

as many eels and trout died that time.

5. Insurability Risk

If we move flooding around the area insurance could become a real worry for many residents and the value of our properties possibly decrease in value and selling could become hard.

6. Absence of Net Economic Benefits

there are no benefits for the present residents that already live in Onoke. only the developers will benefit from this and just walk away ~~to~~ when finished with the project

7. Anything Else

Not look forward to years of trucks bringing in fill and all the ground shaking dust and noise.
