Kia Ora [REDACTED],

Section 30(3)(b) of the Fast-track Approvals Act 2024

Thank you for your email dated 5 March 2026 regarding Nova Energy Limited's proposed Twizel Solar Project.

We acknowledge that the proposal is not listed under Schedule 2 of the Fast-track Approval Act 2024 (FTAA).

In accordance with section 30(3) of the FTAA, the Canterbury Regional Council is required to:

...advise the authorised person—

(a) of any existing resource consent to which section 124C(1)(c) or 165ZI of the Resource Management Act 1991 would apply if the approval were to be applied for as a resource consent under that Act; or

(b) that there are no existing resource consents of that kind.

Canterbury Regional Council can confirm that there are no existing resource consents as per section 30(3)(b) of the Fast-track Approvals Act.

Canterbury Regional Council trust this clarification provides the necessary information for proceeding with the application under the FTAA. Should you require any further information or have additional queries, please do not hesitate to contact us.

Section 30(3)(b) of the Fast Track Approvals Act 2024

Thank you for your email dated 11 March 2026 regarding Nova Energy’s proposed Twizel Solar Project proposed for Lot 3 DP 422901. We acknowledge that the proposal has been referred to be listed under Schedule 2 of the Fast Track Approval Act 2024 (FTAA). In accordance with section 30(3) of the FTAA, the Mackenzie District Council is required to:

...advise the authorised person—

*(a) of any existing resource consent to which section 124C(1)(c) or 165ZI of the Resource Management Act 1991 would apply if the approval were to be applied for as a resource consent under that Act; or
(b) that there are no existing resource consents of that kind.*

Mackenzie District Council can confirm that there are no existing resource consents of that kind.

Mackenzie District Council also confirms that the subject site holds the following resource consents:

- RM210021 – SOL Screening and Crushing Limited – Land Use Consent to extract, process and stockpile 100,000m³ of gravel over a five-year period – Granted 3 June 2021 - Lapse date 3 June 2026
- RM220073 – TGL Farms Limited – Land Use Consent for the installation and operation of an automated weather station – granted 20 June 2022

We trust this clarification provides the necessary information for proceeding with the application under the FTAA.

Should you require any further information or have additional queries, please do not hesitate to contact us.

EXTERNAL MESSAGE

Kia ora [REDACTED]

Please find attached the Section 30(3)(b) response.

I have also attached, existing resource consent decisions held for the site. There were no approved plans attached to RM220073 so I have attached the plan from the application for your reference. I note that there was an additional consent RM180173 for the site but this was only for a 2 ½ year period and expired on 31 March 2021 so I have not included it.

Nāku noa, nā / Yours sincerely,

Subject: [#BTW210982.00] Nova Energy Twizel Fast Track application

You don't often get email from trent.lynch@btw.nz. [Learn why this is important](#)

Kia ora [REDACTED]

Nova Energy's Twizel Solar Project application has progressed to a point where we are within a three-month time period of lodging the Substantive Application. Accordingly, we need to obtain a confirmation from Mackenzie District Council of any existing resource consents as per section 30(3)(b) of the Fast Track Approvals Act. Are you able to provide assistance for this?

Kind regards,

Planner | Kaiwhakamahere MPlan

Mackenzie District Council

DECISION OF MACKENZIE DISTRICT COUNCIL LAND USE CONSENT - RM210021

This resource consent is granted by the Mackenzie District Council pursuant to sections 104 and 104B of the Resource Management Act 1991 (the Act) and is subject to the attached conditions imposed in accordance with section 108 of the Act.

Applicant:	SOL SCREENING AND CRUSHING LIMITED
Application description:	LAND USE CONSENT TO EXTRACT, PROCESS AND STOCKPILE 100,000M ³ OF GRAVEL OVER A FIVE-YEAR PERIOD
Application status:	DISCRETIONARY
Property address:	STATE HIGHWAY 8, TWIZEL
Legal description:	LOT 3 DEPOSITED PLAN 422901
Valuation reference:	25320 00407
District Plan zone:	RURAL (MACKENZIE BASIN SUBZONE)
Date of decision:	3 June 2021
Lapse Date	3 June 2026

MANAGER PLANNING

REASONS FOR THE DECISION PURSUANT TO SECTION 113 OF THE RESOURCE MANAGEMENT ACT 1991

Having reviewed all the documentation, viewed the site and discussed with the author, the recommendation contained within the attached Officer's Section 42A Report has been adopted as the reasons for decision under Section 113 of the Resource Management Act 1991.

