified in Schedule 1 to Appendix 1.

Abbreviation/term	Meaning/definition
Natural Wetland(s)	<p>A Wetland that is not:</p> <ul style="list-style-type: none"> <li>(a) in the coastal marine area;</li> <li>(b) a deliberately constructed wetland, other than a wetland constructed to offset impacts on, or to restore, an existing or former natural inland wetland; or</li> <li>(c) a wetland that has developed in or around a deliberately constructed water body, since the construction of the water body; or</li> <li>(d) a wetland that: <ul style="list-style-type: none"> <li>(i) is within an area of pasture used for grazing; and</li> <li>(ii) has vegetation cover comprising more than 50% exotic pasture species; unless</li> <li>(iii) the wetland is a location of a habitat of a threatened species identified under clause 3.8 of the National Policy Statement for Freshwater Management 2020.</li> </ul> </li> </ul>
Ōmokoroa Wetland	The Wetland complex identified in Schedule 2 to Appendix 1.
PSI	Preliminary Site Investigation
Project	The construction, operation and maintenance of Takitimu North Link Stage 2.
Project Representative	The person or persons appointed by the Consent Holder (or their nominated contractor) to be the main and readily accessible point of contact for anyone wanting information about the Project.
Project Works	All Enabling Works and Construction Works.
Trigger Event	An event in which there is greater than 100mm of rainfall over any 24 hours, 50mm rainfall within 6 hours, or rainfall intensity of 25mm/hr.
RMA	Resource Management Act 1991
RNRP	Bay of Plenty Regional Natural Resources Plan
SSESCP	Site Specific Erosion and Sediment Control Plan
Stabilisation, Stabilised, Stabilised area	Refers to an area inherently resistant to erosion, such as rock, or an area rendered resistant to erosion by the application of stabilisation methods, such as the use of mulch, aggregate, geotextile, or other method approved through the certified SSESCP. Where vegetation is to be used on a surface that is not otherwise resistant to erosion, the surface is considered stabilised once an 80% vegetation cover has been established.
Stage of Work	A specific works area or new land disturbing activity associated with construction of the Project as nominated by the Consent Holder.

Abbreviation/term	Meaning/definition
SQEP	Suitably Qualified Experienced Person - a person (or persons) who can provide sufficient evidence to demonstrate their suitability and competence in the relevant field of expertise.
Unwanted organisms (and/or pests)	As defined in s2 of the Biosecurity Act 1993.
Watercourse(s)	Perennial or intermittent rivers and streams, including modified rivers and streams, but not overland flow paths, artificial watercourses, conveyance channels, Natural Wetlands or Wetlands.
Waterbody	A Watercourse, lake, Wetland, Natural Wetland or aquifer
Wetland(s)	Includes permanently or intermittently wet areas, shallow water, and land water margins that support a natural ecosystem of plants and animals that are adapted to wet conditions.
Working Day	<p>A day of the week other than—</p> <p>(a) Saturday, a Sunday, Waitangi Day, Good Friday, Easter Monday, Anzac Day, the Sovereign’s birthday, Te Rā Aroki a Matariki/Matariki Observance Day, and Labour Day; and</p> <p>(b) if Waitangi Day or Anzac Day falls on a Saturday or a Sunday, the following Monday; and</p> <p>(c) a day in the period commencing on 20 December in any year and ending with 10 January in the following year.</p>

## SCHEDULE 1 TO APPENDIX 1 – MERRIN WETLAND COMPLEX

Indicative extent of Merrin Wetland restoration (white outline), freshwater wetland (blue outline/fill), saltmarsh wetland (green outline/fill).

## SCHEDULE 2 TO APPENDIX 1 - ŌMOKOROA WETLAND COMPLEX

Indicative extent of Ōmokoroa Wetland restoration (white outline), freshwater wetland (blue outline/fill), saltmarsh wetland (green outline/fill).
