
MINUTE 3 OF THE PANEL CONVENER
Convener's Conference [FTAA-2604-1217]

27 July 2026

[1] NZSki Limited seeks to authorise the upgrade and development of infrastructure at the Remarkables Ski Area, and the expansion and development of ski activities, trails and associated infrastructure within the adjacent Doolans Basin.

[2] A conference will be held on **Thursday 6 August 2026 at 10am**. A MS Teams invite will shortly be sent.

[3] The purpose of this conference is to gather participant views on matters arising in relation to the application filed under the Fast-track Approvals Act 2024. Your views will inform two decisions that I must make as panel convener regarding:

- (a) the appointment of panel members;¹
- (b) the timing of the panel decision.²

Timeframe for a decision

[4] The Panel Convener decides the appropriate timeframe for release of the decision on the application. The Convener does so having had regard to the scale,

¹ FTAA, schedule 3

² FTAA, section 79

nature, and complexity of the approvals sought (among other matters).³ Complexity is in part a function of the issues that arise on this application.

[5] If the timeframe for a decision is not appropriate, this risks -

- (a) insufficient time being allowed, impacting the quality of the decision-making;
- (b) not adequately engaging with the wider requirements of public law leaving the decision susceptible to appeal or review; or
- (c) an overallocation of time which would not satisfy the procedural principles in section 10 of the Act.

The conference

[6] In deciding the timeframe for a decision, I will be assisted most by genuine engagement with the matters in issue rather than general or formulaic responses.

[7] At the conference participants are invited to:

- (a) comment on the extent of engagement by the applicant both before and following lodgement of the application;
- (b) the applicant aside, identify in-house experts and external consultants engaged on this project;
- (c) where there is a difference of opinion between the applicant and any other participant, identify:
 - (i) the principal issues in contention; and
 - (ii) those issues capable of resolution through conditions of approval.
- (d) record processes agreed with the applicant to narrow or reduce any issues relevant to the application and the decision that the panel is required to make;

³ FTAA, section 79.

- (e) identify any changes made, or currently underway, to the application since lodgement, whether as a result of engagement with participants or other work undertaken by the applicant, including any new or supplementary reports and draft conditions;
- (f) describe the complexity of this application;
- (g) state whether the drafting of proposed consent conditions (including any draft management plan filed) is accepted; and
- (h) propose efficient processes to enable the panel to understand, resolve or narrow the scope of any likely issues and indicate how these processes may be accounted for under the decision timeframe.

[8] It is anticipated that the local authorities will obtain input from planning and technical advisors to identify the likely issues. However, an assessment of merits is not required at this stage. For information about cost recovery, please refer to the EPA's cost-recovery policy (details below).

Draft decision and conditions to Ministers (s 72)	XXX W/D (say)	

⁷ Note 1: a draft decision to decline is not included in this timeframe. If the statutory timeframe it is insufficient for applicant to respond, the applicant will need to apply to suspend the application under s 64 FTAA. Consideration should also be given to the timing of ss 70 and 72 steps.

⁸ Note 2: the order of ss 69, 70 and 72 steps may differ case-by-case. On a decision to approve, sequencing s 72 before s 70 is simplest, albeit requiring more time than running ss 72 and 70 steps in parallel.
