Subject: RE: Ayrburn Screen Hub conferencing - Landscape Matters

Good morning Melita,

Responding to paragraph [3] of this Minute:

Ms Gilbert has confirmed that she has reviewed the following two documents, and that she remains comfortable that the information provides confidence that the proposed slope stabilisation options available will allow for the proposed planting strategy to be implemented:

- Applicant's Document 9: Geosolve, Engineered Batter Planting Stability Memo, 19.12.25; and
- Applicant's Document 14: The Plant Store, Planting establishment feasibility on engineered slopes, 09.01.26.

Kind regards

Sarah
