

- b) Loss of Traditional Knowledge: The erosion of traditional knowledge affects our ability to sustainably manage fisheries and to pass this knowledge on to future generations.

#### **9.5b Commitment to Action**

- a) Protecting and Restoring Fisheries: We will continue our efforts to restore the diversity and abundance of mahinga kai in our rohe moana. This includes ensuring that resources are uncontaminated, healthy, and accessible for customary gathering.
- b) Ensuring Customary Management Tools Are Prioritised: We firmly believe that as tangata whenua, Patukeha should have the first option to apply tikanga-based fisheries management tools, such as mataitai, taiapure, rahui, and tangata tiaki, to achieve the same conservation objectives as marine reserves, but without losing control of these important areas.
- c) Advocating for Transparent and Inclusive Processes: The process for establishing marine reserves needs to be more transparent and inclusive, ensuring a full analysis of the objectives, costs, and benefits of a marine reserve. As tangata whenua, we must have the opportunity to use our customary tools to meet these objectives.

#### **9.5c Action**

- a) Engage in Transparent Dialogue: We will engage with DOC, MPI, and other stakeholders to ensure a more transparent and inclusive process for establishing marine reserves. This will include a full analysis of the objectives and the implications of each proposed reserve.
- b) Test the Impact of Marine Reserves: Every marine reserve or customary fishing area that is implemented must undergo a test to determine whether it would have an undue impact on commercial fishers' ability to catch their quota within the Quota Management Area (QMA). We are committed to ensuring that no area is locked away without a full assessment of its impact on our traditional fishing rights and commercial operations.

#### **9.5d Method**

- a) Finalise the Rohe Moana Management Plan: This plan will set clear guidelines for managing customary fisheries in our rohe, ensuring it integrates both tikanga Māori and modern fisheries management principles.
- b) Expand Customary Fisheries Boundaries: We will investigate the possibility of extending our rohe moana boundaries to better reflect traditional fishing grounds and practices, ensuring we have full management of our customary areas.
- c) Research and Monitoring: We will continue partnerships with agencies like NIWA and other research organisations to monitor the health of our fisheries and mahinga kai. Cultural Health Indicators (CHI) will guide this work, helping us assess the effectiveness of our management strategies.
- d) Water Quality Management: Collaborating with the Northland Regional Council (NRC) and other local authorities, we will ensure that water quality in our rohe meets the necessary standards to support sustainable customary fisheries. This includes advocating for improvements in land management to protect water quality.
- e) Customary Fisheries Restoration Projects: We will pursue reseeding projects and other restoration initiatives to restore kaimoana stocks in areas where resources have been depleted, ensuring long-term sustainability for future generations.

## 9.6 Aquaculture

Tangata whenua have practised aquaculture for centuries, using methods like shellfish seeding and storing kaimoana in rock pools or beneath piles of rocks for on-growing until needed. These traditional practices, now classified as aquaculture, continue to be vital for sustainable kaimoana management. Patukeha are interested in developing marae-based or customary aquaculture for non-commercial purposes, such as enhancing or restoring depleted kaimoana beds, ensuring future generations can continue gathering kaimoana sustainably.

Recent legislative changes have impacted the aquaculture planning framework. The 2004 reforms required regional councils to establish Aquaculture Management Areas (AMAs), in line with the Maori Commercial Aquaculture Claims Settlement Act 2004 (MCACSA), which entitled iwi with a coastal rohe to 20% of any new space created in AMAs. However, the AMA process was complex, and reforms in 2011 replaced it with a “first come, first served” model for marine farming space allocation. Amendments to MCACSA introduced regional agreements, allowing iwi to receive either 20% of new space or the equivalent in cash or other forms of compensation.

Aquaculture development in Patukeha’s rohe is now guided by agencies like Northland Inc., which formed the Northland Aquaculture Development Group (NADG) to develop a regional strategy. Patukeha must be actively involved in decision-making to ensure that aquaculture aligns with their values and aspirations.

Inappropriate or unsustainable aquaculture could threaten Patukeha's cultural landscapes, taonga species, and mahinga kai. While sustainable aquaculture could offer cultural, social, and economic benefits to Patukeha and the wider community, each proposal must be carefully evaluated, particularly for impacts on traditional mahinga kai sites and other cultural values.

#### **9.6a Challenges**

- a) Patukeha have specific rights and interests regarding aquaculture activities in their rohe moana, coastal waters, and on-shore facilities.
- b) Aquaculture can impact values important to Patukeha, such as cultural landscapes, taonga species, and mahinga kai, requiring careful management.
- c) Sustainable aquaculture can contribute positively to Patukeha's cultural, social, and economic wellbeing.

#### **9.6b Commitments**

- Patukeha's rights and interests in aquaculture must be recognised and protected, ensuring their involvement in the management of coastal waters and aquaculture activities.

#### **9.6c Action**

- a) Agencies must ensure Patukeha are included in decisions about the allocation and use of coastal space for aquaculture in their rohe moana and coastal waters.
- b) Applicants, including Mandated Iwi Organisations, must engage with Patukeha early in the planning stages of marine farming projects.
- c) Patukeha should share in the economic benefits of sustainable aquaculture ventures that align with their values.
- d) Collaboration with Te Rūnanga o Patukeha is needed to explore marae-based or customary aquaculture for non-commercial purposes, focused on enhancing kaimoana resources.

#### **9.6d Methods**

- a) Councils will require a Patukeha Cultural Impact Assessment (CIA) for any aquaculture proposals within their rohe moana and coastal waters to ensure environmental and cultural considerations are addressed.
- b) Te Rūnanga o Patukeha will continue engaging with the NADG and other relevant groups to promote sustainable aquaculture aligned with Patukeha aspirations.
- c) Each aquaculture proposal will be assessed on a case-by-case basis, considering:
  - Location and size of the proposed aquaculture area
  - Species to be farmed, ensuring alignment with local ecological and cultural priorities
  - Consistency with Patukeha aspirations and potential long-term environmental effects
  - Potential impacts on cultural heritage, seascapes, and mahinga kai
  - Visual impact from land and water perspectives
  - Effects on customary fishery resources and kaimoana availability
  - Monitoring provisions to ensure sustainability
  - Cumulative and long-term environmental effects
  - Impacts on local biodiversity and ecosystems
  - Effects on off-site species, including those critical to Patukeha's cultural heritage

## 10.0 Kaupapa mō ngā Moutere | Island Management

The islands within the rohe of Te Rūnanga o Patukeha are of immense cultural, spiritual, and historical significance. They are regarded as taonga (treasures) that require careful protection, restoration, and sustainable management. For generations, Patukeha have maintained a close relationship with these islands, both in terms of cultural practices and historical interactions. While acknowledging the ownership rights of the Crown and private landowners, the iwi also recognises the Department of Conservation's (DOC) vital role in managing these areas.

Te Rūnanga o Patukeha, in partnership with Ngāti Kuta Hapū, DOC, and the Guardians of the Bay of Islands (GOBOI), has initiated a successful pest eradication programme. This programme, involving a combination of aerial drops of Brodifacoum and mainland trapping, has led to the creation of pest-free islands, now undergoing ecological regeneration. These efforts have revitalised the islands and created local employment opportunities for hapū members.

Te Rūnanga o Patukeha is committed to maintaining an active role in future decision-making processes concerning island management. This includes working closely with DOC and other stakeholders to protect, enhance, and preserve the unique values of these islands for future generations.

### 10.0a Challenges

The islands within our rohe hold profound cultural, spiritual, and historical significance. They have long been integral to our traditions, whakapapa, and customs. While some islands are owned by the Crown or private entities, DOC administers many, managing them in alignment with conservation principles.

Historically, Te Rūnanga o Patukeha has engaged with these islands, but past management decisions often excluded tangata whenua from key processes. This lack of full involvement

has limited consideration of our cultural needs and aspirations. Despite these challenges, significant progress is being made, particularly through collaborative efforts with DOC and the Guardians of the Bay of Islands in pest control and ecological restoration.

#### 10.0b Commitment

- a) Ensuring full involvement in the decision-making processes regarding island management.
- b) Collaborating with DOC, local authorities, and private landowners to safeguard the cultural, spiritual, and ecological values of the islands.
- c) Advocating for the restoration of Māori ownership and involvement in island management where applicable.
- d) Supporting pest eradication, ecological restoration, and the protection of cultural values on the islands.
- e) Developing management strategies that reflect the collective objectives of Te Rūnanga o Patukeha, Ngāti Kuta Hapū, DOC, and other relevant stakeholders.

#### 10.0c Action

- a) Actively engage in all island management decisions, ensuring that tangata whenua perspectives are integral to the planning and implementation processes.
- b) Continue supporting pest eradication efforts and island restoration in collaboration with DOC, including ongoing maintenance programmes for pest-free islands.
- c) Focus on the protection and restoration of wāhi tapu (sacred sites) and ensure that these areas receive the appropriate respect and attention in island management.
- d) Develop strategies for managing tourism on the islands, ensuring that visitor activities do not negatively impact their ecological and cultural values.
- e) Advocate for the return of Motukiekie Island to public ownership and work towards policies that prevent islands from falling into private hands.
- f) Address key issues on each island, such as waste management, sewerage disposal, pest control, and the restoration of native flora and fauna.
- g) Collaborate with DOC to review and update management strategies for islands such as Urupukapuka, Moturua, and Motuarohia, which attract significant tourist activity.

#### 10.0d Method

- a) Partner with DOC and private landowners to ensure that effective management strategies are in place, particularly on islands that attract large numbers of visitors, such as Urupukapuka and Moturua.
- b) Develop and enforce policies to protect the cultural heritage of the islands, including the reintroduction of culturally significant species like the kokako on Motukokako (The Hole in the Rock).
- c) Advocate for the inclusion of Māori names for all islands on national maps, ensuring that traditional names like Toka Okuia (Shag Rock) and Orerewai (Hat Island) are recognised and respected.
- d) Initiate reviews of island management for smaller islands such as Poroporo, Motuoi, and Rangiatea, aiming to implement conservation strategies and safeguard their ecological integrity.
- e) Explore sustainable commercial opportunities, such as tourism royalties, to fund ongoing island management and restoration efforts.

- f) Develop and implement a robust monitoring system to assess the success of pest eradication and ecosystem restoration programmes, adjusting management practices as needed.

By taking these steps, Te Rūnanga o Patukeha aims to ensure the protection and sustainable management of these islands, preserving their cultural, spiritual, and historical significance for future generations.

### 10.0.1 History of the Islands in the Area

The islands within the rohe of Te Rūnanga o Patukeha are central to the traditions, customs, and livelihoods of tangata whenua. These islands have been integral to Māori life for centuries, and they continue to hold cultural, historical, and spiritual significance. Below is a brief history of each island, including traditional Māori names where applicable.

