McCallum Bros. Ltd has operated within the Port of Auckland for its entire existence. While the Port is not busy at the moment due to the economic climate when it is busy there is often difficulties to access space on the wharves. If the Auckland Council wants to take some of the current Port of Auckland wharves back for public usage then consideration and allowance for creation of new wharf space and berthage needs to occur. The extension on Bledisloe and Fergusson as proposed in this application would do that and should be granted. As the economic heart of the Country, Auckland needs a well-functioning Port, proposals that do not permit this are not in line with any plan for true economic development of not only Auckland City but New Zealand as a whole. McCallum Bros. Ltd supports this Fast Track Application in its entirety.
