Attention Melita Raravula - Fast-track Team

We are submitting our comments as per your letter dated 6 October 2025.

We have resided at [REDACTED] for the past 44 years and have enjoyed living in the rural environment.

We wish to protect the Barters Road environment with the continuation, care and maintenance of the pine hedge and the trees adjacent to our property. The mowing of the grass berm will also need to be maintained like we currently do.

We, plus neighbours, have livestock, sheep and horses, so consideration needs to be considered for their welfare.

Increase in noise, traffic and other distractions are a concern which may take away our quiet tranquil lifestyle.

Please keep us updated with ongoing developments.

Regards
John and Philippa Borlase