SCHEDULE OF CONDITIONS

Pursuant to section 108 of the Resource Management Act 1991 this resource consent is subject to the following conditions.

General

1. The development shall be carried out in accordance with the plans attached and stamped as approved on 3 June 2021 and the application as submitted under reference RM210021, except for the amendments required by the following conditions of consent.
2. This resource consent approves the following:
 - a. The extraction (mining) of up to 100,000m³ of gravel from the site over a five-year period, to a maximum depth of 4 metres.
 - b. The operation of plant machinery comprising of one Jaw Crusher, one Cone Crusher, one Powerscreen, two loaders, one excavator, one 40-foot container and one fuel tank trailer.
 - c. A maximum of 40 vehicle movements per day, which equates to a maximum of 20 vehicles entering the site and 20 vehicles existing the site.
 - d. Safety and directional signage in the site's interior and a single double-sided 2.88m² SOL Screening & Crushing Limited sign located beside the site's entrance from State Highway 8.
3. The consent holder shall advise the Planning Manager, Mackenzie District Council, of the date that quarry operations shall be commencing at least ten working days prior to their commencement.
4. The site container shall be located on the site for a maximum of six months in any one calendar year. The applicant shall keep records of when the site container is located at the site and provide the records to Mackenzie District Council Planning Manager on request.
5. Within one month of this consent being granted the existing signage located at the site entrance, shall be amended to contain the text: *SOL Screening and Crushing* with a minimum lettering height of 160mm.
6. All plant, machinery and signage detailed in Condition 2 shall be removed from the site at the completion of the duration of the resource consent.
7. The Consent Holder shall submit gravel extraction returns confirming the volume of gravel extracted to Mackenzie District Council's Planning Manager annually.
8. This resource consent shall lapse on 03 June 2026.

Site Operations

9. The area of operations, including a 20-metre setback from the edge of the Terrace Riser, shall not exceed a 3.54 ha as identified on the plan entitled SOL Screening and Crushing Twizel Quarry by Elrick and Co, dated 11 May 2021 attached and stamped as approved on 03 June 2021.

10. Ten working days prior to the commencement of works, under this consent, the consent holder shall submit a certified Survey Site Plan that has been Certified by a Licenced Cadastral Surveyor that confirms:
 - a. The location, depth, and extent of the existing quarry pit.
 - b. The location of all vegetation clearance up until the date this consent was granted.
 - c. The location of the top of the Terrace Riser and the location of the 20m setback from the Terrace Riser.
 - d. The location and size of the five rehabilitation stages and the location of the proposed extension in accordance with the plan entitled SOL Screening and Crushing Twizel Quarry attached and stamped as approved on 03 June 2021.

11. The consent holder shall provide a certified Survey Plan annually on the anniversary of the date of the grant of consent that has been Certified by a Licenced Cadastral Surveyor, that documents:
 - a. The location and depth of the gravel extraction undertaken the preceding calendar year.

 - b. The location of any rehabilitation that has been completed in the preceding calendar year.

12. Topsoil (A-Horizon) and vegetation to a depth of approximately 300mm shall be removed from the immediate excavation areas detailed in Condition 15 and windrowed (stockpiled) for use in site rehabilitation.

13. The hours of operation shall be 0700 and 1800 Monday to Friday, and 0700 to 1200 on Saturdays. For the avoidance of doubt, no gravel extraction or processing is permitted on Sundays or Public Holidays.

14. All quarry operations shall cease a minimum of 6 months prior to the expiry of the consent term to allow for removal of the stockpiles and finalisation of the site rehabilitation in accordance with the Quarry Rehabilitation Plan (QRP).

