Substantive@fasttrack.govt.nz

Dear Christina

Taranaki VTM Project Fast-track Approval
Department of Conservation Correspondence 19 September 2025
Transcript Statements

It has been brought to Trans-Tasman Resources Limited's (TTR) attention that the statement at [2065] of the transcript from the overview conference may be taken to mean that the current Fast-track Application has the Department of Conservation's (DoC) support.

That is not the position, and not what TTR intended to convey. The DoC support TTR was describing related solely to TTR's 2016 EPA application and 2017 DMC approval.

Please can this clarification be published alongside, or as a note on, the transcript to avoid any confusion.

Yours sincerely
Trans-Tasman Resources Limited