#### **Urupukapuka**

Urupukapuka Island is the largest and most visited island in the Bay of Islands. It holds a rich history, both pre- and post-colonisation, and has been a significant site for Māori settlement, fishing, and resource gathering. The island has numerous wāhi tapu and is renowned for its abundant natural resources. Urupukapuka is a popular tourist destination, attracting visitors with its stunning views, hiking tracks, and cultural significance.

##### **Key Issues:**

- Protection of wāhi tapu.
- Sewerage disposal and environmental management.
- Pest control.
- Native fauna and flora restoration.
- Tourism regulation and management.
- Protection of native bird nesting areas.

#### **Okahu**

Okahu Island is currently under review for its cultural and ecological management. It has significance for local iwi, particularly in terms of its historical use as a resource site and its role in Māori settlement patterns. Efforts are underway to assess its ecological health and develop management strategies that align with both cultural values and environmental conservation.

##### **Key Issues:**

- Pest eradication.
- Ecological restoration.
- Cultural site protection.

#### **Waewaetorea**

Like Okahu, Waewaetorea Island's management is also under review. The island has cultural and historical importance, with ties to traditional Māori navigation, resource harvesting, and settlement. Te Rūnanga o Patukeha is working to identify key issues and develop strategies for the island's management.

##### **Key Issues:**

- Native flora and fauna restoration.
- Pest control and eradication.
- Visitor management.

### **Motukiekie (formerly known as Motu Kiekie)**

Motukiekie Island, which has recently fallen into private ownership, holds considerable cultural and historical importance for Te Rūnanga o Patukeha. The iwi regrets the island's shift to private hands and hopes to reclaim it in the future. The island is valued for its scenic beauty, but also for its cultural and spiritual significance.

#### ***Key Issues:***

- Reclaim ownership through collaboration with the Government.
- Develop sustainable management plans with the current private owners.

### **Moturua**

Moturua Island is primarily Crown land administered by DOC, though it also includes private landholdings. The island has historical significance, with Māori occupation dating back to pre-colonisation. During World War II, Moturua was used as a hospital by the New Zealand Army. It also holds numerous wāhi tapu.

#### ***Key Issues:***

- Protection of wāhi tapu.
- Pest eradication and ecosystem restoration.
- Track maintenance and public safety.
- Native tree and weed removal.

### **Motuarohia (Roberton Island)**

Motuarohia Island, also known as Roberton Island, is culturally and historically significant for Māori. The island is managed by DOC, with portions of the island being privately owned. The three lagoons on the island are of particular ecological interest, providing a sanctuary for various native bird species.

#### ***Key Issues:***

- Pest eradication and protection of native bird species.
- Restoration of native trees and plant species.
- Visitor management and public safety.
- Maintenance of public amenities and facilities.

### **Motukokako (The Hole in the Rock)**

Motukokako, also known as "The Hole in the Rock," is the most iconic island in the Bay of Islands. It remains in Māori ownership and holds deep spiritual, cultural, and historical value. The island is an internationally recognised landmark and symbolises Māori heritage and traditional navigation.

#### ***Key Issues:***

- Protect and enhance native species, including the potential reintroduction of the kokako.
- Develop sustainable tourism practices and generate revenue through commercial royalties.
- Implement a native restoration programme for flora and fauna.
- Protect the island's cultural and spiritual significance.

### **Poroporo and Other Small Islands**

Te Rūnanga o Patukeha acknowledges the importance of numerous smaller islands in the Bay of Islands, such as Poroporo, Motuoi, Motutara, Rangiatea, and others. Many of these islands are uninhabited but hold significant cultural and ecological value.

Te Rūnanga o Patukeha will continue to advocate for the recognition and conservation of these islands, including the application of traditional Māori names on national maps.

**Key Issues:**

- Recognition of traditional names.
- Environmental restoration and pest control.
- Protection of cultural and spiritual sites.

## 10.1 Tapoi | Tourism

The Bay of Islands, renowned for its breathtaking natural beauty and rich cultural history, continues to attract a growing number of visitors each year. While the tourism industry plays a crucial role in supporting local businesses and driving economic growth, Te Rūnanga o

Patukeha recognises the importance of balancing economic benefit with the preservation of the region's cultural, environmental, and historical values.

Russell, often regarded as the gateway to the Bay of Islands, exemplifies this balance. As the primary service hub for the wider Te Rawhiti and Waikare areas, it caters to both day-trippers and overnight visitors. However, it is essential that the Bay of Islands, as a whole, remains mindful of its past and future. The local iwi acknowledges the necessity of tourism in sustaining the economy but remains steadfast in ensuring that the growth of the industry does not compromise the region's inherent cultural and natural treasures.

The area's value to tangata whenua (people of the land) cannot be overstated. The Bay of Islands is not just a scenic destination but a place of profound ancestral significance, deeply connected to the tipuna (ancestors) of Te Rūnanga o Patukeha. Therefore, the region's tourism must be managed in a way that respects this heritage and ensures that its cultural and ecological integrity remains intact.

#### *10.1a Challenges*

The Bay of Islands holds centuries of history that shape the worldview of Te Rūnanga o Patukeha. For our tūpuna, the Bay of Islands was not just a geographical area - it was a vibrant hub of settlement, resource harvesting, and social and cultural exchange. From the early arrival of Māori ancestors, the islands were strategically chosen for their natural resources and sheltered harbours, becoming critical sites for fishing, navigation, and trade.

The historical role of Russell, once known as Kororāreka, offers a clear example of how our ancestors foresaw the importance of this region in facilitating both Māori and European interaction. Kororāreka was designated as a “free-trade zone” in the early 19th century, allowing whaling and sealing ships to dock, and later becoming a centre for European settlers and missionaries. This foresight was part of a broader understanding of how trade and contact could be harmoniously integrated into Māori life.

Today, Te Rūnanga o Patukeha sees Russell as more than a commercial hub - it is the modern reflection of the tūpuna's ability to navigate the complexities of interaction, commerce, and cultural preservation. The town's continued role in facilitating tourism to the region mirrors the original purpose of Kororāreka, though now with a focus on sustainable practices and respectful engagement with both visitors and the environment.

As Te Rawhiti remains a largely untouched area at the eastern end of the Bay, it preserves the rural, natural qualities that were so important to our ancestors. It is this rural character that Te Rūnanga o Patukeha seeks to maintain—promoting a tourism model that respects the natural world, values sustainability, and ensures the continuation of ancestral customs and practices for future generations.

#### *10.1b Commitment | Protecting Cultural and Ecological Heritage*

Te Rūnanga o Patukeha is resolutely committed to ensuring that the Bay of Islands remains a place where cultural, ecological, and historical values are not only respected but actively protected. The tūpuna's deep connection to this area serves as the foundation for our stewardship, and it is a responsibility we carry forward today.

Central to this commitment is the collaboration with the Department of Conservation (DOC), local authorities, and other key stakeholders. While tourism remains an important part of the local economy, the hapū understands that the values visitors seek - natural beauty, rich cultural heritage, and historical landmarks - must be safeguarded. This is a shared responsibility between the iwi, local communities, and conservation entities, all working towards the same goal of preserving the region's integrity.

The Resource Management Unit (RMU) within Te Rūnanga o Patukeha plays a pivotal role in ensuring that tourism practices align with the iwi's values. By promoting responsible and sustainable tourism, the RMU works to ensure that the growth of the industry does not come at the expense of the environment or cultural practices.

#### *10.1c Action | A Sustainable Responsible Approach to Tourism*

Te Rūnanga o Patukeha's approach to tourism in the Bay of Islands revolves around the principle of sustainability—both environmentally and culturally. The RMU will advocate for a “back-to-nature” tourism model, emphasising activities that enhance, rather than diminish, the rural and natural character of the Te Rawhiti area and the wider Bay of Islands.

This sustainable approach ensures that the region remains a sanctuary for wildlife, a place for spiritual reflection, and a site where Māori culture continues to be celebrated. By prioritising eco-tourism, low-impact activities, and cultural tourism, Te Rūnanga o Patukeha aims to ensure that tourism contributes to the local economy while respecting the sacredness of the land and waters.

The RMU will also play a critical role in assessing all tourism-related concessions applied for with DOC and local government bodies. It is essential to evaluate the environmental and cultural impacts of tourism ventures before they are approved, ensuring that new developments are compatible with the area's long-term protection and stewardship goals.

In addition to concession assessments, the RMU will actively monitor the impact of tourism in key areas such as Maunganui Bay. With the increased interest in the newly introduced wreck site, it will be necessary to ensure that infrastructure—such as toilets and waste facilities—does not disrupt the delicate balance of the area's ecosystem. Hapū members will play an integral role in monitoring both electronically and physically to ensure that the region's integrity is upheld.

#### *10.1d Method | Collaborative and Inclusive Management*

The success of Te Rūnanga o Patukeha's tourism management strategy will depend on ongoing collaboration with DOC, local government, tourism operators, and other stakeholders. Ensuring that Māori perspectives and values are embedded in decision-making processes is essential for achieving a sustainable future for the Bay of Islands.

Te Rūnanga o Patukeha will continue to engage with all stakeholders in the region to ensure that tourism practices are aligned with our cultural values. This collaboration will include advocating for the inclusion of Māori cultural practices and stories in the tourism experience, ensuring that visitors leave with a deeper appreciation for the history and significance of the Bay of Islands.

By working together with local businesses, government agencies, and tourism operators, Te Rūnanga o Patukeha seeks to create a model of tourism that supports the local economy while also preserving the cultural, environmental, and historical integrity of the region.

## 10.2 Hau Takiwa | Air Resources and Telecommunications

With the continuous growth of telecommunication technologies, the demand for better connectivity in rural and remote areas like the Bay of Islands is increasing. The region's mountainous terrain often obstructs clear cellular reception, and the introduction of new telecommunication infrastructure, such as cellular towers, has become a topic of significant debate. While these developments are necessary for improving communication, Te Rūnanga o Patukeha is mindful of the potential impact on the environment, the landscape, and the cultural fabric of the area.

### 10.2a *Historic*

Telecommunication infrastructure plays an essential role in modern life, but Te Rūnanga o Patukeha stresses the importance of thoughtful and responsible planning. The hapū is not inherently opposed to new technologies or infrastructure but insists that developments must be carefully managed to mitigate any negative effects on the Bay of Islands' natural environment and cultural heritage.

### 10.2b *Commitment | Responsible Development with Cultural Sensitivity*

Te Rūnanga o Patukeha is committed to ensuring that telecommunications developments in the Bay of Islands balance technological advancement with the preservation of the region's cultural and environmental values. The hapū believes that responsible development requires full consideration of the area's visual and ecological landscape, alongside consultation with tangata whenua. Any infrastructure project must reflect the aspirations of the community and ensure that the land remains respected for future generations.

