The Point Solar Farm Expert Panel (the Panel) has directed the Environmental Protection Authority (EPA) to request further information from you under section 67 of the Fast-track Approvals Act 2024 (the Act), relating to the Point Solar Farm application.

At the direction of the Panel, the EPA is seeking further information from you regarding the comments made by invited parties, in response to the Panel's Request for Information to those parties on the updated ecology information and conditions provided by you.

Some of the invited parties have made comments on the updated ecological information and conditions. We expect the Department of Conservation to submit a response on Wednesday 17 June 2026. This will be made available to you as soon as it is received.

It is appropriate that you (Far North Solar Farm) have the opportunity to provide information in response to those comments. The Panel does not have specific questions for you to answer, but would be assisted by you setting out:

- a) any further changes to the ecological assessments or mitigations proffered in response to those comments;
- b) providing any further changes to the draft conditions; and
- c) providing any other response to the comments of other parties on the updated ecological material;

that may assist the Panel's consideration of the proposal.

Supply of Information

In accordance with section 67(2) of the Act Far North Solar Farm Limited must:

- a) Provide electronic copies of the information or report requested; or
- b) Advise the EPA, with reasons that you decline to provide the information or report requested.

Accordingly, please provide the requested information to the EPA by **5pm Friday 19 June 2026**. If the information is not received by this date, the Panel will proceed on the basis that the request for further information has been declined.