Site Rehabilitation

15. Rehabilitation shall be undertaken in accordance with the following stages which are illustrated on the plan approved and stamped 03 June 2021:
 - a. **Stage 1** - Rehabilitation of the area adjacent to the Terrace Riser damaged during the initial quarry operations (Year 1). Labelled Stage 1 and highlighted in red on the approved Plan.
 - b. **Stage 2** - Rehabilitation of the quarry pit floor, which was excavated prior to the granting of this consent (Year 1- 2). Labelled Stage 2 and highlighted in yellow on the approved Plan.
 - c. **Stage 3** - On-going rehabilitation (Year 2 - 3). Labelled Stage 3 and highlighted in blue on the approved Plan.
 - d. **Stage 4** - On-going rehabilitation (Year 3 - 4). Labelled Stage 4 and highlighted in purple on the approved Plan.
 - e. **Stage 5** - On-going rehabilitation (Year 4 - 5) and if necessary, includes the area labelled 'Proposed Extension Approx 1.0ha'.

16. Ten working days prior to commencing the works authorised under this consent, the consent holder shall GPS and peg out the location of the 20m setback from the top of the riser, and any variation to the setback approved under the Quarry Rehabilitation Plan in accordance with Condition 17 below. The setback shall be pegged out for the duration of the consent.

Quarry Rehabilitation Plan

17. Ten working days prior to prior to the commencement of quarry operations, the Consent Holder shall prepare and submit a Quarry Rehabilitation Plan (QRP) to the Planning Manager for Certification that the QRP complies with the conditions of this consent. The Quarry Rehabilitation Plan shall adopt the principles set out in this Consent relating to Quarry rehabilitation and the final landform Conditions 21 to 27. The Quarry Rehabilitation Plan shall be always retained on site and the Consent Holder shall ensure all personnel working on the site are made aware of and have access to it.
18. If the Consent Holder has not received a response from the Mackenzie District Council confirming certification of the QRP, or specifying recommended amendments to the QRP, within 10 working days of the date of submission under Condition 16 the QRP must be deemed to be certified.
19. If the response from the Mackenzie District Council is that Council is not able to certify the QRP, the Consent Holder must consider any reasons and recommendations provided by Council, amend the QRP accordingly, and resubmit the QRP to the Mackenzie District Council, Attention: Planning Manager.
20. The Quarry Rehabilitation Plan shall:
 - a. Be prepared in accordance with the provisions of the Quarry Rehabilitation Guidance; Christchurch City Council; 2018.
 - b. Be prepared by a suitably qualified and experienced person.
 - c. Contain a description of the content and objectives of the Quarry Rehabilitation Plan.
 - d. Contain a detailed description of rehabilitation procedures, the key principles, and a final landform plan.
 - e. Contain a detailed description of rehabilitation staging.
 - f. Contain a description of potential land use activities including activities that are permitted by the Mackenzie District Plan.
 - g. Assess the stability and surface drainage, including methods for reducing the potential for ponding on rehabilitated areas.
 - h. Contain a description of any planting or grass resowing.
 - i. Include a process for review of the Quarry Rehabilitation Plan.

Rehabilitated Landforms

21. All rehabilitation works approved under this consent shall be undertaken in accordance with a Final Landform Plan that has been incorporated into the QRP. The Final Landform Plan shall show:
 - a. The locations of the setbacks to the Terrace Riser and quarry pit.
 - b. The shapes of all landforms including the interior of the gravel pit and the exterior of the southern section of the Terrace Riser on completion of the rehabilitation of the site.
 - c. The location of permanent access to the gravel pit.

The layouts contained within the Final Landform Plan shall be applied to the already quarried areas and the future quarry pit areas authorised under this consent during their rehabilitation.

22. The vegetation established during reinstatement and rehabilitation shall be dryland species that exist in surrounding areas of the upper terrace, and not species that may be a basis for pastoral intensification.
23. Site rehabilitation shall include covering with the windrowed soil (A-horizon materials). Site remediation shall also include spreading of the stockpiled topsoil and re-seeding with vegetation types identified in Condition (21).
24. The final form of the quarry pit shall contain a variable setback of natural ground averaging 20 metres in width and no less than 10 metres that shall be maintained from the edge of the Terrace Riser. The final landform of the pit edge (interior) shall:
 - a. Have the appearance of natural gullies extending back from the edge of the pit as illustrated in the Schematic Plan in the document entitled *Sol Screening & Crushing Ltd Twizel Quarry, Landscape Peer Review of Draft Quarry Rehabilitation Plan, v0.5 10May2021*, by Graham Densem, and attached to this consent, that creates a formation that is commensurate of the surrounding land formations.
 - b. Have gradients that are variable, and gentle in places and no steeper than 1:3, with 3 being the horizontal dimension.
25. Vegetation clearance and excavation shall not take place on the Terrace Riser to the south of the operation area, or within 20 metres of the Terrace Riser unless the excavation and vegetation clearance forms part of the approved QRP.
26. If under the QRP a setback to the edge of the Terrace Riser is less than 20 metres, the location of the reduced setback shall be reviewed for indigenous biodiversity by a suitably qualified ecologist prior to any works occurring. If necessary, the setback shall be amended to avoid damage to the indigenous vegetation.

