2. Comments

Please accept this form as my formal submission on the draft designation conditions for the **State Highway 1 North Canterbury – Woodend Bypass Project (Belfast to Pegasus)** (Application **FTAA-2512-1157**).

My submission relates specifically to the proposed **operational road-traffic noise designation conditions**, particularly **Conditions 92–96 and Condition 100**.

Rather than repeating the detailed technical matters within this form, I have provided a separate submission that explains the reasons for my comments and proposes specific amendments to the draft conditions, together with supporting appendices.

Documents attached

1. Cover Letter
2. **Comment on Draft Designation Conditions – Operational Road-Traffic Noise and Kaiapoi SH1 Residential Receivers**
3. Appendix A – Whitefield Street Noise Measurement
4. Appendix B – Community Support for Kaiapoi SH1 Noise Mitigation
5. Appendix C – EPA Confirmation of Receipt and Circulation
6. Appendix D – Site Meeting Photograph – SH1 Noise Concerns at 54 Whitefield Street
7. Appendix E – Relevant Draft Designation Conditions and Requested Amendments

The proposed amendments are intended to improve the clarity, transparency and effectiveness of the operational road-traffic noise assessment, mitigation and monitoring framework for existing residential communities adjacent to the current SH1 corridor through Kaiapoi.

I support the overall purpose of the project and respectfully request that the Expert Panel consider the attached submission and proposed amendments when finalising the designation conditions.

Ngā mihi,

Jan Vlk
