We chose to buy our property on Arataki Road due to the views accross to the Gum trees

and not being overlooked.

High Density, Two Story Properties, small compact sections are not attractive especially in        this area.

The wild life, Hawks, Tui and small mammals are just a few to have Habitat sacrificed to        satisfy the greed of the developer.

The noise, dirt and extra vehicles involved during construction is evident on Brookvale Road    where sections are slow to sell as in Iona subdivision.

Please consider our comments.

Regards

G & P Kidd.