As with other development activities in the region, Te Rūnanga o Patukeha insists that a precautionary approach be taken, with thorough assessments and clear safeguards in place. This commitment extends to ensuring that any infrastructure complements the natural beauty and the rural character of the area, protecting it from unsustainable or damaging developments.

### 10.2c *Action | A Proactive and Cautious Approach*

Te Rūnanga o Patukeha will carefully assess all telecommunication infrastructure proposals on a case-by-case basis. The primary goal is to ensure that any new developments are in harmony with the natural landscape, cultural heritage, and environmental priorities of the Bay of Islands.

The Resource Management Unit (RMU) will be involved in the early stages of every proposal to evaluate its potential impacts. This proactive approach ensures that the hapū's values are fully integrated into the decision-making process. Key factors for assessment will include:

- **Visual Impact:** Ensuring that towers and infrastructure do not obstruct key scenic views or alter the natural aesthetics of the area. This includes evaluating tower design, height, and placement to minimise their visibility.

- **Environmental Protection:** Assessing the potential effects on local ecosystems, including native wildlife and plants. The hapū will not support developments that could damage sensitive habitats or disturb endangered species.
- **Electromagnetic Concerns:** Monitoring the potential effects of electromagnetic emissions on both local wildlife and human health, especially in areas of ecological significance.
- **Cultural and Historical Sites:** Any new infrastructure should avoid culturally significant sites, including wāhi tapu (sacred sites) and traditional landmarks. It is critical that telecommunications towers do not encroach on areas of ancestral importance.
- **Infrastructure and Access:** Considering the construction of access roads and other infrastructure needed to service the telecommunication towers. Any development must avoid unnecessary disruption to the land and its natural state.
- **Environmental Compensation:** Te Rūnanga o Patukeha may request a commercial environmental levy to help fund conservation efforts and offset any potential damage caused by new infrastructure.

#### *10.2d Method | Collaborative Consultation*

Te Rūnanga o Patukeha will continue to take a collaborative approach to telecommunication infrastructure development. Early consultation with the hapū, through the RMU, is essential to ensure that all concerns and cultural perspectives are integrated into the planning process. The RMU will receive all relevant information about any proposed development, allowing them to assess potential impacts before decisions are made.

This consultation process will assess not only the environmental and visual impact but also the long-term cultural implications. Te Rūnanga o Patukeha will work with developers and other stakeholders to find solutions that respect both the need for connectivity and the importance of preserving the region's natural and cultural integrity.

By ensuring that telecommunications developments are carefully considered and aligned with the values of Te Rūnanga o Patukeha, the hapū aims to create a balance where technology can thrive without compromising the Bay of Islands' unique environment and heritage. This approach aligns with the broader goal of maintaining the region's cultural identity, aesthetic beauty, and environmental sustainability—much like the thoughtful management of tourism in the area.

## 10.3 Noise Control

Noise pollution has become an emerging concern within the Te Rawhiti and Russell areas. As the community grows and visitors flock to the region, activities such as off-road driving, late-night gatherings on beaches, and increased helicopter traffic have begun to impact the peace and serenity that define the area. These disturbances not only affect residents but also disrupt the natural environment that is integral to the area's cultural and ecological value.

### **10.3a Challenges**

Historically, the Te Rawhiti and Russell areas have been recognised for their tranquility and natural beauty. These qualities have made the region highly valued by both local iwi and visitors. Our tūpuna understood the importance of the natural environment in shaping the well-being of the community, and the preservation of this peaceful atmosphere has remained a core value. However, as the area experiences growth in both population and tourism, the natural quietude is increasingly threatened by various forms of noise pollution.

### **10.3b Commitment**

Te Runanga O Patukeha is committed to maintaining the natural harmony and cultural integrity of the area by ensuring that noise management is prioritised in future development and activities. We are dedicated to working with local authorities and agencies to manage noise pollution, balancing the needs of the community with the environmental and cultural values that make the Bay of Islands so special. Our goal is not only to preserve the area's peace but also to ensure that residents, visitors, and businesses can coexist in a manner that respects the natural surroundings.

### **10.3c Action**

To address the issue of noise pollution, Te Runanga O Patukeha will take a proactive approach in collaboration with local authorities, businesses, and residents. We will work to implement clear guidelines for noise management, ensuring that all parties are aware of their responsibilities and the potential impacts of their activities. By taking a cooperative and informed approach, we aim to maintain the peaceful character of the region while accommodating growth and development in a sustainable manner.

### **10.3d Method**

<b>Local Noise Control Officer</b>	A designated officer will be appointed to manage noise complaints and ensure adherence to local noise regulations. This will involve working closely with residents and visitors to address concerns as they arise.
<b>Regulation of Helicopter Landing Sites</b>	Te Runanga O Patukeha will advocate for stricter controls on the establishment of helicopter pads and landing sites, ensuring they are subject to iwi-led conditions in the resource consent process. This will help manage the environmental and cultural impact of increased aerial traffic.
<b>Community Engagement</b>	A public awareness campaign will be launched to educate the community and visitors about noise control measures and the importance of preserving the natural quietude of the area. This will encourage responsible behaviour, particularly during peak tourist seasons.
<b>Collaboration with Local Authorities</b>	Te Runanga O Patukeha will collaborate with local councils and other relevant agencies to implement noise management strategies. This includes the regulation of vehicle noise on unsealed roads and managing activities that cause disturbance, such as late-night events and public gatherings.

Through these measures, Te Runanga O Patukeha will work to ensure that noise pollution is managed effectively, preserving the unique tranquillity of the region for future generations. By

engaging the community in this process, we aim to strike a balance between development and the protection of the environment, ensuring that the values we hold dear are upheld as the area grows.

## 10.4 Moorings, Wharves, Jetties and Boat Ramps

The growth in marine infrastructure, including moorings, wharves, jetties, and boat ramps, is becoming increasingly important in the Bay of Islands. However, such developments can have a range of environmental and cultural impacts if not properly managed. In particular, the lack of adequate services, such as rubbish collection, can lead to pollution and environmental degradation. Existing legislation does not always align with the specific needs of our area, and as such, stronger management objectives are necessary to maintain the Bay of Islands' integrity.

Te Rūnanga o Patukeha is committed to ensuring that the development and use of marine structures are carefully managed to prevent adverse impacts. We believe that these developments should balance accessibility and sustainability while respecting the region's natural and cultural values.

### 10.4a Commitment

Te Rūnanga o Patukeha is dedicated to actively engaging in the planning, design, and management of moorings, wharves, jetties, and boat ramps within our rohe. While acknowledging the value of such facilities for both recreational and commercial use, we seek to minimise their negative impacts on the environment, local communities, and our cultural heritage.

We request to be consulted at the earliest opportunity on all development proposals concerning marine infrastructure. Our involvement ensures that the development aligns with our values and supports the long-term sustainability of the region.

### 10.4b Action

The Resource Management Unit (RMU) will play a key role in reviewing proposals for moorings, wharves, jetties, and boat ramps. Applications will be carefully assessed to identify potential effects on the environment, visual amenity, and cultural significance. Key factors considered will include:

- a) **Vessel Size and Ownership:** The scale of the development will depend on the size and type of vessels intended for use. It is important to understand the demand on infrastructure.
- b) **Residency and Accessibility:** Whether the applicant is a permanent or part-time resident, and the ease of access to existing facilities, will inform the planning of new structures. This helps avoid overburdening specific areas.
- c) **Intended Use:** Distinguishing between recreational and commercial use allows us to tailor the infrastructure to the needs of the user and mitigate potential impacts on local communities and the environment.
- d) **Current Developments and Capacity:** Assessing the capacity of existing infrastructure ensures that new developments do not exacerbate existing pressures on local resources or the environment.

- e) **Environmental, Visual, and Cultural Impacts:** We will carefully evaluate the potential for any development to negatively affect native ecosystems, the visual landscape, or culturally significant sites.
- f) **Public Benefit:** Developments must provide clear benefits to the wider public, ensuring equitable access and community support.

#### *10.4c Method | Managing Development for Long-Term Sustainability*

Te Rūnanga o Patukeha advocates for a strategic approach to the placement of moorings, wharves, jetties, and boat ramps. Rather than permitting widespread development, we seek to concentrate these activities within designated areas that minimise environmental impact and preserve the character of our coastlines.

To ensure these developments contribute positively to the community and the environment, we propose establishing an annual environmental levy for coastal marine structures. This levy will fund ongoing monitoring, maintenance, and conservation efforts, ensuring that developments do not compromise the health of the Bay of Islands' ecosystems.

## **10.5 Whakatupato Mo Te Katoa | Public Safety**

Te Rūnanga o Patukeha places great emphasis on the safety and well-being of our community, particularly in the face of natural hazards and emergencies. Our geographical location, with its remoteness and coastal nature, makes us particularly vulnerable to a range of natural disasters, including flooding, storms, and road erosion. Given the isolation of our communities, and the high number of retirees, children, and vulnerable individuals, ensuring that we are prepared for emergencies is paramount.

This section outlines our commitment to public safety through effective fire control, civil defence preparedness, and community resilience initiatives. By supporting local fire brigades and working alongside civil defence agencies, we aim to enhance community safety and preparedness for any potential emergency.

#### *10.5a Challenges | Resilience and Community Preparedness*

The marae has long served as the natural focal point for our communities during times of emergency. It is where whānau gather for collective action, such as responding to natural disasters or civil emergencies. This tradition of resilience is integral to our identity and has been particularly relevant in events like Cyclone Gabrielle, when the local Rural Fire Brigade, alongside community volunteers, conducted health checks for whānau and the elderly.

The Te Rawhiti Community Resilience Project emerged as a direct response to these experiences, aiming to enhance the overall resilience of the community in the face of ongoing challenges, including poor telecommunications, unsealed roads, and heightened vulnerability to natural hazards.

#### *10.5b Commitment | Enhancing Community Safety and Preparedness*

Te Rūnanga o Patukeha is committed to ensuring that public safety is prioritised, particularly in our rural, coastal communities. We support the efforts of the Russell and Te Rawhiti fire brigades and the ongoing development of the Te Rawhiti Community Resilience Project. By

working with local marae, hapū, and emergency response agencies, we seek to improve both emergency response capabilities and the community's ability to prepare for and respond to crises.

In particular, we are focused on:

- a) Supporting fire brigades to ensure adequate rural fire response and equipment.
- b) Endorsing civil defence initiatives and maintaining effective communication channels during emergencies.
- c) Strengthening the community's preparedness for natural hazards through initiatives like the Te Rawhiti Community Resilience Project.

