Hi there, we are the owners of [REDACTED]

As per Minute 4, I understand we have been invited to discuss our views.

I wish to raise 2 points that will impact us:

- That the walkway connecting the end on Rukutai street into the park be honoured and kept as public access for all to continue to enjoy
- That during any works, that onsite parking (inside the proposed building area) will be provided for all workers. This is so we can still park on our street and it's not overrun by contractors cars, as it already can be overcrowded.

Thanks,  
Bruce