Remediation of the Existing Terrace

27. Within one calendar year of the granting of this consent the disturbed sections of the existing terrace on the southern section of the quarry pit and contained within Stage 1 of the Rehabilitation Plan, shall be reinstated to return the profile of the Terrace Riser to as natural form and vegetative state as possible to that what existing before quarrying. The existing terrace shall be reinstated by:
 - a. Reforming the terrace face at a slope similar to the smooth natural contours of gradient found on the unaltered terraces to east and west of the disturbed section.
 - b. Filling the existing vehicle access cut in the terrace riser and matching the form of the fill in accordance with Condition 27.a.
 - c. Creating a permanent access to the quarry pit from the existing farm road at the south-east corner of the pit in a way that does not dissect the Terrace Riser as illustrated on the Schematic as approved and attached to this Consent.
 - d. Revegetating the face of the Terrace Riser with similar species as located on natural terrace faces to east and west.

- e. Reinstating the rear of the terrace within the existing quarry pit by re-filling the pit out to a varied, naturalised line up to 20m behind the reinstated terrace top in accordance with the approved Final Landform Plan.
- f. Re-grassing the surfaces of interior of the reinstated rear of the terrace to match the vegetation elsewhere within the pit.
- g. The alignment of the interior of the terrace face and location of the permanent access shall be defined in the Final Landform Plan at least ten working days prior to the commencement of any works.

Bird Surveys

28. Prior to any works authorised by this consent being carried out in the period 1 September to 1 February, the consent holder shall ensure that:
- a. A suitably qualified and independent person inspects the proposed area of works, no earlier than eight days prior to any works being carried out and locates any bird breeding sites of birds listed in Appendix C, which forms part of this consent.
 - b. The person carrying out the inspection prepares a written report that identifies all the located bird breeding or nesting sites and provides copies of that report to the consent holder and the Mackenzie District Council Attn Planning Manager.
 - c. The name and qualifications of the person carrying out the inspection are provided to the Mackenzie District Council with the report.
 - d. Any person carrying out works authorised by this consent are informed of any bird breeding or nesting sites located.
 - e. Where work ceases for more than eight days, the site shall be re-inspected for bird breeding and nesting sites in accordance with parts (a) to (d) of this condition.
29. Vehicles and/or machinery shall not operate within 100 metres of birds which are nesting or rearing their young, as identified by the inspection undertaken in accordance with Condition 28. For the purposes of this condition birds are defined as those bird species listed in Appendix C, which forms part of this consent.

Access & Traffic Management

30. The operation of quarrying and associated trucking operations shall not commence until the Temporary Traffic Management Plan (TTMP) supplied to Council on 26 March 2021 and attached to this consent as Appendix A has been endorsed by Waka Kotahi/ NZ Transport Agency and the endorsed TMP has been provided to the Planning Manager, Mackenzie District Council. Thereafter, the operation of quarrying and associated trucking operations shall only be undertaken in accordance with the approved TTMP referred to in Condition 29, until such time as the upgrade to the State Highway 8 access has been completed. All contractors, workers and users of the site shall comply with the Temporary Traffic Management Plan.
31. Within three months of the granting of this consent the existing access to the site from State Highway 8 shall be upgraded in accordance with the New Zealand Transport Agency's Diagram D, as outlined in the Planning Policy Manual (2007) and attached to this consent as Appendix B. Works shall include a 15m turn in/turn out radius and sealing back to the property boundary. Evidence shall be provided to the Planning Manager, Mackenzie District Council, in writing that all works have been completed to the satisfaction of the Waka Kotahi/New Zealand Transport Agency's Network Manager.

