Provided in Appendix 9 to the AEE.</p> <p>Draft Archaeological management plan, February 2025, Clough &amp; Associates, principal author [REDACTED]. Provided in Appendix 9-1 to the AEE.</p>

**Confirmation of skill and competency**

I confirm that I have the skill and competency, and that I am fully capable, of ensuring that the activities covered by the archaeological authority sought for works for the Delmore development are carried out to the satisfaction of Heritage New Zealand Pouhere Taonga. I was approved as a section 45 archaeologist by Heritage New Zealand in 2019 and have attached the information that was sent to

Heritage New Zealand as part of my request to be approved as a section 45 Archaeologist. I have been

and am currently the section 45 archaeologist for a number of projects.

I confirm that I will confirm to accepted archaeological practice in undertaking the archaeological work required by the conditions of any authority granted as a result of the application.

I confirm that I meet the criteria required to be an approved person to undertake an activity under the authority under sections 7(5) of the Act and 45(2)(a) of the Heritage New Zealand Pouhere Taonga Act 2014.

I have the requisite competences for recognising and respecting Māori values through my experience as a section 45 archaeologist on projects with archaeological sites associated with Māori occupation and settlement. I am also aware that a proposed condition of the land use consent for the Delmore development is that tangata whenua are invited to be present for key earthworks stages for cultural monitoring purposes.

The two sites of interest within the Delmore development site are sites of interest to Māori. The development avoids these two sites. However, there is potential for there to be other sites of interest to Māori within the Delmore development site. I have access to the appropriate cultural support if a site of interest to Māori is discovered as a result of the engagement Vineway Ltd has undertaken with tangata whenua. Tangata whenua will be contacted if a site of interest to Māori are found.