#### *10.5c Action | Strengthening Our Emergency Response Framework*

##### **Rural Fire Control**

Te Rūnanga o Patukeha will continue working in close partnership with the Russell and Te Rawhiti fire brigades, ensuring they have the necessary resources and support to provide a prompt and effective response to rural fire emergencies. This will involve ongoing training and regular equipment checks.

##### **Civil Defence Support**

We fully endorse the work of civil defence agencies and will continue to collaborate with them in preparing for and responding to emergencies. This includes providing hands-on support during crises, assisting in the development of contingency plans, and ensuring the community is informed about emergency procedures.

##### **Community Resilience Projects**

The Te Rawhiti Community Resilience Project, which directly addresses the challenges posed by our rural and isolated nature, is an essential initiative for strengthening community preparedness. The project aims to mitigate vulnerabilities related to telecommunications, infrastructure, and natural hazards, ensuring the safety of vulnerable individuals in our community.

#### *10.5d Method | Practical Solutions for a Safer Future*

##### **Fire Safety and Equipment Management**

Regular bi-monthly checks will be conducted by the Te Rawhiti Fire Brigade to ensure all fire safety equipment is fully operational and up-to-date. A formal Memorandum of Understanding (MoU) will be established between the local agencies to maintain and care for all acquired equipment.

##### **Civil Defence and Emergency Preparedness**

We have developed and lodged a comprehensive emergency preparedness plan with Northland's Civil Defence sector. The plan includes provisions for:

<b>Emergency Container</b>	Civil defence gear, tools, shelving, and workspace supplies
<b>Communication Equipment</b>	Starlink Satellite System, VHF radios, hand-held radios
<b>Medical Supplies</b>	Defibrillators, first aid kits
<b>Shelter &amp; Survival Gear</b>	Tents, weatherproof jackets, cooking equipment
<b>Food &amp; Water Supplies</b>	Over 500 servings of meals, clean drinking water

##### **Community Education and Collaboration**

We will continue engaging with our communities to raise awareness of emergency preparedness. This involves fostering an understanding of the key roles and responsibilities

each individual has during an emergency. Regular community meetings and educational initiatives will ensure everyone is well-prepared.

### **Training and Drills**

Bi-monthly training sessions and emergency drills will be carried out, ensuring fire brigades and the wider community are prepared. Collaboration with civil defence agencies will guarantee that response strategies are consistent and effective.

### **Enhanced Communication Networks**

In areas with limited telecommunications, we will expand alternative communication channels, such as satellite systems, to ensure the community can stay connected during emergencies.

Through these actions, Te Rūnanga o Patukeha aims to empower our community to take control of its own safety. While we face unique challenges due to our geographical location, the strength of our collective efforts will ensure that we are always prepared to meet any emergency with resilience and readiness.

**AFFIDAVIT OF MOKA KAINGA MAATA PURU IN SUPPORT OF  
APPLICATION BY NGATI KUTA AND PATUKEHA KI TE RAWHITI FOR  
RECOGNITION OF CUSTOMARY MARINE TITLE AND PROTECTED  
CUSTOMARY RIGHTS**

I, Moka Kainga Maata Puru of Kaingaho, Te Rawhiti, Trustee, swear:

- 1 My name is Moka Kainga Maata Puru and I was born at Kaingaho, Te Rawhiti. I am named after my tūpuna Moka, one of the three brothers who were the rangatira of Te Patukeha in the early 1800s and influential in the Bay of Islands at the time of the signing of He Whakaputanga and Te Tiriti.

**Background**

- 2 I am the youngest of ten children of Noema Puru and Putiputi Rewiri Ahitapu who lived at Kaingaho, Te Rawhiti.
- 3 I was brought up by my mother and older brothers and sisters and I attended Te Rawhiti Native School from year naught to standard 6. The school was situated on the papakainga of my grandfather Rewiri Ahitapu, gifted by our people for that purpose. It was part of Rawhiti 2A block and we had to fight to get it returned to the hapu when the school closed. It is now a Maori reservation and we use the former school building as our Te Patukeha marae, Kaingaho.
- 4 My brothers were also great hunters, fishermen, and with knowledge of the sea. I learnt from them and from our elders how to use a gun to hunt pigs and wood pigeons. I learnt to dive for koura and paua. These skills were all necessary for our survival and were the main source of food for our family.
- 5 Over the years I have been taught our tikanga in relation to our whenua, tiki kai i te moana, maramataka, the observation of preserving of kaimoana, the drying of fish and gutting the fish, preservation of ika for huihuinga. I have also been taught the manaaki kaupapa also of whanau who lived inland. That is an exercise of our rangatiratanga.
- 6 At the time I was growing up, the kaumatua at Te Rawhiti were: Henare Clendon, George Heke, Heta Clendon, Whiu Hau, Pahi Hau, Neha Hakaraia, Te Tarau Titore, Sid Rewha, Tuta Rewha, Joe Rewha, Karani Rewha, Hori Hau and Waata Mountain.
- 7 I learned many things from those kaumatua growing up there. They would teach me whakapapa, my hitoria of Te Rawhiti, my hapu Te Patukeha and the history of early trade with Pakeha in this area. I learnt from them about my tūpuna who signed He Whakaputanga and Te Tiriti and the arguments that developed over the signing of these documents. Ko te Tiriti i tuhia i te reo rangatira koia tērā te mea tūturu. Koia hoki tērā te Tiriti i mokohia e ōku tupuna.

- 8 I also learnt from them about the conquest of the whenua, how our hapu Te Patu Keha got its name, the movements of Te Patu Keha and how our tūpuna practiced the taonga of mixed marriages with other hapu.
- 9 At the age of 15 years old, I left school as I had to go to work and earn money to help provide for our family. We didn't have a lot in those days and many of us had to go to work at an early age to assist our parents. I joined my brother-in-law, Joe Hemara to work at the Cape Brett lighthouse, under our maunga tapu Rakaumangamanga. The main job there was to maintain the lighthouse. I earned about 20 pounds a month.
- 10 Cape Brett was a difficult place to reach. We could only return to Te Rawhiti by boat, by horse or walking the high hills. There was a narrow track and it took a very long time to get there and could be dangerous to strangers. I only worked there for 12 months.
- 11 Eventually, I had to leave Te Rawhiti to find work as there was no work for us there. Initially I went to Whangarei, then I went down to Auckland and worked at the Farmers Trading Co in Hobson Street. It was in Auckland that I met my wife, Hinerangi Cooper, the daughter of Dame Whina Cooper.
- 12 My mother-in-law, Dame Whina, later introduced me to two carving tutors and tohunga, Dr. Maharaia Winiata and Henare Toka, a master carver. I joined the carving academy at the Maori Community Centre in Auckland where we were paid £8 per week. I continued to carve at Te Puea Marae in Mangere under the tohunga Bill Poutapu from Tainui and became quite good at it.
- 13 Some of my carvings include:
- 13.1 The foyer at Te Unga Waka Marae;
  - 13.2 Hikoi mo Te Takutai Moana (the pouwhenua which travelled on the hikoi against the Foreshore and Seabed Act 2004);
  - 13.3 The pou koiwi at Urupukapuka Island;
  - 13.4 Te Tomohanga i te Marae o Te Rawhiti (this was a gateway representing the history of Ngāti Kuta and Patukeha hapū. I carved this with Hohepa Hemara, and we engraved the history of our people for all of our mokopuna mō ake ake);
  - 13.5 The maihi/ tekoteko at Te Rāwhiti Marae (which I carved with Hone Heke Wārana).
- 14 During our time in Auckland, my wife and I were active members of the art community. We raised 6 children in Auckland.

- 15 In 2004, my wife and I returned to live in Panguru. Now that we are living in the North, we go to Rawhiti frequently for hui in respect of our hapū affairs, to visit whānau and to stay on our whānau land. It is because of our historical and ongoing connection with the rohe, the land and our people that I now provide evidence to support the application of our hapū for customary marine title of our lands and moana.

**Mana whenua, mana moana**

- 16 For our hapū, you cannot assert mana whenua, mana moana unless firstly you have obtained the right to exercise rangatiratanga over the rohe by virtue of use rights exercised over the land mai rā anō (meaning, from long ago), obtained either by occupation or conquest and maintained through ahi kaa (the burning fires of occupation). Without these fundamental things you are mere occupiers, using the land under someone else's mana.
- 17 First I will set out below the whakapapa of our hapū to show their origins. I will explain how our hapū came to exercise mana whenua and mana moana over the land and moana that is the focus of our claim today.

### **Conquest**

- 20 My mother taught me how we came to have mana whenua in this rohe. Our tūpuna Te Whareahi, Rewa and Moka lived with their parents in Waimate. Ngaitawake was a fighting alliance that came through Kaikohe, Waimate, Kerikeri and Te Ti.
- 21 In the 1800s, while Hongi Hika was away on a fighting expedition, three wahine were killed in the maara kai (vegetable garden or cultivation) at Waimate by Ngare Raumati of Te Rawhiti.
- 22 The women who were killed were - Te Auparo and Te Karehū (mother and sister of Wharerahi, Rewa and Moka), Whakahoe from Ngati Kuta and Te Maire from Ngati Rehia. Whitirua, escaped, raising the alarm.
- 23 Te Hotete, Hongi's father heard of the killing and headed out to cut off Ngare Raumati at Tapeka. Tawheta of Ngare Raumati was killed at Tapeka.
- 24 There were several taua (travelling war parties) as utu against Ngare Raumati. The first taua was led by Te Hotete. The taua attacked Whiorau and then returned to Kerikeri. Another taua led by Pokaia went to Okahu and attacked the pā and sacked it.
- 25 Some years later around 1830, Rewa made preparation for utu, to address the killing of his mother and sister. However Hongi refused to join that ope (group) because of his relationship with Ngare Raumati. An alliance was called, and to my knowledge, as handed down to me, Te Kemara joined the alliance along with other Ngapuhi rangatira.
- 26 They went to Te Rawhiti and the taua attacked Okuia then the last battle with Ngare Raumati happened at Moturahurahu at Te Rawhiti.
- 27 During the battle Te Wharerahi swam across to the island and his younger brother Moka was going to shoot him, but Rewa took the gun off Moka. Te Wharerahi was married to a Ngare Raumati wahine, Te Pahu who was in the Pā at the time, their marriage, prior to this battle, was a part of the Tatau Pounamu.
- 28 In order to seal the peace Takahi gave Rewa a pounamu patu "Te Muramura" from Ngare Raumati which was exchanged for a Kuri Korowai from Rewa. "Te Muramura" is treasured by us and is in our whānau possession.
- 29 Rewa turned then to the Ngapuhi alliance and said at that peacemaking, that from this day on we will be known as Te Patukeha (to remind Ngapuhi of the killing of our mother Te Auparo on the maara kai).