32. The gravel track providing access to the gravel extraction site shall be maintained for the duration of the activity to ensure driver safety. If necessary, the track shall be re-laid with gravel and any potholes filled.
33. Vehicle speeds shall be limited to 20km/h on the site at all times.

Costs

34. All actual and reasonable costs incurred by the Council in monitoring, enforcement and administration of this resource consent shall be met by the consent holder.

ADVICE NOTES

Access

Before any physical work on the state highway is undertaken on the State Highway, including the formation of any vehicle crossing you are legally required to apply to Waka Kotahi for a Corridor Access Request (CAR) and for that request to be approved. Please submit your - CAR via www.beforeudig.co.nz and/or www.submitica.co.nz a minimum of fourteen working days prior to the commencement of any works on the state highway.

Pastoral Intensification

This resource consent does not authorise the intensification of land use through the process of agricultural conversion or pastoral intensification. A separate resource consent is required for a change in land use.

- *Agricultural Conversion: means direct drilling or cultivation (by ploughing, discing or otherwise) or irrigation.*
- *Pastoral Intensification: means subdivisional fencing and/or topdressing and oversowing.*

Commencement

This resource consent commences on the date the decision was notified, or on such later date as stated in the consent, unless an appeal or an objection has been lodged, at which time the consent commences when this has been decided or withdrawn, or in the case of an appeal to the Environment Court on such later date as the Court may state in its decision.

Right of Objection

If you do not agree with any of the conditions of this consent, you have a right to object to the condition under section 357A of the Act. Notice of any objection must be in writing, set out the reasons for the objection, and be lodged with the Mackenzie District Council within 15 working days of receipt of this decision.

Lapsing of Consents

A resource consent lapses on the date specified in the consent or, if no date is specified, 5 years after the date of commencement of the consent unless, before the consent lapses: the consent is given effect to; or, an application is made to the consent authority to extend the period after which the consent lapses, and the consent authority decides to grant an extension.

Review of Consent

A consent authority may, in accordance with section 129 of the Act, serve notice on a consent holder of its intention to review the conditions of a resource consent.

Monitoring of Consent

Pursuant to section 35 of the Act, the local authority shall monitor the exercise of this resource consent. This includes monitoring of the provision of any plans or documentation required by a condition of consent. Additional charges may apply for this monitoring.

Other Consents May Be Required

This resource consent authorises the Land Use or Subdivision applied for only. The consent does not give the consent holder the right to:

- Use, subdivide or develop land that contravenes a rule in the District Plan other than that which has been consented to by way of the subject application, or that which has already been legal established.
- Conduct any activity that requires resource consent from Environment Canterbury (ECAN). You are advised to contact ECAN to ascertain if consent is required for the proposed development.
- Authorise building or utility services construction work that requires separate consent/approval.

