Your comment on the Barrytown Minerals Project

Please include all the contact details listed below with your comments and indicate whether you can receive further communications from us by email.

1. Contact Details	
Please ensure that you have authority to comment on the application on behalf of those named on this form.	
Organisation name (if relevant)	Wolfgang Jager Family Trust
First name	Wolfgang, Temiko, Leif
Last name	"Jager"
Postal address	[REDACTED]
Home phone / Mobile phone	[REDACTED]
Work phone	[REDACTED]
Email (a valid email address enables us to communicate efficiently with you)	[REDACTED]

2. We will email you draft conditions of consent for your comment	
☒ I can receive emails and my email address is correct	☐ I cannot receive emails and my postal address is correct

Thank you for your comments

Important information

Your personal information will be held by the EPA and used in relation to the project consent application process. You have the right to access and correct personal information held by the EPA. Certain information in relation to your comments on the application will become public as the EPA will publish a copy of your comments on the Fast-track website.

If you are a corporate entity making comments on this application, your full contact details will be publicly available. For individuals, your name will be publicly available, but your contact details (phone number, address, and email) will not be publicly available.

All information held by the EPA is subject to the Official Information Act 1982. If you believe any of the information you provide is confidential or sensitive and should be withheld from publication, please highlight the information concerned and provide an explanation to support your request for withholding it.

Minute of the Expert Panel

On 31 August 2026, the Panel released Minute 2 regarding this invitation to comment. This Minute can be read on the Fast-track website: <https://www.fasttrack.govt.nz/projects/barrytown-minerals-project/correspondence>.

Further Information

More information on the fast-track consenting process can be found at <https://www.fasttrack.govt.nz/>

Wolfgang Jager Family Trust

Comments

As the Wolfgang Jager Family Trust who has had land at canoe creek since 1995 we (Wolfgang, Temiko, & Leif Jager) strongly oppose the consent by Taiko minerals for

- resource consent
- wildlife approval
- archaeological authority,

on the following grounds - and in particular the large expansion plan which was not in the original proposal.

• My child Leif who attends Rangitoto School will be at greater risk biking, walking & crossing the highway, to the immense high number of truck trips along the Highway.

• The highway is a crossing zone, & near to the Westland Tāiko Black Petrel colony, which has not only biological, but culturally environmental significance to the area.

- As a young child, I (Teriko) was regularly engaged with the colony, whether through my attendance at Barrytown School, work at DOC Punakaiki for 4 years, or my own personal love & interest in the amazing bird. Only colony! Tourists and locals love these birds, and despite the conditions to consent by resource seekers - these birds will be negatively affected - particularly vital to consider given the chance of aviation bird flu affecting their numbers.

- I wolfgang, am concerned about the level of radiation that this will release. I am checking my home. How can the future generations be left to bear such health concerns and burdens? The 'Wild West Coast' - known as a retreat for other New Zealanders - "pure green" will be utterly tarnished. (2)

- recreation (such as Wagon horse tours, cycling, punting, training, swimming, horse riding, etc, will all be turned from a peaceful area to undergo, to a noisy / loud / dusty / heavy traffic zone. Banytown is not prepared for this - I, Teniko, recall biking to work everyday, and the impact the milk tankers had on my sense of safety, and pleasure.

- Banytown doesn't have the infrastructure to support the added persons and traffic. This will forever alter the 'quiet gem' I chose to raise my child & now grandchild. (Wolfgang)

- The Penguins will be impacted directly & by noise & vehicle traffic

- The wonder of greenstone walking, to peace & quiet, looking at the estuarine life and the fact that pollution will make its way to the ocean is disturbing. I have always treasured my Banytown flats as the place that grew me. The nature. Unaltered. Quiet. For nature. (Teniko) ③

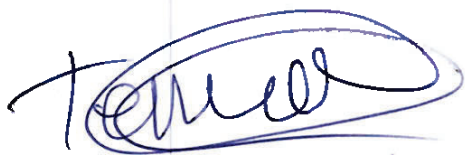

- The Banytown flats are truly one of a kind. The Rio Tinto mining destroyed a section of the flats that took years - generations - to put time / effort / passion into to have some semblance of restoration. These flats are cherished. I always told my daughter that if I won Lotto - I would buy the entire flats from Golden Tails → Kauru back to place under life long protection. I loved this spot since 1978, when I first arrived to New Zealand.
(Wolfgang)

- I like looking for greenstone. I like that the nature is real & quiet and I find it a happy place. I will be very upset. My mana is here, I was born here, and I love going to Banytown school, we all think it should be saved!
(Leif (12))

- I've volunteered cleaning up the Banytown flats, with Perrets, at school, biked countless 100's of kms. I am deeply invested in this space. Love it - against mining! (4)

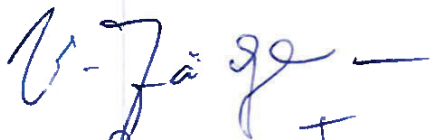

For these reasons, and for the
importance of protecting the
natural integrity of this special,
unique, & fragile ecosystem -
we Wolfgang, Temiko & Leif
Jager - of the Wolfgang
Jager Family Trust as invited
persons to comment - oppose - this
mine going ahead.

Kind Regards,
