MACRAES PHASE FOUR (MP4)

SOCIAL IMPACT

Evidence of Wendy Turvey Regarding
Technical Assessment of Social Effects
and Proposed Conditions

INTRODUCTION

1. My name is Wendy Turvey.
2. My role in relation to Macraes Phase 4 (“**MP4**”) has been to provide expert advice in relation to social impacts. I peer reviewed the Social Impact Assessment (“**the Report**”) which is provided within *Part B – Technical Reports* of the application.
3. This evidence has been prepared to accompany the Report and the application by Oceana Gold (New Zealand) Limited (“**OGNZL**”) for approvals required for MP4 under the Fast-track Approvals Act 2024 (“**FTAA**”).
4. Section 4.1(h) of the FTAA Panel Conveners’ Practice and Procedure note (July 2025) says all technical experts authoring reports should include a statement regarding compliance with the Code of Conduct for Expert Witnesses. This evidence has been prepared to fulfil this requirement, and if a hearing is not held, this evidence confirms that, relative to my area of expertise the Report provides an appropriate description of the relevant environment, the proposed activities comprising the effects of the MP4 on that environment, and the way those effects are proposed to be managed.
5. I reviewed the findings are set out in full in the Social Impact Assessment included within *Part B – Technical Reports* of the application.
6. While this application is not being considered by the Environment Court, I confirm that I have read the Code of Conduct for expert witnesses contained in the Environment Court of New Zealand Practice Note 2023 and that I have complied with it when preparing the Report. Other than when I state I am relying on the advice of another person, the Report is within my area of expertise. I have not omitted to consider material facts known to me that might alter or detract from the opinions that I express.

QUALIFICATIONS AND EXPERIENCE

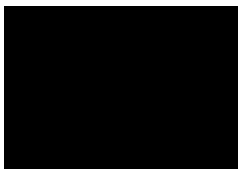

7. I hold the qualification of Bachelor of Science (Urban and Regional Planning) obtained from the University of the Witwatersrand, South Africa in 1986.
8. I am currently employed by WSP New Zealand Limited as Director – Research and Innovation and have held that position since 2015.
9. My previous work experience includes over 35 years of consulting experience with technical expertise in social impact assessment, planning and research. I have undertaken social impact assessments, been a technical reviewer or independent expert for numerous large infrastructure projects. I have been an expert witness and/or

provided evidence for numerous projects appealing at Council Hearings, Boards of Enquiry and Environment Court. I have mining experience from South Africa and have been involved in mining projects in New Zealand.

10. In providing this evidence, I have considered or reviewed the documentation as it pertains following matters as relevant to that topic:
 - (a) The project description provided by OGNZL as set out in Section 6 of the Substantive Application prepared by Mitchell Daysh Limited; and
 - (b) The description of the existing environment as set out in Section 4 of the Substantive Application, the effects of MP4 on that environment and their significance, and the proposals to manage those effects as all set out in the assessment of effects in Section 9 of the Substantive Application.

CONFIRMATION OF CONTENTS OF REPORT AND PROPOSED CONDITIONS

11. I confirm that in my opinion the Report contains an accurate and appropriate description of the environment, the actual and potential effects of MP4, and the recommended actions to manage those effects within my area of expertise.
12. I confirm that in my opinion the contents of the Report may be relied on in making a decision on the approvals sought for MP4 and confirm that provided effects within my area of expertise are managed as proposed in the application those effects will not be unacceptable and will be managed to a standard that I consider meets good practice.
13. I confirm that I have reviewed the conditions that OGNZL proposes for the various approvals being sought as they relate to my area of expertise. I confirm that in my opinion those proposed conditions are appropriate.
