

## APPENDIX 3: RESOURCE CONSENTS REQUIRED

### Resource Management (National Environmental Standards for Freshwater Regulations 2020)

Activity	Regulation	Status	Comment
Reclamation of the bed of any river	57	Discretionary	The Proposal involves the reclamation of 2,439m of stream

### Auckland Unitary Plan (Operative in Part)

Activity	Rule	Status	Comment
C1 General rules			
An activity that is classed as a permitted, controlled or restricted discretionary activity but that does not comply with one or more of the standards applying to that activity is a restricted discretionary activity unless otherwise specified by a rule applying to the particular activity	C1.9(2)	Restricted discretionary	Activity standard E12.6.2(1)(b) (Land Disturbance – District) provides that land disturbance within riparian yards and coastal protection yards are limited to less than 5m <sup>2</sup> or 5m <sup>3</sup> for general earthworks. The Proposal involves earthworks greater than 5m <sup>2</sup> and 5m <sup>3</sup> within riparian yards, therefore triggering a restricted discretionary consent under C1.9(2)
An activity that is classed as a permitted, controlled or restricted discretionary activity but that does not comply with one or more of the standards applying to that activity is a restricted discretionary activity unless otherwise specified by a rule applying to the particular activity	C1.9(2)	Restricted discretionary	Under PC120 Activity standard E12.6.2(18) (Land Disturbance – District) provides that earthworks to be undertaken should be in accordance with a landslide hazard risk assessment report prepared in accordance with Appendix 24 – Landslide Hazard Risk Assessment Methodology. A landslide hazard risk assessment prepared in accordance with Appendix 24 has not

			been provided therefore triggering a restricted discretionary consent under C1.9(2)
An activity that is classed as a permitted, controlled or restricted discretionary activity but that does not comply with one or more of the standards applying to that activity is a restricted discretionary activity unless otherwise specified by a rule applying to the particular activity	C1.9(2)	Restricted discretionary	Under PC120 Activity Standard E15.6.8A (E15 Vegetation Management and Biodiversity) provides that vegetation alteration or removal should be undertaken in general accordance with a landslide hazard risk assessment report prepared in accordance with Appendix 24 – Landslide Hazard Risk Assessment Methodology. A landslide hazard risk assessment prepared in accordance with Appendix 24 has not been provided therefore triggering a restricted discretionary consent under C1.9(2)
E3 Lakes, rivers, streams and wetlands			
New reclamation or drainage, including filling over a piped stream	E3.4.1(A49)	Non-complying	The Proposal involves the reclamation of 2,439m waterbodies within the Significant Ecological Areas Overlay
E7 Taking, using, damming, and diversion of water and drilling			
Dewatering or groundwater level control associated with a groundwater diversion authorised as a restricted discretionary activity under the Unitary Plan, not meeting permitted activity standards or is not otherwise listed	E7.4.1(20)	Restricted discretionary	The Proposal involves excavations that will result in the diversion of groundwater as it impedes the identified groundwater table which will not meet permitted activity standards as (i) the water take associated with the groundwater diversion will exceed 30 days, and (ii) the water take associated with the

