

State Highway 29 Tauriko Network Connections (including Omanawa Bridge replacement)

Register of Members Interests

20 October 2026

Name	Declarations
Mary Hill (Chair)	When previously a partner at Cooney Lees Morgan, Mary advised Classic Developments in relation to Public Works Act acquisitions of land related to the SH29 Tauriko Enabling Works project.
Roger Seyb	Beca was involved in the design (a few years ago) of the Omanawa Bridge replacement which is currently under construction – I have had no involvement with the project and am unaware of any details of the project. Beca is involved in providing support to NZTA for the SH29 business case - I have had no involvement with the project and am unaware of any details of the project.
Don McKenzie	Was engaged by Tauranga Crossing Limited as transportation consultation over the course of the period (approx.) 2020 – 2023. During this period I provided preliminary advice on the Tauranga Crossing Limited submissions to NZTA on its indicative SH29 upgrading strategies. Have and currently working alongside BBO traffic engineering staff on various projects in Auckland and Queenstown.
Gavin Kemble	Worked under contract to Transit New Zealand for approximately 6 months (as a graduate planner) from November 1993. Worked for Bloxam Burnett and Olliver Limited from approximately April of 1994 to December 1996. Assisted the Tauranga City Council and Ngai Tamarawaho in securing the resource consents necessary to restore and rehabilitate the Kopurerua Valley. This

	work was completed between 15 and 20 years ago.
