MINUTE 2 OF THE EXPERT PANEL
Invitations to comment

State Highway 29 Tauriko Network Connections [FTAA-2606-1254]

10 November 2026

[1] This minute addresses invitations to comment on the application under section 53 of the Fast-track Approvals Act 2025 (FTAA).

[2] In accordance with section 53(2) of the FTAA, the Panel must invite comments on the substantive application from persons listed in sections 53(2) (a) to (n) of the FTAA. Appendix 1 to this Minute provides the list of prescribed persons relevant to this project.

[3] When interpreting the meaning of "land adjacent" to the land to which the substantive application relates, for the purposes of section 53(2)(h) and (i), the Panel has had regard to the EPA guidance document relating to "identifying adjacent land" (June 2025 revision) and has exercised its judgement to include land that does not have a common boundary but is close enough to form part of the context of the application site and could be considered adjacent (such as land separated by a road, rail corridor, or watercourse).

[4] In addition to the persons that the Panel is required to invite comment from, the Panel has a discretion to invite comments "from any other person the panel considers appropriate" pursuant to section 53(3). The Panel has determined that it is appropriate to invite comments from the following parties:

(a) Māori groups (other than those mandatory groups prescribed in section 53(2)) identified in the section 18 Treaty Settlements and

Other Obligations Report[1] as having "relevant interests" in the project, specifically:

i. Ngāti Kahu
ii. Ngāti Hangarau
iii. Ngāi Tamarāwaho
iv. Ngāti Rangi
v. Ngāti Pango
vi. Pirirākau Incorporated Society
vii. Te Puāwaitanga o Ngāti Hinerangi Trust
viii. Poripori Farm A Trust
ix. Te Papa 453 Ahu Whenua Trust;

(b) Other parties the applicant has engaged with, identified in the Applicant's Record of Consultation and Engagement document (Appendix E, Table 4) as "affected landowners for the Project"[2], specifically:

i. Tauriko School
ii. Kāinga Ora
iii. Classic Group
iv. Element IMF
v. Tauriko Property Group
vi. Tauriko West Ltd
vii. TBE 3 Ltd
viii. Tauriko Holdings Ltd
ix. Tauranga Golf Club;

(c) Port of Tauranga, on the basis that the substantive application identifies the project as intended to improve connectivity with and reliability of access to the Port of Tauranga, which is relevant to the

[2] Only parties identified in Table 4 who are not already invited to comment for other reasons have been included under this category.

national and / or regional benefits of the project;

(d) The following properties which the applicant has identified as potentially experiencing visual effects which are minor or greater, in response to a further information request by the Panel:[3]

i. 17 Redwood Lane
ii. 34 Springwater Lane
iii. 27 Riverbasin Lane
iv. 23 Riverbasin Lane
v. 21 Riverbasin Lane
vi. 15 Riverbasin Lane
vii. 21 Arrowfield Drive
viii. 25 Arrowfield Drive
ix. 29 Arrowfield Drive.[4]

(e) The Panel acknowledges the applicant's submission "that section 53(3) is not an invitation for the Panel to recreate an RMA-style notification process" and that "the list of persons from whom comment must be sought is not linked to any degree of adverse effect.[5]" The Panel considers that the properties identified at [4](d) above, although not directly adjacent, are sufficiently proximate to fall within the context of the land to which the application relates. Accordingly, the Panel's approach to inclusion of these properties is consistent with the approach taken under the FTAA, and the EPA guidance document, which uses land sufficiently proximate to the land to which the substantive application relates as a proxy for

[3] Further information request contained in Minute 1 dated 3 November 2026, responded to by the applicant by Memorandum of Counsel together with attachments dated 5 November 2026.
[4] Only parties identified in the applicant's response to the Panel's information request who are not already invited to comment for other reasons have been included under this category.
[5] Memorandum of Counsel in Response to Minute 1 of the Expert Panel dated 5 November 2026.

ensuring affected parties are engaged in the application process.

[5] Section 54(1) of the FTAA requires the EPA (at the Panel's direction) to specify in its invitation for comments that the comments must be received by the EPA on behalf of the Panel on a date that is 20 working days after the date on which the invitation is given under section 53.

[6] Invitations to comment will be sent to invited parties on 10 November 2026. Any comments must be made to the EPA:

(a) by email to substantive@fasttrack.govt.nz;
(b) by post to Private Bag 63002, Wellington 6140, New Zealand; or
(c) in person to Stewart Dawson's Corner, 366 Lambton Quay, Wellington 6011.

[7] Comments must be received on or before **8 December 2026**.

[8] The application may be accessed on the Fast-track website here. The Fast-track website will be updated as information is made available to the Panel.

[9] The Panel would be most assisted by commenters:

(a) Focussing on matters which the Panel is required to address in its decision-making under the Act;
(b) Clearly identifying the specific area(s) of the application and/or topics (for example, the category of effect on the environment, the technical assessment challenged, etc) which the comment addresses. This will assist the Panel to quickly understand the focus of each comment and to group related feedback and other material for efficient review;
(c) Considering whether they might join with other persons invited to comment who share similar views, to present a joint response. Joint responses assist the Panel by ensuring all relevant information is before it in an efficient form, enabling appropriate review within the

available timeframes.

[10] If any information provided to the EPA is considered to be confidential, commercially sensitive, or contains tikanga-projected information, commentors should clearly mark it as "Restricted" and identify any required redactions so that this can be appropriately managed. Note that all restricted material will be provided to the Panel by the EPA in its unredacted form, to enable the Panel to consider whether confidentiality orders are required. It is likely that the Panel will also need to provide the unredacted material to the Applicant for natural justice purposes. If necessary, the EPA will consult with the provider of the information first to discuss the options available.