Charges

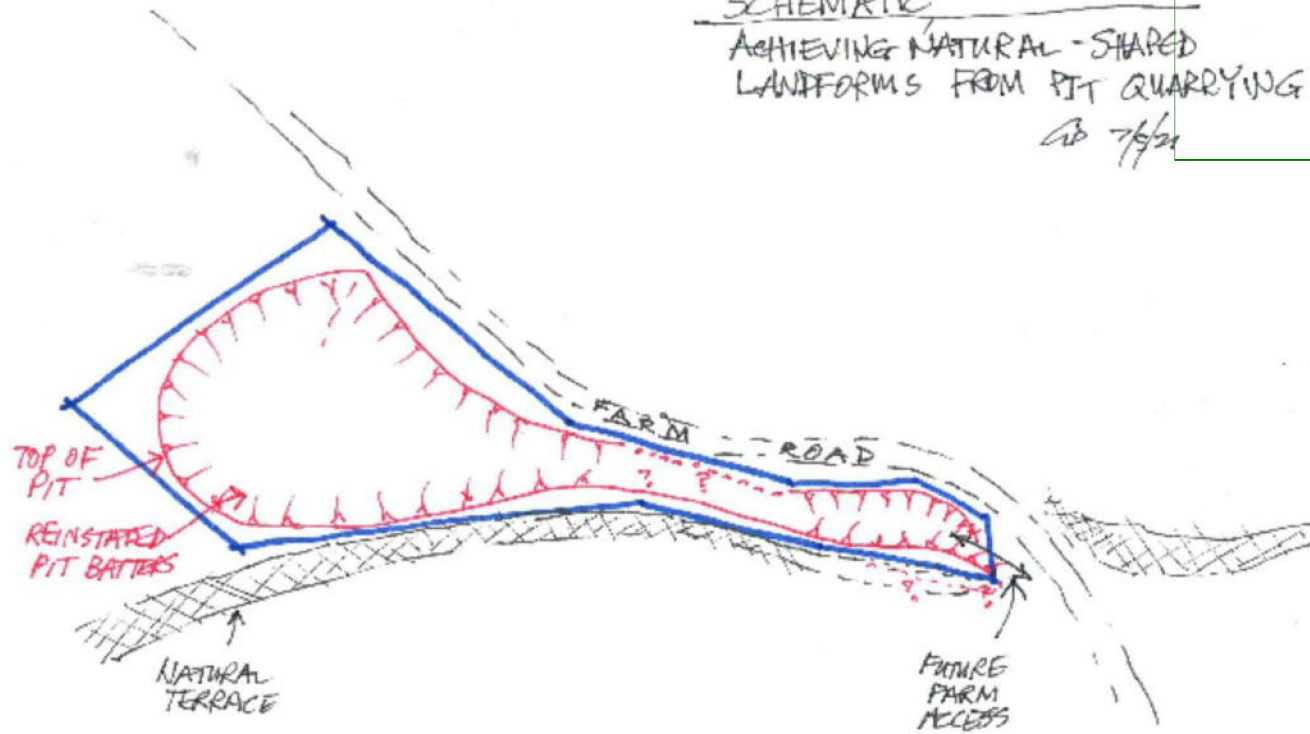

Charges, set in accordance with section 36 of the Act, shall be paid to the Mackenzie District Council for the carrying out of its functions in relation to the administration and monitoring of resource consents and for carrying out its functions under section 35 of the Act.

PLANNING MANAGER

REASONS FOR THE DECISION PURSUANT TO SECTION 113 OF THE RESOURCE MANAGEMENT ACT 1991

The recommendation contained within the attached Officer's Section 42A Report has been adopted as the reasons for decision under Section 113 of the Resource Management Act 1991.

SCHEDULE OF CONDITIONS

Pursuant to section 108 of the Resource Management Act 1991 this resource consent is subject to the following conditions.

1. The proposed activity must be undertaken in general accordance with the information provided with the resource consent application received by the Council on 15 June 2022.

ADVICE NOTES

Commencement

This resource consent commences on the date the decision was notified, or on such later date as stated in the consent, unless an appeal or an objection has been lodged, at which time the consent commences when this has been decided or withdrawn, or in the case of an appeal to the Environment Court on such later date as the Court may state in its decision.

Right of Objection

If you do not agree with any of the conditions of this consent, you have a right to object to the condition under Section 357A of the Act. Notice of any objection must be in writing, set out the reasons for the objection, and be lodged with the Mackenzie District Council within 15 working days of receipt of this decision.

Lapsing of Consents

A resource consent lapses on the date specified in the consent or, if no date is specified, five years after the date of commencement of the consent unless, before the consent lapses: the consent is given effect to; or, an application is made to the consent authority to extend the period after which the consent lapses, and the consent authority decides to grant an extension.

Review of Consent

A consent authority may, in accordance with section 129 of the Act, serve notice on a consent holder of its intention to review the conditions of a resource consent.

Monitoring of Consent

Pursuant to section 35 of the Act, the local authority shall monitor the exercise of this resource consent. This includes monitoring of the provision of any plans or documentation required by a condition of consent. Additional charges may apply for this monitoring.