- 30 When Te Kemara joined the alliance he put a rahui on Kahuwera because his tuakana Te Ikanui lived there. Te Ikanui's daughter, Te Hae married Warana the son of Rewa.
- 31 They had Hone Heke Warana, and he had Turei Heke and Kei Heke Warana. Kei married Rewiri Ahitapu and had Puti Ahitapu and Puti married Noema Whanui Puru and they had me, your kaikorero.
- 32 After the conquest Te Kemara took Ngare Raumati and distributed them amongst Ngapuhi. Some were to remain amongst Te Patukeha and Ngati Kuta, however mana whenua/mana moana became that of Te Patukeha and Ngati Kuta.
- 33 Our people have maintained and still maintain their ahi kaa of this area in the kainga I have listed. I have set out above Te Rarangi Rangatira at Te Rawhiti and in Kororareka.
- 34 These kōrero (histories) and more recent accounts of the occupation of land in Te Rawhiti have been recorded in:

34.1 The Northern Minute Books, A Selection Concerning Iipipiri 1891 – 1901, translated by Marara Te Tai Hook (Te Rawhiti, March 2008) (**Appendix A**); and

34.2 The Māori Land Court Minutes, recording cases from January 1905 to February 1905 (**Appendix B**).

- 35 I now set out below our rohe, and some of our important pā sites, urupa, kainga. In our CMT application, we have set out the key land blocks that we maintain a customary interest in. I have not listed them again here today but in addition to those key land blocks I identify some of our significant places and sites on those whenua.

### **Rohe and Significant Sites**

- 36 The rohe that has been handed down to us by our tupuna is as follows:

Kei Taupiri ki te tonga,  
 Anga ki Motu Kōkako ki te marangai  
 Anga atu ki Tikitiki ki te hauraro  
 Hoki atu ki Tapeka kei te hauauru  
 Kaia enei ko nga whakaritenga e whakakaupapatia e nga topuna mai rano  
 Nga taonga matauranga i waiho iho ranei ratou  
 ki nga whakatupuranga i muri nei

*Taupiri to the south, towards Motukokako to the East  
 Go towards Tikitiki to the North, then to Tapeka to the West.  
 These boundaries were identified and established by our ancestors during  
 their times.*

*They gifted the knowledge of this sacred identity through tribal loyalty to withstand the passing of time and accommodating generations to come.*

- 37 When I was younger, I spent a lot of time listening to the kuia and the tikanga, karanga, waiata of Te Rāwhiti Marae. One of those waiata was that composed by Henare Te Nāna recognising te maunga tapu o Rākaumangamanga:

*Ko Rakaumangamanga, ko te maunga rongonui  
E tu mai nei, ko te herenga kupu o nga tapuna  
Ko Rakaumangamanga, no Hawaiki e*

*Ka piki ake ahau, ki runga o te tihi  
Ō Rakaumangamanga ona mata e  
Kia matakitaki, i te au o Morunga  
I hoea nga waka Ngapuhi ee i*

*Ko te au o Morunga e hora nei  
Takoto whakarunga, whakararo e  
Ko te tai tuki waka o nga tapuna  
No Hawaiki mai, tuku iho ee i*

*Titiro iho ahau, ki te Tai Tokerau  
Ki Taiamai, Hokianga e  
Te takotoranga to mana e Ngapuhi  
No Hawaiki mai, tuku iho e*

*Nga maunga whakahii, kei te tai marangai  
Ō Rakaumangamanga, Manaia e  
Ke te taihauauru, ko Maungataniwha  
Ko Whakatere e, Ngapuhi ee i*

*Te Tarai o Rairi, Pūhangā Tohora  
Whfria Paiaka o Te Riri  
Whakarongorua e  
Panguru ki Papata, Ramaroa ka huri  
Ki Rakaumangamanga, Ngapuhi ee i*

- 38 That said, as between our hapu, Taupiri is acknowledged as the border area between Te Patukeha/Ngati Kuta and Ngati Wai. Te Wharerahi and Huri had their pa Matawhero at Hauai Taupiri.

#### **Pā of our tūpuna**

- 39 The pā belonging to Te Wharerahi included Matawhero/ Te Ākau, Tūorooro Pā/ Whiorau, Pā Kūhā/ Te Huruhi Orokawa, Keruwhenua/ Kororāreka.

- 40 The pā belonging to Rewa included Te Tihi/ Te Uenga/ Parekura, Morūarohia, Urupukapuka, Haratū/ Parahaki/ Kororāreka.
- 41 The pā belonging to Moka included Kapurarahurahu/ Urupukapuka, Puketutu/ Kororāreka.
- 42 The pā belonging to Huri included Matawhero/ Te Ākau, Tūorooro/ Whiorau, Te Tawa.

#### ***Urupā***

- 43 Some, but not all, of the urupā in our rohe include: Te Araaka Ōpourua (of Ngāti Kuta), Te Rautawa Ōmākiwi (of Te Patukeha), Te Kauri, Pōkaitaniwha, Tangitū Orokawa (Te Patukeha), Kotia Tangata Kororāreka (Ngāti Kuta and Te Patukeha).

#### ***Papakāinga***

- 44 Some, but not all, of the papakainga in our rohe include: Kaimarama, Hauai, Te Tawa, Kaingaho, Omākiwi, Te Kokinga, Te Kauri, Oharo, Whiorau, Tangatapū, Wairoa, Pōkaitaniwha, Te Uenga, Te Huruhī, Whangaoreore, Taurikura, Orokawa and Manawaora.

#### ***Wāhi tapu***

- 45 I append to this affidavit as exhibit "**MKP-1**" the evidence that I gave in the Waitangi Tribunal in support of Te Patukeha's claim in WAI 1040 and WAI 1140. The maps at page **024-038** of the exhibit show over 600 sites of significance within our rohe.
- 46 Motu Kōkako is one of our most sacred places. Hongi, before leaving to go on the war raids, would call into Motu Kōkako/ manawahuna and all the warriors would be blessed at Te Waipātoto. If there were any deaths, they were brought back to Motu Kōkako before returning to Ngāpuhi for burial.
- 47 Ohututea is another of our most significant sites. It was the sacred gathering place of the waka below Rakaumangamanga. It is also the name of the stream that runs down from the top of the maunga to the beach where our warriors of Ngāpuhi would gather before they went to war.

I was offered two apprenticeships, one was saddle making and the other was a boat building apprenticeship. Instead I joined my brother in-law Joe Hemara at the Cape Brett lighthouse. The main job there was to maintain the lighthouse. I earned about 20 pounds a month.
7. It was a lonely place and to get to Te Rawhiti, there were no roads so in order to travel to and from the lighthouse from Kaingahoia we could only go either by boat or by horse or walking the high hills. There was a narrow track and it took a very long time to get there and could be dangerous to strangers. I only worked there for 12 months.
8. Eventually, I had to leave Te Rawhiti to find work as there was no work for us there. Initially I went to Whangarei and worked at the Timber Mill for about 12 months. Then I went down to Auckland with a friend to find work and worked at the Farmers Trading Co in Hobson Street for a further 12 months.
9. However, going to Auckland was a real culture shock for us. I remember walking along Karangahape Road one day with some friends and the signs read, "*no stopping at all times*". We thought it meant no stopping for pedestrians, so of course we walked and walked to try and find somewhere where we could stop and stand. Eventually we gave up as we were quite tired and returned back to Nelson Street.
10. I also recall that one night my friend and I visited the Māori Community Centre at Freemans Bay for a dance, and lo and behold this girl come up to me and invited me to dance with her. She was the daughter of Dame

Whina Cooper, who had organised the dance at the centre, and our friendship grew. Her name was Hinerangi Cooper and I ended up marrying this young girl.

11. Over the years I decided that I wanted to learn to carve and so my mother-in-law Dame Whina introduced me to two carving tutors and tohunga, Dr. Maharaia Winiata and Henare Toka, a master carver. They were seeking young men who wanted to learn the art of carving and so my brother-in-law Hohepa Cooper and I joined the carving academy at the Maori Community Centre where we were paid £8 per week. I continued to carve at Te Puea Marae in Mangere under the tohunga Bill Poutapu from Tainui and became quite good at it.
12. Some of my carvings are:
  - The foyer at Te Unga Waka Marae
  - HIKOI TAKU TAI MOANA - The pouwhenua was on the hikoi Taku Tai Moana/Seabed and foreshore 2004.
  - I was invited to carve the Taniwha Niniwa of Hokianga by the people of Panguru and it now stands at Puke Rangatira facing the Hokianga Harbour on the North side of the Harbour.
  - POU KOIWI AT URUPUKAPUKA - I was invited by the hapu to carve the pou koiwi at Urupukapuka.
  - TOMOHANGA I TE MARAE I TE RAWHITI – The two hapu Te Patu Keha and Ngāti Kuta requested that a gateway be carved representing the history of the two hapu. Hohepa Hernara and myself volunteered to carve and engrave the history for all our mokopuna and families to be proud and remember mo ake ake.
13. In the 1970's while we lived in Auckland, my mother-in-law Dame Whina visited Panguru and requested three pou from her nephew Joseph Te Wake. I later carved these pou for; a pouwhenua, a pou baptismal for Te Unga Waka, a Tabernacle for the Catholic Church at Mangere. The pouwhenua lead the 1975 land march with Dame Whina.
14. Five years later I returned to Te Rāwhiti Marae to carve the maihi/tekoteko

along with Hone Heke Wārana.

15. I was also invited to Rotoiti marae to a large gathering of tohunga carvers from around the country. The kaupapa was to organize a group to go to Te Māori Exhibition in the 1980s. I was privileged enough to be selected from amongst the large gathering as the carver from Ngāpuhi to demonstrate the art of carving.
16. I have carved many taonga. Kingi Ihaka asked me to carve 3 crosses out of whalebone for the Anglican Māori Synod. Bishop Ben Te Hāara provided the whalebone.
17. As I mentioned before I have carved several taonga for the Catholic Church, in return my whānau have been blessed by the Crusader Prayer.
18. My wife Hinerangi and I raised six children, four girls and two boys. Both my sons are very artistic. During this time I worked as a Wharfie for 25 years at the Auckland Port.
19. Whilst in Tamaki, my wife and I became members of the Māori Artists and Writers guild, attending wānanga at Te Kaha and Heretaunga. We are also members of the Māori Weavers Organisation.
20. I am also a life member of the Auckland Museum. Elizabeth Mountain Ellis of Ngati Kuta was instrumental with this during her time as the chair for Waka Toi Māori Arts Council. I also received a grant from Waka Toi to buy my carving tools. I bought my tools from Germany.
21. In 1994, I was invited to Norfolk Island to the 200 years centenary for Huri and Tuki, who were kidnapped from here in 1793 to teach convicts how to dress flax. Two patu were gifted by Muriwhenua to the Norfolk Island Museum and they had come to fetch the patu home. I requested the patu remain in Norfolk Island and that they be named in memory of Huri and Tuki.
22. In 2004 I retired and my wife and I returned to Panguru. I continue to carve and have restored Waipuna Marae whakairo/tomohanga in Panguru. I was also asked by Te Rarawa Rūnanga to carve a pou for the 2004 Takutai Moana Hīkoi.

