

Your Comment on the Mahinerangi draft conditions and decision (if applicable)

Please include all the contact details listed below with your comments and indicate whether you can receive further communications from us by email to substantive@fasttrack.govt.nz.

1. Contact Details			
Please ensure that you have authority to comment on the application on behalf of those named on this form.			
Organisation name (if relevant)	Otago Regional Council		
First name	Jenny		
Last name	Ross		
Postal address	180 High Street, Dunedin Central		
Home phone / Mobile phone		Work phone	
Email	consent.fasttrack@orc.govt.nz and [REDACTED]		

Thank you for the opportunity to provide minor corrections. ORC's suggested minor corrections have been made in **red tracked changes** over the Expert Panels' decision, with a comment explaining the reason for the minor correction.

Condition number	Condition	ORC Comment
G12	Certification is required to verify that the management plans: a) Meet the objectives in Conditions G15 (ECMP), G17 (EMP), G20 (ChTMP), G22 (EMMP), G23 (RMP), G25 (WMMP), G27 (WAOCP) and Condition 13 of Water Permit RMFT25.008.11 (NFRP); and b) Satisfy the requirements in Conditions G11, G18 (EMP), G21 (ChTMP), G24 (RMP), G26 (WMMP), G28 (WAOCP), and Condition 14 of Water Permit RMFT25.008.11 (NFRP).	G20 and G21 relate to the Chemical Treatment Management Plan (ChTMP).
G24	In order to achieve the objectives established in Condition G23, the RMP must, as a minimum, contain the following details: contain the following details:	Delete repeated words.
G26	In order to achieve the objective established in Condition G25, the WMMP must, as a minimum, contain the following details: ... d) Reporting procedures; and	d) is repeated.

	de) Trigger(s) for the review of the WMMP	
G27	The objective of the Wetland and Aquatic Offsetting and Compensation Plan (WAOCP) is to: a) Offset and compensate for loss of wetland and aquatic habitat that cannot be avoided, minimised or remedied; and b) Ensure no net loss of a net gain of ecological values.	The final decision records at paragraph 44(d) that: <i>We support the requirement for a net gain of ecological values in Condition G27 (draft Condition G28). The Applicant's proposal has committed to a considerable net gain and we consider it appropriate that an objective of the WAOCP is to deliver an unspecified net gain.</i> However, Appendix A still says the WAOCP objective is to "ensure no net loss of ecological values". This is inconsistent with the Panel's decision.
G42	If an unidentified archaeological site is located during works, the following applies: ... e) If human remains (kōiwi) are uncovered the Site Manager must advise the Heritage New Zealand Regional Archaeologist, NZ Police and Te Rūnanga o Ōtākou and the above process in Condition G42(d) under 4 must apply. Te Rūnanga o Ōtākou will lead the management of any kōiwi tangata (human remains of a Māori person) that have been uncovered, in line with the Te Rūnanga o Ngāi Tahu Kōiwi Tangata policy 2019. Remains are not to be moved until such time as Te Rūnanga o Ōtākou and Heritage New Zealand have responded. f) ...	Updated to refer to in Condition G42(d).