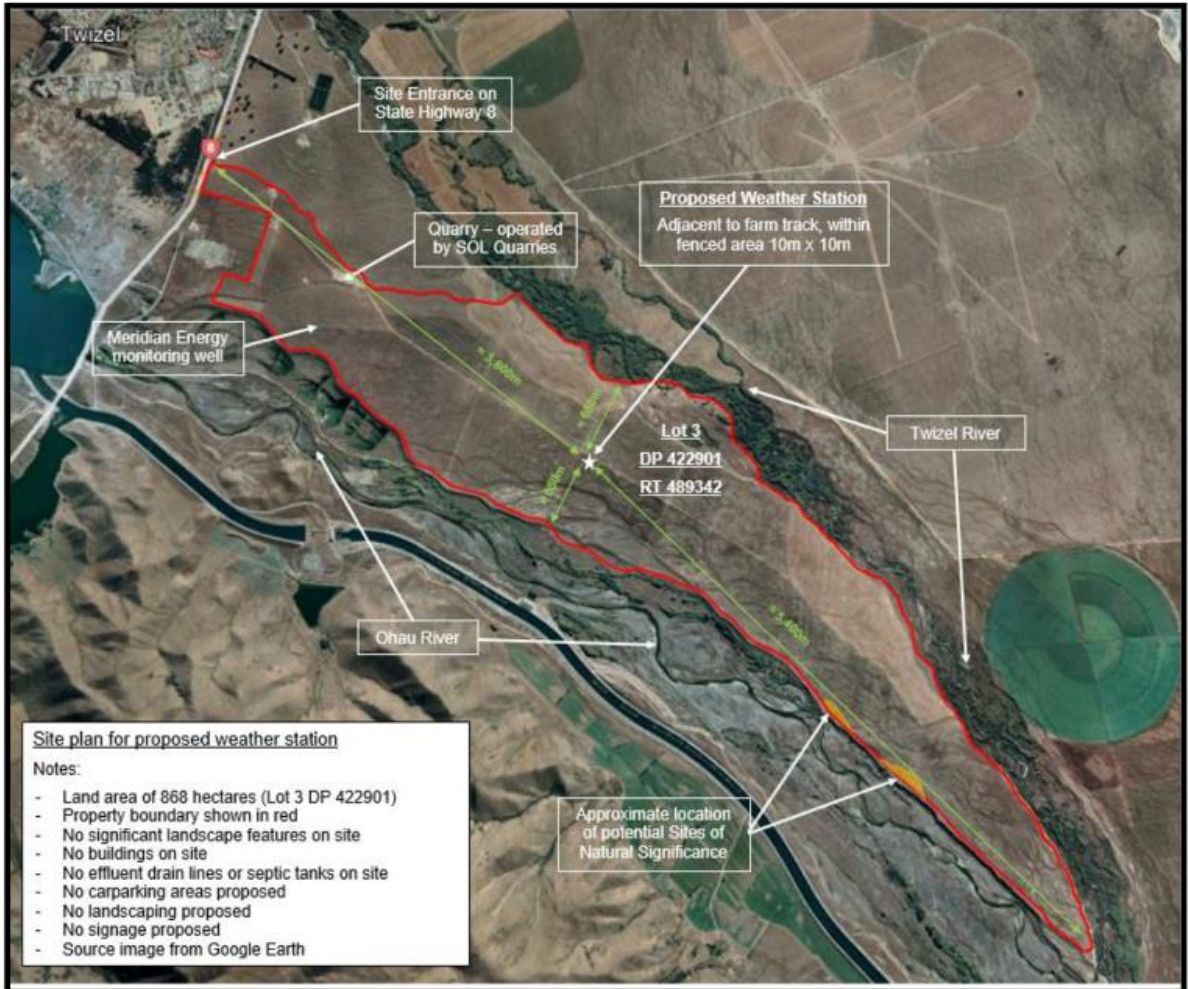

Other Consents May Be Required

This resource consent authorises the Land Use or Subdivision applied for only. The consent does not give the consent holder the right to:

- Use, subdivide or develop land that contravenes a rule in the District Plan other than that which has been consented to by way of the subject application, or that which has already been legal established.
- Conduct any activity that requires resource consent from Environment Canterbury (ECAN). You are advised to contact ECAN to ascertain if consent is required for the proposed development.
- Authorise building or utility services construction work that requires separate consent/approval.

Charges

Charges, set in accordance with section 36 of the Act, shall be paid to the Mackenzie District Council for the carrying out of its functions in relation to the administration and monitoring of resource consents and for carrying out its functions under section 35 of the Act.