23. Now that we are living in the North, we go to Rāwhiti frequently for hui in respect of our hapu affairs, to visit whānau and to stay on our whānau land. It is because of our historical and ongoing connection with the rohe, the land and our people that I have been asked, and I feel an obligation to provide this evidence to the Tribunal.

**Te Patukeha and Ngāti Kuta.**

*The iwi is Ngāpuhi*

*The hapu is Ngai Tawake ki te tai moana*

*The sacred mountain is Rakaumangamanga a pillar of the sacred house of Ngāpuhi*

*The hapu who have authority are Patukeha and Ngāti Kuta*

*The marae are Te Rawhiti and Kaingahoa*

24. I have been asked by our hapu to present my evidence on behalf of both Ngāti Kuta and Te Patukeha ("the hapu") today and to introduce our claims to the Tribunal. However, I will begin by acknowledging Ngaitawake ki te Waokū, Ngaitawake ki Tuawhenua me Ngaitawake ki te Takutai.

25. The hapu have filed separate claims with the Tribunal (Wai 1140 and Wai 1307) because we are distinctive hapu. However, we are presenting them jointly today as we share mana whenua over effectively the same rohe whenua, rohe moana. This has been maintained by us through to the present day by ahi kaa and we have suffered jointly and equally at the hands of the Crown.
26. For our hapu, you cannot assert mana whenua, mana moana unless firstly you have obtained the right to exercise rangatiratanga over the rohe

by virtue of use rights exercised over the land mai raano, obtained either by occupation or conquest and maintained through ahi kaa. Without these fundamental things you are mere occupiers, using the land under someone else's mana.

27. First I will set out below the whakapapa of our hapu to show their origins. They have been set out in our respective statements of claim. However in my view it is important to set them out here for the Tribunal and explain why we affiliate to the two hapu:

**Rohe**

30. As outlined in our statements of claim, our rohe that has been handed down to us by our tupuna is as follows:

Kei Taupiri ki te tonga,  
Anga ki Motu Kōkakō ki te marangai  
Anga atu ki Tikitiki ki te hauraro  
Hoki atu ki Tāpeka kei te hauāuru  
Koia ēnei ko ngā whakaritenga e whakakaupapatia e ngā tūpuna mai rānō  
Ngā taonga mātauranga i waihō iho rānei rātou

*Taupiri to the south, towards Motukokako to the East*

*Go towards Tikitiki to the North, then to Tapeka to the West.*

*These boundaries were identified and established by our ancestors during their times*

*They gifted the knowledge of this sacred identity through tribal loyalty to withstand the passing of time and accommodating generations to come.*

31. I spent a lot of time listening to the kuia and the tikanga, karanga, waiata to Te Rāwhiti Marae. One of those waiata was that composed by Henare Te Nāna recognising Te Maunga Tapū ō Rākaumangamanga as follows;

*Ko Rākaumangamanga, ko te maunga rongonui  
E tū mai nei, ko te herengā kupu ō ngā tūpuna

32. That said, as between our hapu, Taupiri is acknowledged as the border area between Te Patukeha/Ngati Kuta and Ngati Wai. Te Wharerahi and Huri had their pa Matawhero at Hauai Taupiri.

#### **Ngati Kuta and Patukeha in Waimate**

33. According to our tupuna, Ngāti Kuta, along with Ngaitawake, Te Patukeha and other hapu of Ngāpuhi, were involved in the conquest of Te Waimate/Taiamai district. Jeffrey Sissons records that this occurred in approximately 1770.<sup>1</sup> He records that there was a meeting of Ngāpuhi hapu at Pakinga to avenge the death of Whakarongo (sister of Auha) and Whakaaria at Rangaunu in Waimate which was followed by the capture of pā such as Taumatatungutu, Ngaungau and Pahungahunga.<sup>2</sup> Te Rangitutakipu of Ngāti Kuta was instructed to make a surveillance of the captured pā. He proceeded to Waitangi/Tamuretahi but Whakataha pā was still inhabited. Thus, Ngāti Kuta along with Ngai Tawake and Te Patukeha took Whakataha Pā. This account is consistent with what has been passed down to me.

34. The conquest of Te Waimate/Taiamai is recorded in the whakatauki: "Tenei te kakata nei nga puriri o Te Waimate" ("Now the puriri trees of Te Waimate are laughing") meaning that the conquerors of Te Waimate were burning puriri wood, and as the sparks flew from the fire it spluttered or laughed. The former inhabitants of Te Waimate

saw how their poverty at Waimamaku contrasted with their former wellbeing at Te Waimate.<sup>3</sup>

### Conquest

35. My mother taught me how we came to have mana whenua in this rohe. Our tūpuna Te Whareahi, Rewa and Moka lived with their parents in Waimate. Ngaitawake was a fighting alliance that came through Kaikohe, Waimate, Kerikeri and Te Ti.
36. In the 1800s, while Hongi Hika was away on a fighting expedition, three wahine were killed in the māra kai at Waimate by Ngare Raumati of Te Rawhiti.
37. The women who were killed were - Te Auparo and Te Karehū (mother & sister of Wharerahi, Rewa and Moka), Whakahoe from Ngati Kuta and Te Maire from Ngāti Rēhia. Whitirua, escaped, raising the alarm.
38. Te Hotete, Hongi's father heard of the killing and headed out to cut off Ngare Raumati at Tāpeka. Tāwheta of Ngare Raumati was killed at Tapeka.
39. There were several taua as utu against Ngare Raumati. The first taua was led by Te Hotete. The taua attacked Whiorau and then returned to Kerikeri. Another taua led by Pokaia went to Okahu and attacked the pā and sacked it.
40. Some years later around 1830, Rewa made preparation for utu, to address the killing of his mother and sister. However Hongi refused to join that ope because of his relationship with Ngare Raumati. An alliance was called, and to my knowledge, as handed down to me, Te Kemara joined the alliance along with other Ngāpuhi rangatira.
41. They went to Te Rāwhiti and the taua attacked Okuia then the last battle with Ngare Raumati happened at Moturahurahu at Te Rāwhiti.
42. During the battle Te Wharerahi swam across to the island and his younger brother Moka was going to shoot him, but Rewa took the gun off Moka. Te Wharerahi was married to a Ngare Raumati wahine, Te Pahu who was in the Pa at the time, their marriage, prior to this battle, was a part of the

Tatau Pounamu.

43. In order to seal the peace Takahi gave Rewa a pounamu patu "Te Muramura" from Ngare Raumati which was exchanged for a Kuri Korowai from Rewa. "Te Muramura" is treasured by us and is in our whānau possession.
44. Rewa turned then to the Ngāpuhi alliance and said at that peacemaking, that from this day on we will be known as Te Patukeha (to remind Ngapuhi of the killing of our mother Te Auparo on the māra kai).
45. When Te Kemara joined the alliance he put a rāhui on Kahuwera because his tuakana Te Ikanui lived there. Te Ikanui's daughter, Te Hae married Wārana the son of Rewa.
46. They had Hone Heke Wārana, and he had Turei Heke and Kei Heke Wārana. Kei married Rewiri Ahitapu and had Puti Ahitapu and Puti married Noema Whānui Puru and they had me, your kaikorero.
47. After the conquest Te Kemara took Ngare Raumati and distributed them amongst Ngāpuhi. Some were to remain amongst Te Patukeha and Ngāti Kuta, however mana whenua/mana moana became that of Te Patukeha and Ngati Kuta.
48. Our people have maintained and still maintain their ahi kaa of this area in the kainga I have listed. I have set out above Te Rārangi Rangatira at Te Rāwhiti and in Kororāreka.
49. I now set out below some of our important pā sites, urupā, kainga. In our statement of claim we have set out the key land blocks that we maintain a customary interest in. I have not listed them again here today but in addition to those key land blocks I identify some of our significant places and sites on those whenua.

## PĀ

50. I set out below the pā of our tupuna:

### TE WHARERAHİ

#### **PARE KARAUNA/WĀHI TAPU**

53. Our two hapu have mapped 600 sites of significance within our rohe. A copy of those is annexed to my brief as Appendix "A".

#### **Ōhututea**

54. Ohututea is a sacred gathering place of the waka below Rakaumangamanga. It is also the name of the stream that runs down from the top of the maunga to the beach where our warriors of Ngāpuhi would gather before they went to war.

#### **Motu Kōkakō**

55. Hongi before leaving to go on the war raids would call into Motu Kōkakō / Manawahuna and all the warriors would be blessed at Te Waipātoto. If there were any deaths they were brought back to Motu Kōkakō before returning to Ngāpuhi for burial.

#### **Kororareka — Mana whenua**

56. According to our people, Moka & Rewa moved from Kerikeri after the death of Hengi to Kororareka. Rewa was the lieutenant of Hongi and therefore succeeded him following his death in 1828.
57. The cession of Kororāreka by Ngāti Manu to the northern hapu came about initially because of a fight over pākehā Captain Brind, between the daughters of Hongi (Pehi) and of Rewa (Moewaka). The fighting was

termed "The Girls War", 1828.

58. Hengi of Ngāti Rēhia and Whangaroa was subsequently killed following on from the Girls War. Ngāti Manu left Kororāreka and moved inland, Titore, Te Wharerahi, Rewa and Moka claimed Kororāreka as utu for the death of Hengi. The three brothers established kainga/pā in Kororāreka.
59. There was also further fighting in 1837. As a result of this the brothers of Patukeha had mana whenua in Kororareka. Shirley Hakaraia will talk in her brief further about the Old Land Claims that were transacted at that time in Kororāreka.
60. Moka, Rewa and Wharerahi lived near Pihopa Pomaparia and they established their mana whenua at Kororāreka through the establishment of their pā. The marae of Rewa at Russell is Haratu, which has been revived by the local community there today. Wharerahi established his pā, Keruwhenua and Moka, his pā, Puketutu.
61. The brothers maintained their mana whenua there whilst also residing at their lands at Te Rāwhiti. That was the seasonal nature of our way of life. And we allowed the Pakeha to use our land at Kororāreka. That is an example of the exercise of rangatiratanga, to allow others to utilize your land but only under the mana of our hapu.

