**RE: FTAA-2603-1185 HUNUA QUARRY DEVELOPMENT SUBSTANTIVE APPLICATION
LODGED UNDER FAST-TRACK APPROVALS ACT 2024: RESPONSE TO MINUTE 6
ITEMS SPECIFIED AT PARAGRAPH 6(a) AND 6(c)**

Following the issue of the Panel's Minute 6 and the identified actions that follow receipt of the Applicant's response to comments, please find below links to the documentation requested:

Minute 6 reference	Applicant's Response
Paragraph 6(a) A list of the management plans it is seeking the Panel approve.	The applicant confirms that approval is requested for the following management plans: 1. Operational Noise and Management Plan. 2. Chemical Treatment Management Plan. 3. Air Quality Management Plan. 4. Trigger Action Response Plan. The application also includes an Archaeological Authority and a Wildlife Act Approval which respectively include an Archaeological Management Plan and a Lizard Management Plan. The applicant seeks the Panel's approval of these management plans as part of the overall approvals requested.
Paragraph 6(c) A new version of Appendix 12 to its response to comments showing its changes in track / a different colour.	An updated version of Appendix 12 is provided that includes a tabulated analysis of the conditions and tracks the wording across the topics, confirming how the conditions and management plans implement these requirements. It was noted that the version appended to the Section 55 FTAA Report did not show the changes to the earlier versions that were appended to the Panel's Minute 3 and Minute 4. This updated version is intended to assist the Panel in understanding where changes have been made. New document name: Updated Appendix 12 Tabular Assessment Amended Draft Conditions_20260828 Sharepoint links to updated document: PDF: Updated Appendix 12 Tabular Assessment Amended Draft Conditions_20260828.pdf Word: Updated Appendix 12 Tabular Assessment Amended Draft Conditions_20260828.docx Associated with the above is an updated version of Appendix 11, the amended draft conditions in PDF form. This version now correctly aligns comment responses on behalf of the applicant with changes made in response to Section 51 and 53 FTAA comments. To clarify, the coloured text track changes reflect that multiple authors have contributed to the conditions. New document name: FTAA-2603-1185-Hunua-Quarry-Development-Panel_Appendix-B12.7-Conditions_18 August 2026 Sharepoint link to updated document:
