Stockdale Farm Ltd

[REDACTED]

I am an affected party the west side of my property boundaries the proposed development site in Dukes Road. I don't believe any other neighbours are going to be more affected by this than me .

As an adjoining owner I will be affected by noise,lighting,dust,traffic and visual impacts which I realise is just part of the process .

The applicant has been very helpful regarding the proposal including discussion of boundary treatment and mitigation measures .

I support the Inland Port Proposal, the development will provide economic and employment opportunities for Mosgiel and the wider Otago region . My children and I whakapapa to Ngai Tahu and we all support this development both physically and spiritually