			groundwater diversion is required during the operation of the quarry
The diversion of groundwater caused by any excavation, (including trench) or tunnel that does not meet the permitted activity standards or not otherwise listed	E7.4.1(28)	Restricted discretionary	The Proposal involves groundwater diversion caused by excavation that does not meet the permitted activity standards as the proposed quarry excavation exceeds both 1ha in area and 6m in depth
E11 Land disturbance – Regional			
Land disturbance not otherwise listed greater than 5m <sup>2</sup>	E11.4.3(A28)	Restricted discretionary	The Proposal involves earthworks within the SEA overlay exceeding 5m <sup>2</sup> and 5m <sup>3</sup> , with 325,700m <sup>2</sup> and 10,160,000m <sup>3</sup> (8,654,000m <sup>3</sup> of cut and 1,506,000m <sup>3</sup> of fill) proposed
Land disturbance not otherwise listed greater than 5m <sup>3</sup>	E11.4.3(A30)	Restricted discretionary	The Proposal involves earthworks within the SEA overlay exceeding 5m <sup>2</sup> and 5m <sup>3</sup> , with 325,700m <sup>2</sup> and 10,160,000m <sup>3</sup> (8,654,000m <sup>3</sup> of cut and 1,506,000m <sup>3</sup> of fill) proposed
E14 Air Quality			
Mineral extraction activities at a rate of between five and 200 tonnes/hour in sites within an low air quality - dust and odour area (Quarry)	E14.4.1(A90)	Controlled	The Proposal includes mineral extraction activities at a rate of between five and 200 tonnes/hour, with approximately 167 tonnes per hour of extraction expected at a maximum capacity on a site that is located in a low air quality – dust and odour area (Quarry)
E15 Vegetation Management and Biodiversity			

Vegetation alteration or removal, including cumulative removal on a site over a 10-year period, of greater than 250m <sup>2</sup> of indigenous vegetation that: (a) is contiguous vegetation on a site or sites existing on 30 September 2013; and (b) is outside the rural urban boundary	E15.4.1(A10)	Restricted discretionary	The Proposal involves the removal of more than 250m <sup>2</sup> of contiguous indigenous vegetation outside the rural urban boundary, with approximately 28.97 ha of indigenous vegetation to be removed.
Vegetation alteration or removal within 20m of rural streams, other than those in Rural – Rural Production Zone and Rural – Mixed Rural Zone	E15.4.1(A16)	Restricted discretionary	Part of the vegetation to be removed as part of the Proposal is within 20m of rural streams.
Any vegetation alteration or removal in SEA-T within a Quarry Zone	E15.4.2(A44)	Restricted discretionary	The Site is subject to an SEA overlay (SEA_T_6454) and the Proposal involves the removal of approximately 28.97 ha of SEA vegetation within the Quarry Zone
H19 Rural Production Zone			
Mineral extraction activities in a Rural Production Zone	H19.8.1(A60)	Discretionary	The Proposal includes mineral extraction activities within the Rural Production Zone
H28 Special Purpose – Quarry Zone			
Mineral extraction activities (district)	H28.4.1(A7)	Controlled	The Proposal includes mineral extraction activities associated with the expansion of Kings Quarry
Land disturbance greater than 2500m <sup>2</sup>	H28.4.1(A14)	Controlled	The Proposal involves earthworks in a Quarry Zone greater than 2500m <sup>2</sup> and 2500m <sup>3</sup> , with 325,700m <sup>2</sup> and 10,160,000m <sup>3</sup> (8,654,000m <sup>3</sup> of cut and 1,506,000m <sup>3</sup> of fill) proposed

Land disturbance greater than 2500m <sup>3</sup>	H28.4.1(A15)	Controlled	The Proposal involves earthworks in a Quarry Zone greater than 2500m <sup>2</sup> and 2500m <sup>3</sup> , with 325,700m <sup>2</sup> and 10,160,000m <sup>3</sup> (8,654,000m <sup>3</sup> of cut and 1,506,000m <sup>3</sup> of fill) proposed
Land disturbance greater than 2,500m <sup>2</sup> where the land has a slope equal to or greater than 10 degrees	H28.4.1(A17)	Controlled	The Proposal involves earthworks greater than 2,500m <sup>2</sup> where the land has a slope greater than 10 degrees
Land disturbance greater than 2,500m <sup>2</sup> within the Sediment Control Protection Area	H28.4.1(A18)	Controlled	The Proposal involves earthworks greater than 2,500m <sup>2</sup> within the Sediment Control Protection Area
E36 Natural Hazards and Flooding (PC120)			
Accessways, private roads in landslide hazard risk areas that do not comply with Standard E36.6.A1	E36.4.1B(A113)	Discretionary	A landslide hazard risk assessment prepared in accordance with Appendix 24 has not been provided for the application as required by E36.6.A1.