#### **Engagement with the British**

62. At the time I was growing up, the kaumatau at Te Rāwhiti were: Henare Clendon, George Heke, Heta Clendon, Whiu Hau, Pahi Hau, Neha Hakaraia, Te Tarau Titore, Sid Rewha, Tuta Rewha, Joe Rewha, Karani Rewha, Hori Hau and Waata Mountain.
63. I learned many things from those kaumatau growing up there. They would teach me whakapapa, my hitoria of Te Rāwhiti, my hapu Te Patu Keha and the history of early trade with Pākeha in this area. I learnt from them about my tūpuna who signed He Whakaputunga and Te Tiriti and the arguments that developed over the signing of these documents, te reo maori, te tuturu. I talk about these matters later in my evidence.
64. I also learnt from them about the conquest of the whenua, how our hapu Te Patu Keha got its name, the movements of Te Patu Keha and how our

tūpuna practiced the taonga of mixed marriages with other hapu.

65. They also told me about why Rewa our tūpuna went to Australia to continue trade with the Pakeha. It was there that Rewa heard that the French were coming to New Zealand in retribution for the killing of Marion Du Fresne at Orokawa. It was this event that lead to the letter to King William IV 1831 seeking protection from the French.
66. Also my mother Puti Ahitapu-Puru would talk to me and pass on her knowledge about my tūpuna, Wharerahi, Rewa and Moka. Their mother was Te Auparo (Ngai Tū, Ngaitawake) and their father Te Maoi (Ngāti Tautahi, Ngaitawake).
67. My mother and my kaumatua told me that my tupuna Rewa was a key supporter of the petition to King William which sought his protection of our people from the behaviour of the British in our country.
68. Rewa had been in New South Wales with the missionary Yate when La Place arrived on La Favourite. As I mentioned above, there was talk that the French were coming here to colonise our country. When Rewa and Yate came back they brought this news and I was told this was another reason for asking for petition and seek the King's protection. This was not because our people accept that the King had authority over us, but because his people were living jointly with ours and in the spirit of that togetherness, his support was requested.

#### **He Whakaputanga me te Tiriti**

69. I realize that the Tribunal has already had a series of hearings in relation to He Whakaputanga and Te Tiriti. However, there are issues in the Statement of Issues that we need to address in our evidence and so I attempt to address those matters here.
70. The petition that I referred to above, lead to the signing of He Whakaputanga which Rewa (who was the most warlike) also supported along with all his brothers.
71. I have always been told by our kaumatua and kuia that He Whakaputanga was for our people an assertion to the British of what we already had, mana motuhake, which was recognised when Te Wakaminenga was

established. I was always taught that Te Wakaminenga was our collective decision making body, particularly when it came to dealing with Pakeha settlers. Te Wakaminenga was our way of ensuring that our ways, and our culture was respected and protected.

72. Therefore when our people agreed to He Whakaputanga, it was for our people a declaration and assertion of our sovereignty in Aotearoa. It didn't create a new organizational structure because we already had that with Te Wakaminenga. There was no need for us to create or agree to new structures.
73. What our people needed was for the British to control their own people and for the British to agree to do that otherwise our people would take things into their own hands and the result for the Pakeha settlers would be very uncomfortable.
74. Therefore our people agreed with the British, in writing, because that was how the British did things that they would agree to work with the British, take guidance from them and work with them to ensure that our lands became healthy and prosperous. That did not mean they agreed to be subservient to the British, as our people had their own rangatira to guide them and to take care of them. They did not need the British for that. However, our rangatira could not exercise control over Pakeha settlers as they did over their own people. That was a job for the British which they and our tūpuna agreed to and it was that which was the foundation for He Whakaputanga.
75. To be clear, our people continued and continue to exercise mana motuhake in respect of Aotearoa, our hapu continued to be led by our rangatira and guided by Te Wakaminenga when necessary. Our Rangatira consulted with the British, through Busby when necessary but our independence and rangatiratanga remained.
76. Then of course our people were presented with a document "Te Tiriti", the first version of which our people rejected because it recorded that we were giving our "mana" to the Queen. That could never happen and would never be agreed to and therefore "mana" was replaced with "kawanatanga" in the next version because of that very fact. There was

no question in my kaumatua and kuia minds that the reason the word "mana" was removed was because our ancestors knew that this meant that they were giving up far more than what they would ever intend to give up, their rangatiratanga, their mana over their land.

77. Our people did not give up their mana, their rangatiratanga and they did not agree in writing to give it up either. According to our people, our tūpuna were trying to bind our own people together and into a relationship with the British and the settlers, that ensured the protection of our people and settlers alike. Nothing more, nothing less.
78. Further, that is what was intended with the Māori version of Te Tiriti and not the Pakeha version that the Crown and others appear to place most reliance upon.
79. I support completely what has been presented by my whanaunga to the Tribunal previously about these matters.

#### **Wharerahi, Rewa and Moka and Te Tiriti**

80. What I have been told by my mother also was the korero surrounding the signing of Te Tiriti, in February 1840, the debate in the days beforehand and also that my tūpuna Rewa and Moka both expressed strong opposition to Te Tiriti in the debate leading up to the signing.
81. Rewa stated that he did not want to be subject to the authority of the British. He had been in Australia and had seen the way the British treated the indigenous people there and had good cause for worry.
82. Also in expressing concern over whether the British should stay or go, he also talked about the fact that he was concerned about our lands lost and with it a loss of mana over the lands. As Professor Anne Salmond noted in her report, Rewa is reported as saying:<sup>4</sup>

*"..do not sign the paper, if you do you will be reduced to the condition of slaves, and be obliged to break stones for the roads. Your land will be taken from you and your dignity as chiefs destroyed".*

83. I understand from my mother that what he was trying do was to get Hobson to say him and in front of our people, *no that isn't true or no that*

---

<sup>4</sup> Quoted in Salmond #A22, page 40.

*isn't the case.* However Hobson never did that and therefore we can only assume that what our ancestor Rewa said was exactly what Hobson intended. Clearly the actions of the Crown after the signing has shown that this is exactly what was intended.

84. Rewa's true feelings were that our people maintained our rangatiratanga and mana over the land and this was reflected in the writings of the Pakeha Colenso at the time of the debates. Those writings are set out in Phillipson's report. Rewa said:<sup>5</sup>

*What do Native men want of a Governor? We are not whites, nor foreigners. This country is ours, but the land is gone. Nevertheless we are the Governor — we, the chiefs of this our fathers' land. I will not say "Yes" to the Governor's remaining. No, no, no; return. What! This land to become like Port Jackson and all other lands seen [or found] by the English. No, no. Return. I, Rewa, say to thee, o Governor! Go back.*

85. My tupuna Moka focused on the land in his speech at the hui and questioned whether the Governor should stay and have any power as well as whether he would have the power to return land that had been unjustly taken from us. Moka is recorded as having said:

*"Let the Governor Return-let us remain as we were. Let my lands be returned —all of them"<sup>6</sup>*

86. Moka challenged Governor Hobson to show his power to return the lands and Hobson said that 'all lands unjustly held would be returned.' He told Moka that any purchases made after the date of the proclamation would be disallowed:

*The chief approved of this, stating that the kawana' promises were 'straight' (tika), but then launched into an immediate test of it, demanding that Baker, who was standing on the dais with the CMS missionaries, should return his land. Moka marched up to stand in front of Baker and awaited a reply.*

*The missionary's response was a loaded question. 'E hoki, koia?' translated by Colenso as "Will it, indeed, return?"*

*The clear implication was that it would not, to which Moka replied: 'There; Yes, that is as I said, No, no, all false alike.' [including Hobson's promises].*

*'The lands will not return to me.'*

---

<sup>5</sup> Quoted in Salmon #A22 page 40.

<sup>6</sup> Quoted In Salmon #A22 page 41

87. There has been no record which shows any land returning as promised by Hobson. I said earlier, our tūpuna, Moka, Rewa and Te Kemara opposed land dealings and requested that Hobson return the Whenua. Hobson's promises, in that regard have proven to be false.
88. My tupuna Wharerahi is recorded as being favourable towards Governor Hobson and suggested that he should stay. However his suggestion was influenced by the reward of peace if the Governor stayed. Our people knew Wharerahi to be a peacemaker and this comment is consistent with our tūpuna seeking a peaceable outcome with the unlawful Pakeha settlers of the time.
89. It does not suggest that Wharerahi agreed to giving up our mana and our rangatiratanga. In fact it is the opposite as the exercise of rangatiratanga is shown by allowing others to stay and live within your rohe albeit under the mana of the tangata whenua.

### **Impact**

90. The evidence that our people of Ngati Kuta and Patukeha are presenting to you today shows that due to the Crown and its actions, our hapu have suffered significant land loss through transactions before the signing of Te Tiriti, the establishment of the Native Land Court an institution created to change the way in which we held our land, when we did not need anyone to tell us we had mana whenua here.
91. Those Native Land Acts and other legislation took our land, controlled the way our land was to be held and placed restrictions on the administration of our land.
92. What little land we have left is held by individuals in Pakeha title and is subjected to restrictions on its use that have hampered our development initiatives.
93. Our people live in poverty and yet around us we see Pakeha living in immense wealth in our rohe and reaping the benefits from the tourism industry which is created due to our beautiful landscape and our supposed "cradle of the nation" reputation.
94. We have been unable to continue our practices of food gathering. Large

scale development has changed our ability to sustain ourselves from the land and the sea. This has meant we are no longer able to provide the level of manaakitanga that we formerly provided due to the depletion of resources from the sea.

95. Our people have suffered greatly because of this. Our people, like me as a young man, have had to leave this area to seek work. This has lead to the loss of matauranga as well as the ability to transfer that to the young people. The way I learned at the feet of my kuikuia and kaumatua on a daily basis has gone. For the same reasons many have lost te reo and their knowledge of who they are and how they relate back here.

#### **Relief**

96. We Te Patukeha and Ngāti Kuta ask the Tribunal to make findings that provide us with the return of our rangatiratanga, our customary hapu lands, including the foreshore and seabed.
97. We also want the Tribunal to make recommendations that require the Crown to;
  - (a) Recognise our ownership of all rivers, lakes, waterways, coastline, minerals, and other resources currently claimed by the Crown within the customary hapu territory of Te Patukeha and Ngāti Kuta;
  - (b) An immediate apology on behalf of the Crown and its agents;
  - (c) Full and comprehensive monetary reparation; and
  - (d) Costs
98. For too long our people have been deprived of the exercise of their rangatiratanga over lands and resources. The time has come for that to stop and for the Crown to recognise us, our mana, our rangatiratanga, our wairua.
99. As a result of what the Crown has done, we have been left with no land to sustain us, to develop or to benefit from. Our resources have

been polluted and what hasn't been polluted has been decimated by commercial fishing. As hapu we have no economic base for our rangatahi to develop and no land to live on. Even if we did manage to retain small areas of our whenua, we can't afford to hold onto it as rates in our rohe are so high.

