

Appendices Index

Appendix number	Title
1.1	TTR Minerals Mining Permit 55581
1.2	TTR Minerals Mining Permit 55581 - Extension of mining area (12 July 2024)
3.1	STB trends in coastal erosion/accretion in relation to wave climate.
3.2	Sand Dunes and Low Cliffs seascape character type - Waiinu Beach
3.3	Fossil Cliffs seascape character type - north of Castlecliff Beach
3.4	Eroding Sea Cliffs seascape character type - Hawera coast
3.5	Sand Dunes and Low Cliffs seascape character type - Waipipi Beach
3.6 (1) to (20)	Marine Mammal Locations of all Sightings and Incidents
3.7	Maps of the predicted probability occurrence
3.8	Inshore boat angling activity, from Tongapurutu to Tangimoana, Taranaki.
3.9	Species commonly customarily harvested from the STB and the method used
4.1	Hytec Bio 46 Material Safety Data Sheet.
5.1	Background near-surface concentration of suspended sediment. (top panel) Median SSC; (bottom panel) 99th percentile SSC.
5.2	Background near-bottom concentration of suspended sediment. (top panel) Median SSC; (bottom panel) 99th percentile SSC.

Appendix number	Title
5.3(1)	Bird Eye Sediment Plume modelling. Explanation: This simulation follows 2.5 days of westerly winds (the dominant wind direction), the plume cannot be clearly discerned but the area to the east of the mining site is more strongly coloured in (b) and (c) compared to (a).
5.3(2)	Bird Eye Sediment Plume modelling. Explanation: This simulation follows a period of very little wind and shows discharged sediment “pooling” near the project area.
5.3(3)	Bird Eye Sediment Plume modelling. Explanation: This simulation follows 2.5 days of northerly winds and shows the plume moving to the east of the project area.
5.3(4)	Bird Eye Sediment Plume modelling. Explanation: This simulation follows 2.5 days of south-easterly winds and shows the plume dispersing predominantly to the west of the mining site.
5.4	Modelled change in water column light at Location A (top panel) and Location b (bottom panel).
5.5	Modelled water column light at Background Levels (top panel), Location A (middle panel), and Location B (bottom panel).
5.6	Draft Baseline Environmental Monitoring and Management Plan
5.7	Draft Environmental Monitoring and Management Plan
5.8	Draft Seabirds Effects Mitigation and Management Plan
5.9	Draft Marine Mammal Management Plan
5.10	TTR – Sand Mining – Patea Matauranga Maori and Customary Fisheries Analysis Te Tai Hauauru Fish Forum
5.11	Summer season beaching probability based on an 11-year trajectory database.
5.12	Autumn season beaching probability based on an 11-year trajectory database.
5.13	Winter season beaching probability based on an 11-year trajectory database.
5.14	Spring season beaching probability based on an 11-year trajectory database.

Appendix number	Title
7.1	TR De Beers Marine Visit 23 -27 March 2015 Proposed Agenda
7.2	TTR's STAKEHOLDER INFORMATION PACKAGE
7.3	Community consultation 2024-2025
8.1	FTA Requirements Assessment
8.2	Trans-Tasman Resources Limited's Health and Safety Initiatives
8.3	Trans-Tasman Resources Limited's Health and Safety Policy.
8.4	Trans-Tasman Resources Limited's Environment and Community Policy.
8.5	Assessment of relevant statutory planning documents under the Resource Management Act 1991
