Hi [REDACTED],

Thank you for your time on the phone earlier.

As we have been in continued consultation over the last year plus with Bathurst regarding their need for a new Access Arrangement regarding this process, and we provided input regarding the terms and conditions we would expect from the Access Arrangement long before their submission, we are happy the conditions regarding 59 (1) & (2) of the CMA were met.

Ngā mihi,

Jimmy Terlesk (he/him)

Kia ora [REDACTED],

I see in your recent email to the applicant that you have noted that their compliance with section 59 of the Crown Minerals Act 1991 is not currently clear.

There is some overlap here with our previous question to you about how the two permissions interact with each other and are sequenced.

To comply with section 59(1) and (2) of the Crown Minerals Act 1991 the applicant would need to apply for an access agreement with us.

Our team member who deals with Mining applications these is on leave until mid next week. I cannot confirm this absolutely but my initial look does not show this to be presently in our system. We will confirm this is the case asap, once our team member returns from leave.

From your perspective, under Section 29(1)(b) of the FTAA, do you need us to simply confirm that we have received an application which satisfies section 59(1) and (2) of the Crown Minerals Act 1991 in order to consider the Fast track application is complete and may progress? I take it from your email that this is the case. However I wanted to check whether there any other dependencies for the FTAA with the Crown Minerals Act? ie. Does access have to be granted to allow the Fast Track application to proceed at this or any other stage of the FTAA?

Kind Regards
Tom

Some people who received this message don't often get email from [REDACTED]

Kia ora Tom,

Thank you for providing LINZ's completeness response for this application.

We have one further query for LINZ in relation to the access arrangements sought.

We have reviewed the letter that the applicant provided to LINZ prior to lodgement to satisfy section 29(1)(b) of the Fast-track Approvals Act 2024. This was included in document F.06 of the application.

Section 29(1)(b) of the FTAA states that an applicant must comply with section 59(1) and (2) of the Crown Minerals Act 1991. Could you please confirm whether, in LINZ's view, the applicant has satisfied the requirements of section 59(2) of the Crown Minerals Act 1991.

If it would be helpful to discuss this further, please feel free to give me a call.

Ngā mihi nui,

[REDACTED]

Kia ora,

We have reviewed what is in the portal and LINZ considers that the documents are sufficient for our needs.

Nga mihi
Tom
