

COMMENT BY NGĀTI HĀUA WITH RESPECT TO MINUTE 14 RFI
10 November 2025

1. The following storymap has been published in order to respond to both point 1 & 2 in the RFI. The storymap has been chosen to support a more engaging data visualisation than a simple map image. Link available [here](#).
2. Given the very short amount of time that this panel has afforded Ngāti Hāua, a comprehensive analysis of *Significant Natural Areas* as defined by the Taranaki Regional Council has not been undertaken.
3. Ngāti Hāua is also awaiting the allocation of a hearing for determining CMT and PCR under MACA, therefore all of the information contained in the storymap above must remain confidential and the link above should not be shared publicly or to the applicant.
