Kia ora Russell,

Thank you for your email.

As discussed, we received the May 2025 version of your assessment to review as part of the Section 46 ad 47 check. I can confirm you have included F41/890 in the January 2026 version of the assessment that is visible on the substantive application.

I confirm that HNZPT will review the updated archaeological assessment for our assessments of the application moving forward.

Kā mihi nui,

Morena Jasmine,

I'm re-sending this because I got a bounce back that the message couldn't send (I suspect the files were too big?).

The RFI from the fast-track panel is attached. The archaeology subheading says site F41/890 was

omitted from the assessment. However, it was included, assessed etc and we recorded it as part of this assessment. I've also attached the draft of the assessment that was submitted and is currently on the fast-track website (I'm wondering if an extremely out of date document made its way through to you by mistake?).

 [Appendix-21-Archaeological-Assessment - reduced.pdf](#)

Let me know if you need anything else.

Cheers,

Russell
