Subject: AgResearch Life Cycle Analysis Carbon Footprint for your farm
Attachments: extra farms results.xlsx

Afternoon Stuart,

Please find the results of the AgResearch Life Cycle Analysis Carbon Footprint for your farm. The total emissions are sitting at around 1.1 to 1.2 million kgs of carbon per year.

The breakdown of the data is in the attached spreadsheet (probably needs explanation if you dive into it).

Farm	Year	Milksolids	Emissions factor (kg CO2-e/kg MS)	Total emissions (kg CO2-e)
237	2020/2021	95,534	11.9867	1,145,137
237	2020/2021	96,000	12.735	1,222,560

Best Regards,

Caleb Higham

Hi Caleb

I have provided you with access.

Thanks - Stuart