100. Therefore this Tribunal must make recommendations that provide us and not the wider iwi group with the opportunity to survive and prosper.

**AFFIDAVIT OF JAMIE HURIKINO HAKARAIA IN SUPPORT OF  
APPLICATION BY HAPŪ FOR RECOGNITION OF CUSTOMARY  
MARINE TITLE AND PROTECTED CUSTOMARY RIGHTS**

I, Jamie Hurikino Hakaraia of Rawhiti, trustee secretary, swear:

- 1 Ko Jamie Hurikino Hakaraia ahau.
- 2 I am a mandated representative of the hapū Ngāti Kuta and Patukeha ki te Rawhiti (**the hapū**), the Secretary of the Motu Kōkako Ahu Whenua Trust, and a Proxy Trustee of the 3B2 Ahu Whenua Trust.
- 3 In this affidavit I set out the following:
  - 3.1 a brief description of this application (kaupapa statement), including the area to which it relates and the customary rights the application seeks to protect;
  - 3.2 a description of the applicant group;
  - 3.3 my mandate to represent the hapū, and to hold the orders this application seeks;
  - 3.4 the third party support for this application from other groups; and
  - 3.5 further documentation relevant to this application.

- 4 I append to this affidavit a bundle of documents "**JHH-1**" to which I will refer by page number.

**Kaupapa statement**

- 5 We, the hapū, apply for recognition of customary marine title (**CMT**), for protection of customary rights, and a wāhi tapu restriction in relation to the takutai moana in our ancestral rohe, in particular to Motu Kōkako (also known as Rawhiti 2C or Piercy Island) and the area surrounding Rakaumangamanga (Cape Brett, also known as Rawhiti 3B2).
- 6 This is the "CMT Area" as set out in the **Schedule** to this affidavit.

- 7 Motu Kōkako is Māori freehold land. In 1913, when Motu Kōkako was partitioned out from the Rawhiti Block as Rawhiti 2C, the Native Land Court registered 182 owners of Rawhiti (the **original owners**). As at the present date, there are 651 owners who all descend from, or whakapapa to, the original owners (**page 001**).
- 8 Rawhiti 3B2 is also Māori freehold land. There are 3357 owners of the 3B2 block of land, many of whom whakapapa to the hapū making this application (**page 025**).
- 9 The marae primarily associated with the hapū is Te Rawhiti marae, in the Bay of Islands. The hapū hold monthly meetings at Te Rawhiti marae, which are well attended.
- 10 Motu Kōkako in particular, and the navigable moana surrounding it, is a wāhi tapu to our people. Our people have lived in the area in accordance with tikanga Māori for almost 200 years. The wāhi tapu allowed our people to sustain a food source, establish an economy to trade goods among other iwi and colonial settlers, and navigate the area around the Rakaumangamanga Peninsula. Many of our traditional customary activities in the area continue today.
- 11 It is these customary practices the hapū seeks to protect via a protected customary rights order:
- 11.1 management and control of access and entry to all wāhi tapu and wāhi tapu area;
  - 11.2 imposition and relief of rāhui;
  - 11.3 customary fishing rights, including the gathering of kaimoana and manu;
  - 11.4 right to derive commercial benefit; and
  - 11.5 the protection of all other customary activities exercised by the applicants in accordance with tikanga within the CMT Area.

#### **Applicant group**

- 12 The hapū of Ngāti Kuta and Patukeha make up the applicant group.

**Whakapapa o Ngāti Kuta:**

**Mandate to represent the hapū**

- 15 The issue of how to protect our mana whenua, mana moana and ahi kā around Motu Kōkako has been discussed extensively among the hapū for some years now. The hapū and those representing what became the Motu Kōkako Ahu Whenua Trust came together as ngā tangata o Te Rawhiti in 1987, when our mana whenua and mana moana became threatened by local tourist operators. The Motu Kōkako Ahu Whenua Trust Order is at **page 162**.
- 16 The hapū and the Ahu Whenua Trust have, over the years, discussed and pursued several options for this purpose. Some of those measures were successful, but only for a short period. We acknowledge the potential of this application for CMT to restore, perpetually, the respect we believe Motu Kōkako and the surrounding moana deserve.
- 17 At a hapū meeting dated 9 April 2016, the hapū resolved to endorse me, Moses (Blandy) Witehira and Robert (Bob) Clarke as hapū māngai to the Motu Kōkako Ahu Whenua Trust to pursue this application (**page 169**). The hapū recorded its mandate for this

application in a letter to our solicitors, Chapman Tripp, on 22 April 2016 (**page 171**).

- 18 Mr Witehira and Mr Clarke are current trustees of the Ahu Whenua Trust, and I am its secretary.
- 19 On 19 December 2016, the 3B2 Ahu Whenua Trust also formally recorded its support for this application (**page 172**).
- 20 As the mandated representative, I will hold the orders recognising the hapū's customary marine title, protecting our customary rights and restricting access to our wāhi tapu.
- 21 My contact details are:

**Address:** [REDACTED] Oteha, Auckland 0630

**Phone:** [REDACTED]

**Email:** [REDACTED]

- 22 I have been involved with the Motu Kōkako Ahu Whenua Trust for two years, and in Treaty Settlement negotiations for the Wai 1140 and 1307 on behalf of the hapū for five years.
- 23 I intend to table the progress of this application at each monthly meeting. The mandated hapū representatives will also draft a working plan to assist the hapū and the Trust to work collaboratively as this application progresses.

#### **Third party support and consultation**

- 24 The hapū acknowledge that Motu Kōkako is important to other iwi and hapū groups in Tai Tokerau. To that end, the hapū has engaged with a number of those groups to discuss the Ngāti Kuta and Patukeha CMT application with a view to obtaining their support.
- 25 First, the 3B2 Ahu Whenua Trust (Trust Deed at **page 173**). This Trust is the owner of the Māori freehold land adjacent to Motu Kōkako at Rakaumangamana (Cape Brett), which is included in the Motu Kōkako CMT. Many descendants of the original 3B2 owners

whakapapa to Ngāti Kuta and Patukeha. The 3B2 Ahu Whenua Trust fully supports our application for CMT (**page 172**).

- 26 Second, the Whangaoreore Ahu Whenua Trust. This Trust owns Māori freehold land at Parekura Bay, adjacent to the Rawhiti 3B2 block of land. The Whangaoreore Ahu Whenua Trust fully supports our application, and believes its interests will be enhanced by virtue of this application (**page 179**).
- 27 Third, a hapū moana management collective within the Bay of Islands known as the Rohe Moana Collective have signalled their support for the CMT application. This is a hapū based collective that includes the Bay of Islands hapū Ngāti Rahiri, Ngāti Kawa, Ngāti Manu, Te Kapotai as well as Ngāti Kuta and Patukeha. This group manages customary fishing within the wider Bay of Islands area but acknowledges the rights of the respective hapū to their specific tribal area. This group is fully aware of the CMT application and I understand they intend to register their support.
- 28 Fourth, the hapū have approached Te Rūnanga a Iwi o Ngāpuhi. I understand that the Rūnanga is supportive of this application, and is likely to register its support in writing.
- 29 Fifth, the hapū have approached the Hauai Ahu Whenua Trust to discuss this application. The Hauai Ahu Whenua Trust holds the area of Māori freehold land adjacent to the Rawhiti 3B2 block, on trust for the original owners. Many of the owners whakapapa to Ngāti Kuta and Patukeha. The trustees of the Hauai Ahu Whenua Trust have signalled their support for this application, and we expect to have this support in written form.
- 30 Ngāti Kuta, Patukeha and the Trusts' view this show of support as an acknowledgement of our primary tikanga interest in the Motu Kōkako CMT area and the wāhi tapu within that area. We intend to hold ongoing discussions with these roopu and hapū as this application progresses.

**Other documents relevant to this application**

31 The hapū, in various capacities, have held and exercised mana whenua and mana moana over the CMT Area since at least 1840. I attach three further documents to this affidavit that, together, demonstrate the breadth of the hapū's exercises of mana in the area, both historical and contemporary:

31.1 Northern Minute Books, Māori Land Court (translated by Marara Te Tai Hook (1891-1901) (**page 180**);

31.2 Māori Land Court Minutes, Te Rawhiti (1905) (**page 330**);

31.3 Ngāti Kuta Hapū Management Plan (**page 416**);

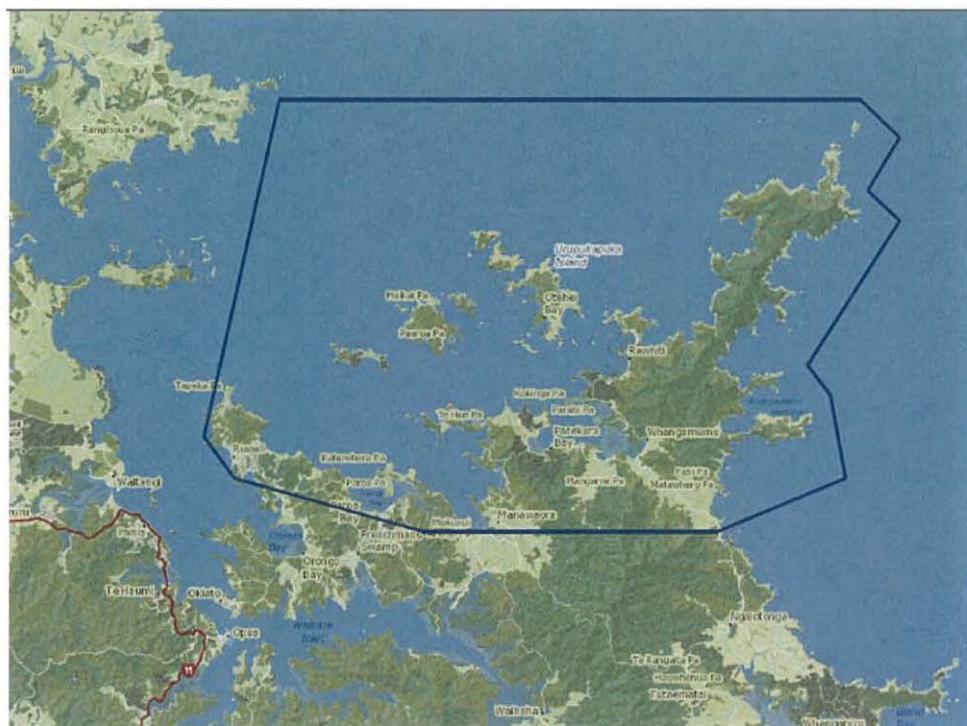

31.4 Moana Management Plan of Ipipiri (2008) (**page 575**).
