Dear [REDACTED],

RE: Fast-track Approvals Act 2024 – Meeting Section 29 Requirements for the Oceana Gold (New Zealand) Limited’s Macraes Phase Four Project Application

Thanks for your ongoing engagement with us as we have been developing the substantive application for MP4 under the Fast-track Approvals Act 2024 (FTAA). We have valued all the comments and feedback and are now close to finalising the application so that it can be formally lodged with the EPA on the 9th of September.

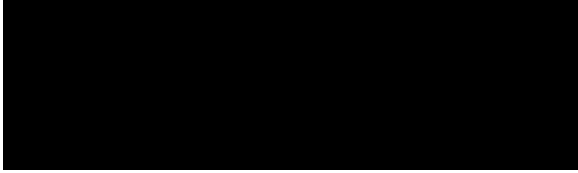

With respect to pre-lodgement consultation, the preliminary steps required under the FTAA ahead of lodging are a combination of those prescribed in section 29 and the transitional provisions in Schedule 1. Acknowledging that our consultation with you commenced prior to 31 March 2026 (the second commencement date under the FTAA) the transitional provisions in Schedule 1 apply to the MP4 application.

Rather than issue written notice and await response prior to lodging as required by the current wording of section 29, the transitional provisions instead require OGNZL to “finish their pre-commencement consultation”. That being the consultation that commenced prior to 31 March 2026. The purpose of this letter is to satisfy that formality while also confirming that it is our intention to continue engaging with you and other stakeholders post-lodgement.

The substantive application will include a summary of the consultation undertaken and will provide an indication as to how that consultation has informed the project. Our intention is to follow-up with you post-lodgement to provide more specific advice as to how we have considered and addressed the feedback you and your experts have provided to date.

As we have previously indicated, lodgement does not signal the end of our desire to constructively engage with stakeholders on the project, and we look forward to continuing to consult with you in the weeks and months ahead as the formal fast-track process proceeds.

Yours sincerely

Dear [REDACTED],

RE: Fast-track Approvals Act 2024 – Meeting Section 29 Requirements for the Oceana Gold (New Zealand) Limited's Macraes Phase Four Project Application

Thanks for your ongoing engagement with us as we have been developing the substantive application for MP4 under the Fast-track Approvals Act 2024 (FTAA). We have valued all the comments and feedback and are now close to finalising the application so that it can be formally lodged with the EPA on the 9th of September.

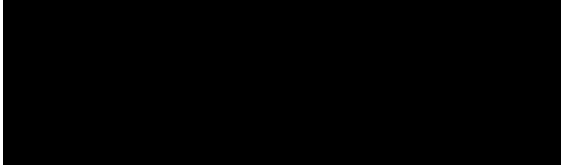

With respect to pre-lodgement consultation, the preliminary steps required under the FTAA ahead of lodging are a combination of those prescribed in section 29 and the transitional provisions in Schedule 1. Acknowledging that our consultation with you commenced prior to 31 March 2026 (the second commencement date under the FTAA) the transitional provisions in Schedule 1 apply to the MP4 application.

Rather than issue written notice and await response prior to lodging as required by the current wording of section 29, the transitional provisions instead require OGNZL to “finish their pre-commencement consultation”. That being the consultation that commenced prior to 31 March 2026. The purpose of this letter is to satisfy that formality while also confirming that it is our intention to continue engaging with you and other stakeholders post-lodgement.

The substantive application will include a summary of the consultation undertaken and will provide an indication as to how that consultation has informed the project. Our intention is to follow-up with you post-lodgement to provide more specific advice as to how we have considered and addressed the feedback you and your experts have provided to date.

As we have previously indicated, lodgement does not signal the end of our desire to constructively engage with stakeholders on the project, and we look forward to continuing to consult with you in the weeks and months ahead as the formal fast-track process proceeds.

Yours sincerely

SVP NZ Legal and Public Affairs
Oceana Gold (New Zealand) Limited
